General Examination Instructions

Note: These instructions are to be considered as part of the advertised requirements unless specific exception is made.

Age and Sex: All examinations are open to both men and women of all ages unless advertisement states otherwise.

Citizenship and Residence: At the date of filing applications—Candidates must be citizens of the United States and residents of the State of New York. The foregoing provision regarding residence does not apply to candidates for license examinations, except as provided in the notice for a particular examination under the heading "Requirements."

At the time of appointment—Candidates must comply with that section of the Administrative Code which provides that any office or position, compensation for which is payable solely or in part from the funds of this City, shall be filed only by a person who is a bona fide resident and dweller of the City for at least three years immediately preceding appointment. (This provision does not apply to the following departments: Board of Transportation; Board of Water Supply; New York City Housing Authority; Municipal Civil Service Commission; Triborough Bridge Authority; New York City Tunnel Authority; Board of Education; Board of Higher Education.)

Applications for examinations must be filed on forms furnished by the Commission at its Application Bureau, 96 Duane st., Manhattan, N. Y. 7. The Application Bureau is open for business on weekdays and Saturdays from 9 a. m. to 4 p. m. Application blanks are also mailed on request, provided that a self-addressed 9-inch envelope stamped six cents for return, is enclosed.

Filing: Unless otherwise specified, applications may be filed either in person or through the mails. Applications submitted through the mails must be stamped at the rate of three cents an ounce. Applications mailed to the Commission with insufficient postage will be rejected. Applications submitted through the mails must be accompanied by a certified check or money order in the amount of the fee, and must be postmarked on the envelope not later than 12 midnight on the last day for filing. Such application must also be received not more than five days thereafter, unless eligibility in the advertisement is nation-wide. The official notice to appear for the examination is also the receipt for the payment of the fee. Applicants are cautioned not to send cash through the mails. Mailed applications must have the position applied for noted on the lower left hand corner of the envelope, and the return address noted in the upper left hand corner. Special envelopes designed to meet these requirements may be obtained at the time the application is requested.

Applications submitted in person must be filed during the normal hours of business of the Application Bureau noted above. In such cases, the fee must be paid at the time of filing by cash, check or money order.

Change of Address: Candidates for examination and eligibles on the lists must notify the Commission promptly of all changes of address between the time of filing the application and appointment to a permanent position from the list. Failure to do so may disqualify them on any part or parts of the examination which have not already been held.

Refunds: There is no fee charged for the application. Candidates in open competitive examinations whose applications are rejected will receive a refund of their fee from the Comptroller's Office one month after receipt of their notice of rejection, in promotion examinations one month after the examination is held. No fees will be refunded to candidates who fail to appear for examinations for which they are qualified or who fail to pass in any part of such examinations.

Pass Marks: Unless otherwise specified, the pass marks on each test is fixed in accordance with the needs of the service.

Caution: The Commission cannot assume any responsibility for the non-delivery of applications requested through the mails, nor for the loss of any cash submitted with such applications.

Notarization: All applications must be notarized except in the case of promotion examinations.

Unless otherwise specified, no supplementary statements of any kind will be accepted from candidates after the filing date for the receipt of applications in the rating of training, or experience, or personal qualifications.

Except as otherwise specifically stated in advertisements, all preliminary training or other qualifications required for the examination must be completed on or before the date of application.

Training, experience and personal qualifications may be rated after an examination of the candidate's application and after an oral interview or such other inquiry or investigation as may be deemed necessary.

To be satisfactory, the experience prescribed, in addition to covering the period fixed herein, must also be of such a nature and quality as to warrant the inference that the candidate is fit to perform the duties of this position. The initial experience rating, therefore, is not necessarily final. If investigation on inquiry discloses that the candidate's experience is not of the nature or quality desired then he may be either rerated or failed in experience. Mere admission to the examination in any test thereof is not conclusive on the Commission as to the qualifications of any candidate.

Admission to the examination or to any part of it, conditionally or pending subsequent determination of qualifications does not imply that the candidate possesses the minimum qualifications required for the position or is entitled to a passing rating on the experience part of the examination. If the experience interview, held after the written or other parts of the examination, discloses that the candidate lacks the requisite experience or education, he may be disqualified or given less than a passing rating for experience.

Not more than four months of provisional employment in the position for which an examination is held may be credited in the rating of experience.

Selective Certification: At the request of a department head or upon its own initiative, the Commission may make selective certification of a list resulting from any examination to similar or related positions which require additional or special qualifications not tested specifically by the examination. Such selective certification, except where made on the basis of age or additional or special physical or medical qualifications, will be made only upon due notice to all eligibles affected on this list, and only to obtain eligibles who possess such special qualifications or abilities as can be evidenced by experience record, or by the possession of a license, or by the possession of specified paraphernalia, equipment or facilities or the passing of a qualified test. Eligibles who pass a non-competitive test administered by the Commission to ascertain the possession of such special qualifications will be certified to such similar or related positions in the order of their standing on the original list.

General Medical and Physical Standards: No disease, injury or abnormality that tends to impair health or usefulness. Other medical and physical standards may be specifically required.

EXAMINE WITH EXTREME CARE THE PRELIMINARY REQUIREMENTS PRESCRIBED.

Appointments: In the case of graded positions, appointments are usually made at the minimum salary of the grade. The eligible list may be used for appropriate positions in lower grades. In the case of ungraded positions, appointments are usually made at the salary advertised but subject to final determination of the Budget Director. In the case of per diem positions, the salary advertised is the one presently paid.

Promotion Examinations: The rules of the Municipal Civil Service Commission provide that in determining eligibility for promotion, the titles of positions and the duties which are naturally and properly attached thereto shall be considered. Duties which have been performed not in accordance with the title, or alleged personal qualifications, shall not be considered in determining eligibility.

Any employee serving under a title, not mentioned in the eligibility requirements, but which he believes falls within the provisions of the above rule, may file an application and an appeal to compete in the examination during the period stated in the advertisement. No appeals will be received after 4 p. m. on the closing date for the receipt of applications.

All persons on the preferred list for titles included under eligibility requirements are likewise eligible to participate in this examination.

The Company hereby agrees not to offer any opposition before the Public Service Commission to the granting of a certificate of convenience and necessity and of permission and approval by the said Commission to any corporation or person to whom the City has granted or may hereinafter grant a franchise to operate on the "additional streets". Should the Company, through its officers, representatives, counsel or other interested party, offer such opposition, such action on the part of the Company shall constitute a default and shall entitle the City to cancel this contract and terminate the franchise, right and consent hereby granted.

The Company agrees that during the fourteenth (14th) month prior to the expiration of the term of this franchise, right and consent, it will notify the Board in writing, of its intention or lack of intention to apply for a renewal thereof. Section 7. Within thirty (30) days after the date of this contract or such further time as the Board may allow prior to the expiration of said thirty (30) days, the Company shall apply to the Public Service Commission for the issuance of a certificate or certificates of convenience and necessity and approval pursuant to the Transportation Corporations Law and for permission and approval pursuant to the Public Service Law, to exercise the franchise, right and consent herein granted as to the authorized route (which certificate or certificates, permission and approval, are hereinafter referred to as "Commission Approval"). Section 9. If such determination shall not permit operation over all of the streets described in the authorized route, the Board shall have the option, if exercised within thirty (30) days from the date of such determination, either to consent to operation upon those streets for which the Company has procured Commission Approval or to cancel this contract, in which latter event, the contract, right and consent herein granted shall cease and determine. The failure of the City to exercise the foregoing option within said thirty (30) day period shall be deemed to constitute its consent to the operation along less than all of the streets herein authorized for which Commission Approval has been secured.

Section 10. If the City does not exercise the option reserved in the preceding section to terminate the within contract, the Company shall have the right within one (1) year after the date of the order or determination of the said Commission, or within such further period as the Board may allow prior to the expiration of said one (1) year to procure the requisite Commission Approval for the remaining streets. The Company shall have no further right thereafter to proceed in any manner with respect to the then remaining streets which shall be regarded as if not included in the authorized routes set forth in this contract.

Section 11. The Company shall commence operation on the authorized routes within three (3) days after procuring Commission Approval.

Section 14. Payment of compensation hereunder shall not be considered in any manner to be in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description which are now or may, at any time hereafter, be required to be paid by any ordinance or local law of the City or any law of the State of New York.

Section 15. The charges or payments shall continue throughout the whole term of this contract, notwithstanding any clause in any statute or in the charter of any other Company providing for payments for similar rights or franchises at a different rate.

Section 30. It is understood and agreed between the parties hereto that the Board has determined the money value of the franchise, right and consent herein granted and the compensation to be paid therefor on the basis of operation at the maximum rate of fare herein fixed, and that the length of the route has been determined by the Board and accepted by the Company upon the basis of operation at the maximum rate of fare herein fixed, and it is further understood and agreed between the parties hereto that any increase in the rate of fare, above that herein fixed and contained, would affect and change the very substance of the consideration for which this franchise has been granted by the City and accepted by the Company. Actuated by these mutual understandings and agreements, the Company hereby expressly agrees that if, without the consent of the Board, granted as provided in Chapter 14 of the New York City Charter, or as may hereafter be provided with respect to the granting of franchises, the Company shall invoke any of the provisions of any statute or avail itself of the authority of any body claiming to have jurisdiction, for the purpose of obtaining an increase in the rate of fare above that fixed and contained herein, or if on the authority or claimed authority of any judicial decision heretofore or hereafter made, or otherwise, the Company shall, without like consent, increase its rate of fare above that fixed and contained herein, this contract and the franchise, right and consent hereby granted shall immediately cease and determine.

It is not the intention of the parties hereto that anything herein contained will or can prevent the exercise of any lawful power by any regulatory or judicial authority, but it is the express understanding and agreement of the parties that the continued maintenance of the maximum rate of fare herein fixed, being of the essence of this contract, such rate of fare shall not be increased, except with the consent of the Board and any increase or attempted increase of such rate of fare by the Company, shall result in the termination of this contract and of all rights hereunder as hereinabove provided.

ARTICLE VIII
Removal of Snow and Ice

Section 31. The Company shall, at its own expense, keep its route along all the streets and avenues upon which the Company is hereby authorized to operate, free of snow and ice and shall do everything necessary during the presence of such snow and ice to maintain and continue the operation of its omnibuses on the regularly established schedules required in the performance of this contract, and if, in order so to operate it shall be necessary to plow or move any snow or ice from the roadway or any part thereof over which the Company's omnibuses are authorized to operate, then all such work, plowing or moving of said snow or ice, shall promptly be performed by the Company under the supervision of the Department of Sanitation, and all such work shall be performed without in any wise obstructing any of the crosswalks of the streets or avenues involved.

In the event, however, that the Company shall, after one hour's notice given to it by the Department of Sanitation, fail or neglect so to perform, and if thereupon the City shall plow or move snow or ice which the Company is required to plow or move hereunder, then and in such event and anything herein contained to the contrary, notwithstanding, the Company shall pay to the City for any and all such plowing or moving done by the City's forces, and irrespective of the Company's

consent thereto, for each day or any part thereof during which the City's forces plow or move any snow or ice along any part of the Company's routes after the commencement of a fall of snow and prior to the expiration of forty-eight (48) hours succeeding the cessation of such snowfall in each instance, the sum of one dollar ($1) for each one hundred (100) lineal feet, in one direction, plowed or moved by the City's forces.

Nothing herein contained, however, is intended to nor shall it obligate the City to plow or move any snow or ice along the Company's route or any part thereof; nor shall anything herein contained obligate the Company to cart or haul away any snow or ice or to pay the expense of such cartage and hauling.

The determination as to the necessity for plowing or moving snow or ice, or the adequacy thereof, along the Company's route within the purview of this section shall be vested solely in the City or its Department having jurisdiction over the removal of snow or ice along the public thoroughfares and the determination of the City or such Department and the performance of the work by the City's forces shall be final and conclusive on the Company as to the necessity therefor.

ARTICLE IX

Section 35. Section 39. The Company shall not be deemed nor declared to be in default under any of the conditions, provisions, requirements or limitations of this contract in any case in which the performance of any such conditions, provision, requirement or limitation is prevented by reason of strikes, injunctions or other causes beyond the control of the Company, provided that the Company shall not have instigated such strikes, or shall not have been responsible for suits or injunctions or other causes of delay.
