Whereas, The dreadful results of the prevalence of yellow fever, which is now depopulating some of the chief cities in the Southern States, admonishes the authorities of this city to take such sanitary precautions as will secure immunity from that dreaded disease, or lessen the liability of its introduction; and as clean streets, and the removal of garbage and other refuse and offensive substances from the street gutters will tend materially to that end, be it

Resolved, That the Departments of Police and Health be and they are hereby earnestly recommended, and as far as this Common Council has the power, directed to cause the gutters in the several streets of this city, where the population is the most dense and the street gutters the most foul, to be thoroughly washed and cleansed every morning, from six until seven o'clock, until November 1, 1878, by opening or causing the several fire-hydrants to be opened, and the full force of the Croton water, now happily abundant, to be discharged into the gutters, in order properly and efficiently to cleanse and purify them, and thereby lessen the liability of yellow fever or any other disease making a lodgment in this city.

PETITIONS.

By Alderman Sauer—

Petition as to repavement of streets and appropriation to be asked therefor of \$500,000.

To the Honorable the Board of Aldermen of the City of New York:

The undersigned, being taxpayers of New York City, and members of the Twentieth Ward Taxpayers' Association, do respectfully submit and represent:

That for years past repavement of many of the streets in this city has been a sore necessity, especially the cobble-stone streets, whose condition has gradually become more and more dilapidated.

That such imperfect pavements, by facilitating the accumulation of filth and standing water, are likely to propagate and spread malaria and disease, and particularly now, in view of the danger of malignant fever here, prevalent in other parts of the country by reason of similar causes, should our city take this matter of defective street pavements in hand at once and endeavor to improve the state thereof as much and as quickly as possible.

That, we submit, labor, being in want of work, and cheap, should be now so employed; and that new and substantial pavements are desired in place of repairing worn out cobble-stone streets.

That it is more costly to merely repair and relay the cobble-stone pavements, since doing so three or four times is quite as expensive as a new Belgian pavement, and never durable and lasting.

In fact, cobble-stone pavements are impracticable in a large commercial city, where there is such heavy traffic on the streets as here.

That streets with granite or Belgian pavements are much more easily kept neat and clean, whereby the health of the city will be more readily preserved, which is a sanitary benefit to all the people, and the cost of cleansing the city's streets will be greatly reduced, the cleaning of the cobble-stone streets being exceedingly difficult and expensive.

That the streets generally require such a repavement, as aforesaid, is shown by the condition of the same in our portion of the city, to wit, so present pavements in—

Twenty-sixth street, between Eighth and Eleventh avenues, very bad condition, twenty to thirty holes in each block.

Twenty-seventh, Thirty-first, and Thirty-second streets, between Ninth and Eleventh avenues; and Thirtieth street, between Seventh and Eighth avenues, all in bad condition.

Tenth avenue, from Twenty-sixth to Forty-second street, very bad condition, with numerous holes.

Thirty-fifth street, between Seventh and Eleventh avenues, in very bad state, over one hundred holes.

Thirty-eighth street, between Eighth and Eleventh avenues, very bad condition, twenty to thirty holes in each block.

Thirty-ninth street, between Ninth and Eleventh avenues, in bad state.

Fortieth street, between Tenth and Eleventh avenues, in bad state.

That, as hitherto, the appropriations for the purpose have been comparatively small, considering the extent of repavement to be done, the undersigned, believing this beneficial work can no longer be postponed, at least as to many of the streets without positive detriment to the public interest, do respectfully ask that your Honorable Body may take such action hereupon as may be conducive towards obtaining this year from the Board of Apportionment the full authorized appropriation of \$500,000 for the repaving of cobble-stone streets in this city with substantial pavements.

And your petitioners will ever pray.
Dated New York, September 2, 1878.

REPORTS.

To the Board of Aldermen, etc.:

Your Committee have duly considered the accompanying ordinance, and

REPORT:

That, waiving any question as to the power of this Board to enforce the contemplated ordinance, it would be highly inexpedient, serving only to obstruct the public business should that ordinance be enforced.

The proceedings of the several Boards are required to be made public by law, and this serves all practicable purposes.

New York, August 29, 1878.

Whereas, A reprehensible practice prevails in many of the Departments of the city government, viz., that of holding private or secret sessions or meetings for the transaction of public business; and

Whereas, Great detriment to the public interests is liable to be the result of denying the public admission to the meetings of these Commissioners. The people have an undoubted right to be present, if they see fit, at the business meetings of those whom they select as their agents or servants to watch their proceedings and to hold them to a just accountability for their acts, and they are justified in regarding with suspicion the conduct of public officials who refuse them the exercise of this right, or who are apparently unwilling to give publicity to their proceedings until some time after they have transpired; and

Whereas, Section 90 of chapter 335, Laws of 1873, clearly gives the Common Council power to prevent a longer continuance of this method of transacting public business, and as no emergency can possibly arise that would justify holding such meetings in secret; be it therefore

Ordained by the Mayor, Aldermen, and Commonalty of the City of New York, in Common Council convened, as follows:

Section 1. All meetings of the Boards or Commissions constituting Departments of the city government of the City of New York, for the transaction of public business, shall be held openly, and shall, in all cases, be accessible to the public. Such meetings shall be held at such times and places as may be determined upon by each of such Departments, and due notice thereof shall be published daily in the CITY RECORD.

Sec. 2. This ordinance shall take effect immediately.

REPORT:

That it is the opinion of your Committee that the said resolution should be adopted, because of the convenience and substantial benefit which will accrue to the public from the erection of the contemplated barge office.

New York, August 29, 1878.

Resolved, That the Mayor and Clerk of the Common Council do execute and deliver to the United States of America a proper deed of conveyance, to be approved by the Counsel to the Corporation, of all the estate, right, title, and interest of the Mayor, Aldermen, and Commonalty of the City of New York in and to the triangular piece of land, being that portion of the grounds commonly known as the Battery, in the City of New York, lying westwardly of and adjoining the lands now belonging to the United States, and between such lands and the slip or basin in the said Battery, known as the New Whitehall boat slip.

That said conveyance be made for and upon such pecuniary consideration, nominal or otherwise, as shall be agreed upon by and between the United States and the Commissioners of the Sinking Fund of the City and County of New York, and upon the proviso and condition to be embodied in said conveyance that said lands, or so much thereof as may be required by the United States, shall be filled in wholly by and at the expense of the United States, and that the filling in and construction of the exterior wall of the Battery extension in front of the lands so conveyed shall be made by and at the expense of the United States, such exterior wall to be equal in character and quality to that in front of the other portion of the said Battery extension; and also upon the proviso and condition that the title thereby conveyed shall revert to the city whenever the said premises shall cease to be used and occupied by the United States for a barge office and other suitable buildings and structures for the transaction of public business connected with the United States revenue service, and for the landing of revenue and other government boats and barges for the use, convenience, and accommodation of the United States Custom-house for the Port of New York.

MOTIONS AND RESOLUTIONS RESUMED.

By Alderman Sheils—

Resolved, That the grade of Sixty-third street, between Ninth and Tenth avenues, be changed as shown on accompanying plan, under the direction of the Commissioner of Public Works; and that the accompanying ordinance therefor be adopted.

MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

EXECUTIVE DEPARTMENT—CITY HALL, }
NEW YORK, September 2, 1878. }

To the Honorable the Common Council:

GENTLEMEN—I herewith return, without my approval, the resolution requesting the Mayor to communicate with the Commissioner of Public Works and to require him to furnish the information requested by a resolution of the Board of Aldermen adopted June 11, 1878.

I am informed by the Commissioner of Public Works that the required information has already been prepared and will be transmitted to the Board of Aldermen at its next meeting. The delay in transmitting this information has been caused by the fact that part of the information required could only be obtained from the books of the Register of Croton Water Rents, and the resolution of inquiry was adopted at a time when these books were in constant use in the matter of receiving the Croton water rents for the present year, and access could not be conveniently had to these books until some time after the first of August, the time fixed by law for the payment of Croton water rents, a penalty being imposed upon all rents paid after that date.

SMITH ELY, JR., Mayor.

Whereas, At a meeting of the Board of Aldermen, held on June 11, 1878, a certain resolution was adopted, which was approved of by the Mayor, calling upon the Commissioner of Public Works for certain information, relative to the cost of the "high service" of Croton water, etc., which said information said Commissioner was requested to furnish at the next meeting of this Board; and

Whereas, Said Commissioner has failed to furnish said information, although the public interests demand that the same should be had by this Board;

Resolved, Therefore, that his Honor the Mayor be and he is hereby requested to communicate with said Commissioner, and require him to furnish to him (the Mayor) the information called for by said resolution, within such reasonable time as his Honor the Mayor may direct, and that such information, when obtained, be communicated to this Board.

Which was laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

EXECUTIVE DEPARTMENT—CITY HALL, }
NEW YORK, September 3, 1878. }

To the Honorable the Common Council:

GENTLEMEN—I herewith return, without my approval, the resolution "To erect a fire-hydrant on the southwest corner of Avenue A and Seventy-third street."

The Commissioner of Public Works informs me that there are no water-mains at this point, and none within a block of Seventy-third street, and that the expense of laying a main simply to supply this hydrant would be unwarrantable, and I am therefore constrained to withhold my approval of the resolution.

SMITH ELY, JR., Mayor.

Resolved, That a fire-hydrant be erected on the southwest corner of Avenue A and Seventy-third street, under the direction of the Commissioner of Public Works.

The President laid before the Board the following communication from the Department of Public Works:

DEPARTMENT OF PUBLIC WORKS,

NEW YORK, September 2, 1878.

To the Honorable the Board of Aldermen:

GENTLEMEN—I herewith transmit to you a duplicate of a communication sent this day to his Honor the Mayor, being a statement of amounts required for the several appropriations under this Department for the year 1879.

Very respectfully,
HUBERT O. THOMPSON,
Deputy and Acting Commissioner of Public Works.

(Duplicate.)

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, ROOM 19, CITY HALL,
NEW YORK, August 31, 1878.

Hon. SMITH ELY, Jr., Mayor, and Chairman Board of Estimate and Apportionment:

SIR—In accordance with section 112 of the Charter, and with the circular letter from the Comptroller, dated August 5, 1878, I have the honor to submit the following estimate of the amount required to conduct the business of the Department of Public Works for the year 1879.

Aqueduct Repairs and Maintenance..... \$115,000 00
Increase over appropriation for 1878..... 15,000 00

The Chief Engineer's estimate for this appropriation is \$125,000.
The appropriation of \$100,000 for the current year was found insufficient, and has been supplemented by a transfer of \$10,000. The demands upon this appropriation will be increased next year by additional taxes for land in Putnam County, and the care of the new reservoir on the middle branch of the Croton and the road surrounding it.

In consequence of the necessity of carrying in the aqueduct a much large volume of water than was originally contemplated, the work of strengthening the structure to enable it to bear the additional strain must be continued. This is done by turning an additional arch over certain parts of the structure, raising the spandrils and protection walls, and adding to the side embankments, as shown by the annexed plan. The safety of the one conduit upon which the city depends for its water supply, requires that the full amount herein asked for be appropriated.

Boulevards, Roads, and Avenues, Maintenance of..... \$45,000 00
Increase over appropriation for 1878..... 5,000 00

It is with great reluctance that I ask for an increased appropriation, but in this instance sound economy demands it. The appropriation for maintenance of boulevard roadways has been largely reduced during the past five years. In 1874 it was \$75,000; in 1875, \$70,000; in 1876, \$45,000; in 1877, \$45,000; in 1878, \$40,000. To prevent the disintegration of these roadways, they require constant attendance and a considerable quantity of gravel and other road material to keep the surface hard and smooth. It has also been found necessary to pave the gutters with stone-blocks, where steep grades occur, to prevent the washing away of the surface. Some of the older roadways require renewal. This year's appropriation is not sufficient to carry on this work to the extent desirable, and the Engineer in charge of these roads asks for an appropriation of \$75,000. In view of the necessity of keeping down taxation, however, I have concluded to ask for \$45,000 only, and hope that this amount will be appropriated.

Contingencies—Department of Public Works..... \$2,500 00

This amount is necessary to cover traveling expenses of officers of the Department, in the discharge of public duties, postage, and other incidental expenses.

Flagging Sidewalks, and Fencing Vacant Lots in front of City Property..... \$1,000 00

The necessary repairs to sidewalks in front of city property requires this appropriation.

Free Floating Baths..... \$13,500 00

The total expense of maintaining the six public baths for the year 1879 is estimated at \$17,500, or \$2,917 for each bath. There will be a balance of \$4,000 in the appropriation for new baths, made under the law of 1876, leaving \$13,500 to be provided for in the estimate of 1879. The average cost of maintaining the baths for the past four years has been \$4,100 each per annum.

The extensive use of the public baths, and their advantages in a sanitary point of view, would render desirable the construction of two additional baths (cost, \$7,500 each), but I have concluded not to ask the appropriation for the present.

Lamps and Gas..... \$530,000 00
Reduction on appropriation for 1878..... 70,000 00

This estimate is based on about the prices now paid for lighting public lamps, which are much lower than at any time since the city was lighted with gas, and lower than those paid in any other city in this country. On the first of January there will be 21,606 public lamps, and the estimate provides for an increase of 760 lamps during the year 1879.

An additional demand on this appropriation is created by the amendment to the Military Code passed at the last session of the Legislature, by which the city is required to pay for lighting the armories of the militia.

Public Buildings—Construction and Repairs..... \$35,000 00

The appropriation of \$35,000 for 1878 was supplemented by a transfer of \$5,000.

Although the public buildings require constant care and repairs, I have come to the conclusion that the above amount will be sufficient to cover such repairs as are absolutely necessary.

Public Drinking Hydrants..... \$4,000 00
Increase over appropriation for 1878..... 1,000 00

The appropriations for 1877 and 1878 have been barely sufficient to provide for the necessary repairs to existing hydrants and fountains, leaving no provision for the erection of new ones ordered by the Common Council.

It is deemed necessary for the public convenience that a moderate allowance be made for additional drinking hydrants, as provided in the above estimate.

Removing Obstructions in Streets and Avenues..... \$4,000 00

To properly discharge the duty of the Department of keeping some 300 miles of streets free of obstructions it is necessary that this amount be appropriated.

Repairing and Renewal of Pipes, Stop-cocks, etc..... \$100,000 00
Increase over appropriation of 1878..... 10,000 00

In determining the amount of this appropriation it is necessary to bear in mind that the length of pipes for distributing Croton water has been increased fifty per cent. within the past ten years, over forty miles of pipes having been laid since January 1, 1876. We will have, in 1879, 450 miles of pipes, 4,500 fire-hydrants, and 3,538 stop-cocks to maintain. The greater portion of the pipes in the lower part of the city have been in use more than thirty years, and those contiguous to the waterfront have become weakened by corrosion from contact with salt water. Many stop-cocks are also rusted and worn out, so as to become unsafe.

Within the past few years it has become necessary to adopt special measures to suppress waste of Croton water from leaks and other causes, that the supply furnished by the aqueduct might be sufficient for the actual needs of the population. In view of these circumstances I deem it necessary that the appropriation be made not less than \$100,000.

Repaving, under chapter 476, Laws 1875..... \$500,000 00
Increase over appropriation of 1878..... \$200,000 00

The appropriation of \$300,000 for this year has been supplemented by a transfer of \$65,000.

The present area of pavements in this city is as follows:

	Sq. yards.
Guided pavement.....	83,826
Granite.....	567,933
Trap-block.....	4,172,059
Concrete.....	13,080
Concrete over cobble.....	60,800
Wood patched with trap-block.....	168,100
Cobble.....	1,680,471
Total.....	6,746,269

The sooner the concrete and wooden pavements and a large portion of the cobble pavement in the most frequented thoroughfares are replaced by stone-blocks the better for the public interests. It will require the full appropriation allowed by the law of 1875 (\$500,000) for several years to accomplish this. It is my opinion, therefore, that true economy will be subserved by appropriating this amount for 1879. My reasons for this opinion are given in detail in my published reports, to which I beg to refer.

Repairs and Renewal of Pavements..... \$150,000 00

The Bureau estimate for this appropriation is \$200,000, but I have concluded to reduce it to \$150,000, being the amount of this year's appropriation. Although the Department has not been able to comply with the innumerable demands for repairs of streets, which are constantly coming in from the Police Department, the Health Department, and from private individuals, I believe that, with a liberal appropriation for repaving, we will be able with the above sum to make such repairs as are indispensably necessary for the convenience and safety of public travel and the public health.

Roads and Avenues and Sprinkling..... \$20,000 00

This amount was appropriated for the current year. The convenience of public travel in the upper part of the city requires that the roads and unpaved streets in the upper part of the city be maintained in fair condition. The more frequented roads, such as Kingsbridge road, Eighth avenue, above One Hundred and Twenty-second street, McComb's Dam road, Tenth avenue, from One

Hundred and Thirty-fourth to One Hundred and Fiftieth street, and Fifth avenue, above Ninetieth street, are sprinkled as often as necessary to make driving comfortable. The above amount will be necessary to cover this work.

The appropriation for salaries was—in 1874, \$170,000; in 1875, \$150,000; in 1876, \$110,000; in 1877, \$100,000; in 1878, \$95,000.

Sewers—Repairing and Cleaning..... \$60,000 00

Although constant additions are made to the sewerage system of the city, and many of the old sewers in the lower part of the city require frequent repairs, I have come to the conclusion that, with care and economy, the above sum, which is the same as this year's appropriation, will be sufficient to maintain the sewers, basins, culverts, and drains in good condition.

The present extent of sewers in Manhattan Island is 364 miles, with 4,429 receiving basins.

The necessity of making sufficient provision for maintaining an effective sewerage and drainage system is too apparent to need further demonstration. This could not be done if the appropriation was reduced below this estimate.

Street Improvements for Street Signs, etc..... \$1,000 00

The above amount was appropriated for the present year, and it is necessary that the appropriation be renewed to enable the Department to continue the work of resetting monuments showing street lines and grades, many of which have become displaced or obliterated in the progress of street improvements in the upper part of the city.

Supplying Water to Shipping and for Building Purposes..... \$12,000 00
Increase over appropriation for 1878..... 4,000 00

The above amount will be necessary to insure the prompt collection of the revenue from this source, and to repress waste of water along the river fronts. This revenue has been increased by \$53,104 from June 4, 1877, when the former contract terminated, to June 4, 1878, being more than ninety per cent.

Supplies for and Cleaning Public Offices..... \$90,000 00

In addition to the ordinary demands upon this appropriation during the coming year for supplies, furniture, fuel, cleaning public offices, etc., it will be necessary to fit up and furnish the new wing of the County Court-house for occupation, at an estimated expense of \$5,000. By the recent amendment to the Military Code the Department is also required to furnish fuel, camp-stools, etc., for the different armories, which will require about \$1,500. I believe, however, that the Department will be able to meet these special demands without increasing the appropriation, which is \$90,000 for the present year.

Wells and Pumps, Repairing and Cleaning..... \$2,000 00
Reduction in appropriation for 1878..... 1,000 00

In localities where Croton pipes have not been laid, the population depends upon wells and pumps for its water supply, and it is the duty of the Department to keep this supply pure and adequate by properly cleaning and repairing the wells and pumps.

Bridge across Fourth avenue at One Hundred and Sixteenth street..... \$17,500 00

By chapter 393, Laws of 1878, the Commissioner of Public Works is authorized and directed to construct an iron bridge at Fourth avenue and the Eastern Boulevard at One Hundred and Sixteenth street, the cost to be borne equally by the City of New York and the New York and Harlem Railroad Company. The cost of the bridge and necessary abutments and walls is estimated at \$35,000, and to comply with the above law it is necessary that half the above amount, \$17,500, be appropriated by the city.

The total amount of the appropriations made to the Department for the year 1878 is \$1,611,100. The above estimate is increased by the special appropriation of \$17,500, required for the bridge at Fourth avenue and One Hundred and Sixteenth street, and \$200,000 for repaving, leaving a reduction of \$32,100 on the other appropriations as compared with those of 1878.

I, Aug. "Whereas, Three of the company houses of this Department are in a condition necessitating rebuilding, and any further expenditures for repairs to the same would be a waste of public money; and

"Whereas, The amount necessary to rebuild the same has been found upon a close estimate to average ten thousand dollars for each house, and cannot be taken from the amount asked for apparatus, supplies, etc.; therefore be it

"Resolved, That an item of thirty thousand dollars (\$30,000), for building three new houses, be inserted in the estimate of the Department for the year 1879, and that the Board of Estimate and Apportionment be requested to allow the same in the interests of the public service.

NEW YORK, September 3, 1878. }

To the Honorable the Common Council :

GENTLEMEN—I herewith return, without my approval, the resolution giving permission to the Paragon Ashes and Garbage Vault Company, or any other company or individual for the same purpose, to place their receptacles in the sidewalks without payment of any fee to the city for the privilege.

I can conceive of no good reason why the payment of the small and reasonable fee required for the privilege of sinking these receptacles in the sidewalks should be lost to the city, and am therefore constrained to withhold my approval of the resolution.

SMITH ELY, JR., Mayor.

Resolved, That permission be and is hereby given to the Paragon Ashes and Garbage Vault Company, or any other company or individual for the same purpose, to place their receptacles in the sidewalks, near the curb-stones, whenever employed to do so by any owner or occupant of any house within the corporate limits of this city, without the payment of any fee to the city for the privilege.

Which was laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor :
EXECUTIVE DEPARTMENT—CITY HALL, }

To the Honorable the Common Council :

GENTLEMEN—I herewith return, without my approval, the resolution "To permit Christopher Coakley to keep a stand for the sale of fruit in front of Nos. 12, 14, and 16 Broad street."

I am of opinion that no stand for the sale of merchandize, in any of the streets, ought to be authorized or permitted by the Common Council, until the right of the Common Council to authorize such stands has been decided by the courts, and I am therefore constrained to withhold my approval of the resolution.

SMITH ELY, JR., Mayor.

Resolved, That permission be and the same is hereby given to Christopher Coakley to place and keep a stand for the sale of fruit in front of premises Nos. 12, 14, and 16 Broad street, he having obtained the consent of the owner and occupants of said premises, the work to be done at his own expense ; such permission to continue only during the pleasure of the Common Council.

Which was laid on the table, ordered to be printed in the minutes and published in full in the CITY RECORD.

COMMUNICATIONS FROM THE DEPARTMENTS AND CORPORATION OFFICERS RESUMED.

The President laid before the Board the following communication from the Ninth Judicial District Court :

NINTH JUDICIAL DISTRICT COURT,
125TH STREET, BETWEEN LEXINGTON AND 4TH AVENUES, }
NEW YORK, September 3, 1878. }

To the Honorable the Mayor, Aldermen, and Commonalty of the City of New York :

GENTLEMEN—On the 19th of February, 1874, a lease was executed by Wm. T. and Daniel C. Blodgett to the Mayor, etc., of a portion of the premises known as the "Harlem Market Building," on the north side of One Hundred and Twenty-fifth street and the south side of One Hundred and Twenty-sixth street, for the use of the Ninth District Civil Court and the Fifth District Police Court, for the term of five years, from January 1, 1874, at an annual rent of \$8,000.

The portion of the buildings embraced in the lease consists of the entire cellar of both buildings, the first, second, and third stories of the building on One Hundred and Twenty-sixth street, and the entire second floor of building on One Hundred and Twenty-fifth street.

The cellar of the building on One Hundred and Twenty-fifth street being used for storage purposes and, also, for a boiler, etc., used in heating with steam the second floor of the building on One Hundred and Twenty-fifth street ; the cellar of the building on One Hundred and Twenty-sixth street being used for prison purposes and for cooking for prisoners by the Commissioners of Charities and Correction.

The first floor of the One Hundred and Twenty-sixth street building being used as a prison ; the second and third floors of the same building having been assigned to and used by the Ninth District Civil Court, and the second floor of the One Hundred and Twenty-fifth street building having been assigned to and used as a court-room, etc., by the Fifth District Police Court.

The above lease will expire on the 31st day of December next, and it is important and requisite that early action should be had by your Honorable Body in order to provide suitable accommodations for said courts from and after January 1 next, in order that the business of said courts will not be interrupted, as heretofore.

I respectfully beg leave to call the attention of your Honorable Body to the fact that the rooms now occupied by the Ninth District Civil Court, for court-room and clerks' offices, are entirely inadequate for the transaction even of the present business of said court, which must necessarily annually increase to a large extent.

The jurisdiction of the Ninth Judicial Civil Court extends over all that portion of the city on a line north of the centre line of Eighty-sixth street, and extending to Kingsbridge, a distance of over seven miles in length, and nearly equal in area to the entire city south of the line of Eighty-sixth street.

The district is being rapidly built up, populated, and improved, and the business of the Ninth District Civil Court must necessarily increase with the growth of the population, and it is important that the city authorities, in providing accommodations for said court, should provide accommodations that may be suitable for the probable increase of business.

There are several large rooms on the third floor of the One Hundred and Twenty-sixth street building, assigned to the Ninth District Civil Court, and for which the city pays rent, which are really of no use to the court whatever, not being available for court purposes, while the court-room and clerks' offices are entirely too small and contracted for even the present business of the court ; due regard being had for the accommodation of the officers of the court, the public, and the safety and protection of the records of the court.

The civil court-room being situated directly over the prison, and over the cellar, used as above mentioned, for cooking purposes, during warm weather, and when it is absolutely necessary, in order to have proper ventilation, to keep the doors and windows of the court-room open, is constantly filled with the steam and smell arising from the cooking below, not only to the present inconvenience, but also to the detriment of the health of all persons connected with the court, as well as to those having business with the court.

At the time of the execution of the lease referred to, rents were high ; whereas there has since that time been a great falling off in rents, and, I think, suitable accommodations for both courts should be obtained in said buildings at a much less expense.

I am compelled, even now, with the present business of said court, often to remain in the discharge of my duties in the court-room from 9.30 till 5 P. M., in fact, a greater portion of my time is necessarily spent in the court-room, and due regard, not only for the public convenience, but also for my own health, as well as the health of the attachés of the court, would require more ample accommodations.

The present location is the most convenient that could be obtained in Harlem, being close to the depot of the Harlem R. R., and almost on the line of the various street railways to and from Harlem, and easily accessible from the more remote parts of the district by the One Hundred and Twenty-fifth street railway, to and from Manhattanville.

I therefore beg leave respectfully to submit the following suggestions :

That a new lease be obtained of the entire building on One Hundred and Twenty-fifth street, extending to the centre line of the block, and that the remaining portions of the premises embraced in the present lease, excepting the cellar and the first floor of the building on One Hundred and Twenty-sixth street, be given up ; provided the same be obtained at a rent satisfactory to your Honorable Body.

That the first floor of the One Hundred and Twenty-fifth street building be assigned to the Fifth District Police Court, and that the second floor be assigned to the Ninth District Civil Court.

Such assignment will afford, I think, proper and ample accommodations for the Fifth District Police Court, while the assignment of the second floor will afford all the accommodations required for the future for the Ninth District Civil Court.

I think such an arrangement will be an economical one for the city, inasmuch as the building on One Hundred and Twenty-fifth street is heated by steam, which could be applied to the use of both courts ; whereas at present it requires that seven stoves should be kept in constant use in cold weather to heat the rooms occupied by the civil court.

The alterations required for the above arrangements would, in my opinion, involve very little expense, which, I think, the owners of the building would make without any expense to the city.

Respectfully submitted,

HENRY A. MCGOWN, Justice.

Which was referred to the Committee on County Affairs.

The Engineer's estimate of the quantities is as follows:

Table with 2 columns: Description of materials and their quantities. Includes items like Yellow pine timber, White oak timber, Spruce timber, etc.

- 3. Spruce timber, 3 x 4 inch, 2,880 "

Labor of framing and carpentry, including all moving of timber, jointing, planing, bolting, spiking, painting, oiling or tarring, and furnishing the materials for painting, oiling or tarring, and the trenails and wedges for the columns, etc., and labor of every description. For that part of the pier where the bays are 12 feet 6 inches span, 5,265 square feet, and for the remainder of the pier, 50,495 square feet.

The foregoing are the quantities which have been estimated approximately for the construction of the work. They form, however, no part of the contract, and persons bidding are cautioned that the Department of Docks do not hold themselves responsible that any of them shall strictly obtain in the construction of the work, and bidders are required to examine the plans and the premises, and to judge for themselves of the quantity and other circumstances affecting the cost of the work.

The time allowed for the completion of the work (except about 100 feet of the shore end of the pier, which will not be constructed until the bulkhead wall in the rear is erected, and is to be completed within thirty days after notice, to be given by the Department, that work on the said 100 feet may be commenced and proceeded with), is five months from the date of an order to be given by the Engineer-in-Chief to commence the work, or within as many days after the five months have expired as the premises may have been occupied, after the date of said order, by the Department of Docks in dredging for the pier; and the damages to be paid by the contractor for each day that the contract, or any part thereof, may be unfulfilled, after the time fixed for fulfillment has expired, Sundays and holidays not to be excepted, are, by a clause in the contract, fixed and liquidated at fifty dollars per day, in each case.

All the old material taken from said Pier, old 30, and ferry platform adjoining, to be removed under this contract, will be relinquished to the contractor, and bidders must consider the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their proposals the price for the whole of the work to be done in conformity with the annexed specifications, by which the bids will be tested. This price is to cover the expenses of furnishing all the necessary materials and labor, and the performance of all the work set forth in the annexed agreement.

Bidders will write out the amount of their estimate for doing this work, in addition to inserting the same in figures. Should the lowest bidder or bidders neglect or refuse to

accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if, after acceptance, he or they should refuse or neglect to execute the contract and give the proper security for forty-eight hours after notice that the same is ready for execution, he or they shall be considered as having abandoned it, and as in default of the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their proposals their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the proposal shall distinctly state the fact; also that the bid is made without any connection with any other person making any estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which proposals must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each proposal shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the bid, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation any difference between the sum to which said person or persons would be entitled on its completion and that which the Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by section 6 of chapter 574, Laws of 1877, and by section 27 of chapter VIII, of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No proposal will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the proposals is reserved, if deemed for the interest of the Corporation.

Bidders are requested, in making their bids, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application at the office of the Department, Room No. 6.

JURORS.

NOTICE

IN RELATION TO JURORS FOR STATE COURTS

OFFICE OF THE COMMISSIONER OF JURORS, NEW COUNTY COURT-HOUSE, NEW YORK, June 1, 1877.

APPLICATIONS FOR EXEMPTIONS WILL BE

heard here, from 9 to 4 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines, received from those who, for business or other reasons, are unable to serve at the time selected, pay the expenses of this office, and if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt.

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement, and every case will be fully prosecuted.

THOMAS DUNLAP, Commissioner, County Court-house (Chambers street entrance).
