The Clerk at this point read the provisions of section 138 of the Election Code of the State of New York.

The Clerk was then directed to read the following letter from the City Clerk to the County Clerk, which is as follows:

THE CITY OF NEW YORK—OFFICE OF THE CITY CLERK, }
CITY HALL, NEW YORK, December 3, 1898. }

Hon. WM. SCHMER, County Clerk, New York County:

DEAR SIR—The election laws make the Municipal Assembly the Board of Canvassers for the final determination of the votes cast in "The City of New York, or any portion thereof" for city officers, and requires said Board to meet on the first Monday in December for said purpose. By the same law the City Clerk is made Secretary of said Board.

Owing to the provisions of law in relation to the votes of citizens of the State entitled to vote, who were absent from their legal residences in the service of the United States as soldiers or sailors, which votes have not as yet been canvassed by the Election District Inspectors, it is evident that the Board of County Canvassers will not have completed the canvass of all the votes cast at the election, and therefore cannot make the certificates and statements requisite to enable the Board of City canvassers to make the determinations of the result as to city officers.

It therefore appears that, although the Municipal Assembly must meet on December 5, it will be necessary for them to adjourn until such time as the laws fix for the return, canvass and statements of these soldiers' and sailors' votes.

For those reasons, and in the absence of any precedents, inasmuch as you, as County Clerk and Secretary of the Board of County Canvassers of the County of New York, are the official proximate in the custody, distribution and certification of said votes to the Municipal Assembly, as the Board of City Canvassers, as well as the Board of Election District Canvassers, and to the Board of County Canvassers of the County of New York, I respectfully suggest that you address a communication to the Board of City Canvassers setting forth the status of the canvass so far as relates to the votes cast for city officers, which in this instance comprises the Justices of the City Court of New York, voted for in that portion of the County of New York formerly constituting the City of New York.

Upon such a statement from you, the Board of City Canvassers at this first meeting will be able to act intelligently upon the subject and avoid any subsequent error in procedure.

Very respectfully,

P. J. SCULLY, City Clerk and Secretary, Board of City Canvassers.

To which the following reply was received:

COUNTY CLERK'S OFFICE—NEW COUNTY COURT-HOUSE, }
NEW YORK, December 5, 1898. }

To the Honorable the Board of City Canvassers of The City of New York:

GENTLEMEN—As Clerk of the Board of County Canvassers of the County of New York I have the honor to inform you that, owing to the provisions of law in relation to the votes of citizens of the State of New York entitled to vote who were absent from their legal residences in the service of the United States as soldiers or sailors, which votes have not been canvassed by the Election Inspectors, the Board of County Canvassers have not completed the canvass of all the votes cast at the election held on the 8th day of November, 1898, and cannot make at this time the certificates and statements requisite to enable the Board of City Canvassers to determine the result of said election as to candidates for city officers.

Agreeably to chapter 674 of the Laws of 1898, the Board of County Canvassers shall convene on the sixth Thursday after said election day for the purpose of canvassing the statements and returns of the Inspectors of Election as to all ballots cast at such election by soldiers and sailors, and the result of such canvass shall be promptly submitted to your Honorable Body.

Respectfully yours,

WILLIAM SCHMER, Clerk of New York County,
and Clerk of the Board of County Canvassers of New York County.

At this point Councilman Leich asked for the reading of the Corporation Council's opinion in the premises.

Which is as follows:

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL, }
NEW YORK, December 2, 1898. }

P. J. SCULLY, Esq., City Clerk:

SIR—I am in receipt of your communication, bearing date November 29, requesting me to advise you as soon as possible if the office of Justice of the City Court is a State or Municipal office. Further, you ask whether it is a Municipal office, is the determination made by the Municipal Assembly, and, if so, upon what day must it first meet.

Under the former decisions of the Court of Appeals the office of Justice of the City Court would have been held to be a State office, and there is very grave doubt whether in principle such should not be the decision even now.

In view, however, of the recent action of that Court, which it is the duty of the community to follow, in my opinion, a Justice of the City Court must be held to be a City and not a State officer.

This carries with it the duty on the part of the Municipal Assembly to meet on the first Monday of December and take the action provided for in section 138 of the Election Law, except as hereinafter mentioned.

If it had not been for the enactment of chapter 674 of the Laws of 1898, commonly known as the Soldiers and Sailors Election Law, it would have been the duty of the Municipal Assembly to have performed all the acts mentioned in section 138 of the Election Law, and your own mistake to the steps provided for in the latter part of that section.

It is in no way probable that the vote of the absent soldiers and sailors can in any way affect the result of the election of a Justice of the City Court.

But the provisions of section 1 of that act are very broad, and are as follows:

"Whenever in time of war any qualified elector of this State shall be in the actual military service of this State or of the United States, in the army or navy thereof, and by reason thereof absent from his election district, such absent elector shall be entitled to vote as fully as if he were present at his place of residence in the manner hereinafter provided."

This section, as will be seen, gives the soldiers and sailors an absolute right to vote, and the Soldiers and Sailors Election Law, while very defective, must be so construed, if possible, as to give the absent soldier or sailor the right to exercise elective franchise for every office to be voted for.

I think, therefore, the duty of the Municipal Assembly will be, after taking the action provided for in section 138, except a determination as to who is elected Justice of the City Court, to then adjourn until it receives the result of the canvass made under section 13 of the Soldiers and Sailors Election Law by the Board of County Canvassers.

The Board of County Canvassers, under that law, are supposed to perform their functions on the sixth Thursday after election, but owing to a mistake in the act the sixth Thursday will really be the seventh Thursday, which is December 22.

I recommend, therefore, that the Municipal Assembly adjourn to some hour, to be fixed by it, on December 23, at which time it can make the final canvass and determination as to this office.

An examination of the Soldiers and Sailors Election Law shows that one of the many omissions in that law is of all provisions relating to canvassing of votes for a city officer, but notwithstanding this omission in the act, I think it will be safer to adjourn, as already suggested, and then to make the declaration of the result by adding in to the prior canvass the result of the soldiers and sailors vote.

Yours,

JOHN WHALEN, Corporation Counsel.

Councilman Brice then offered the following resolution:

Whereas, The County Clerk of the County of New York, in consequence of the provisions of chapter 674 of the Laws of 1898, commonly known as the Soldiers and Sailors Election Law, has been unable to prepare for transmission to this Board the statements for the entire computation of the votes of the soldiers and sailors of The City of New York who voted for candidates for the offices of Justices of the City Court while absent from their homes in the service of the Federal Government; and whereas said soldiers' and sailors' votes will not be ready until December 22; therefore be it

Resolved, That, in view of the above, this Board do now take a recess until Friday, December 23, 1898, at one o'clock P. M.

Which was adopted.

And the Chairman declared that the Board of City Canvassers took a recess until Friday, December 23, 1898, at 1 o'clock P. M.

P. J. SCULLY, City Clerk.

ELECTION MINUTES.

At a meeting of the Board of Police of the Police Department of the City of New York, held on the 24th day of September, 1898.

Present—Commissioners York (President), Sexton, Hess and Abell.

The minutes of September 23 were read and approved.

In the matter of a protest against the Primary Return in the Twenty-fifth District of the Seventeenth Ward, Brooklyn, in which Frank W. Briakmayer, Alvin T. Walsh and others protest against the canvass of the vote cast at said primary upon the ground that two persons, viz., William Eddie and James Gaffney, are checked upon the roll as having voted, whereas they submit affidavits that they did not vote at such primary.

The Board, after hearing the parties and considering the matter, determine that under the provisions of the Primary Election Law, where the unit of representation is an election district, the canvass of the votes remains wholly with the Board of Primary Inspectors in such election district, and that the Police Board, as Custodian of Primary Records, is not called upon to canvass said vote, and for that reason is obliged to accept the statement of canvass and declaration made by the Inspectors of Primary Election as final in so far as the Custodian of Primary Records is concerned, and does, therefore, dismiss this protest in so far as any action can be had with reference to it by this Board.

Seventh and Eighth Districts, Thirtieth Ward, Brooklyn.

Twenty-ninth District, Twenty-second Ward, Brooklyn.

Present—Commissioners York (President), Sexton, Hess and Abell.

Resolved, That the location of the polling-place in the Seventh Election District, Thirty-first Assembly District, be changed from No. 1777 Madison Avenue to No. 1775 Madison Avenue, for the reason that No. 1777 Madison Avenue is too small.

In the matter of the charges against Chas. O'Connor and Thomas J. Carroll, Inspectors of Election in the Twenty-first Election District of Nineteenth Assembly District, said charges having been duly tried before the full Board this day, the Board determine that there is no ground whatever for such charges, and that the said Inspectors are absolutely innocent of any wrongdoing in connection therewith, the evidence submitted to the Board clearly showing that fact, and the charges are dismissed.

In the matter of charges against Joseph J. Cavanaugh and William Osborn, Inspectors of Election in the Tenth Election District of the Nineteenth Assembly District, said charges having been tried against said Inspectors before the full Board this day, after hearing the evidence the Board adjudge and determine that there is no ground whatever for said charges, and that said Inspectors performed their duty in a proper and creditable manner, and the charges are dismissed.

The following communication from the Mayor was read:

CITY OF NEW YORK—OFFICE OF THE MAYOR, } November 30, 1898.

To the Board of Public Improvements:

Consideration of the present bridge facilities between the Borough of Manhattan and the Borough of Brooklyn makes it manifest that even the completion of the "New East River Bridge," now in process of construction, will not satisfy the requirements of the situation.

There is imperative need for the construction as promptly as possible of an additional bridge. I therefore request that you will at once take all steps preliminary in nature by the Municipal Assembly as to location, plans and construction of such a bridge.

Without recommending any specific location, I suggest that the proposed bridge be placed between the "New East River Bridge" and the "New York and Brooklyn Bridge."

ROBERT A. VAN WYCK, Mayor.

And thereupon the following resolution was adopted:

Resolved, That the Commissioner of Bridges, in conjunction with the President of the Board of Public Improvements, be and is hereby authorized and directed to prepare plans, surveys, soundings, etc., for the construction of a bridge over the East river, between the Borough of Manhattan and the Borough of Brooklyn, to be located at some point south of the "New East River Bridge."

The following communication, relative to repaving Fulton street, Brooklyn, was referred to the Commissioner of Highways:

L. W. NAVLOR, } ATTORNEY AND COUNSELLOR AT LAW, NO. 120 BROADWAY, } NEW YORK, November 25, 1898.

MAURICE F. HOLAHAN, Esq., President of Board of Public Improvements, No. 346 Broadway, Manhattan, New York:

DEAR SIR—In behalf of the Joseph H. Bauland Company, proprietors of the large department store on Fulton street, between Dufield and Bridge streets, in the Borough of Brooklyn, and whose property has a frontage on all three of the said streets, I have the honor to petition your Board to repave the one block on Dufield street, between Fulton street and Willowoughy avenue, with granite-block pavement on a concrete foundation, with pitch and gravel joints.

At present a cobble-stone is there and it is in wretched condition. It is almost impassable on account of the holes and ruts. There has been some temporary repairing, but it is only temporary.

On the block in question are the Bauland Company's doors for the receipt and delivery of goods. Fifty-five delivery wagons are in daily use and each one of them may rebound at these doors several times a day; moreover, there are a great number of trucks and heavy wagons constantly unloading there. Besides the heavy wear upon the teams and severe injury to the vehicles caused by the jolting and plunging that occurs in getting the wagons up to and away from the curb over the rough cobble-stones, extensive damage is done to breakable merchandise in the wagons.

Further, the block is a busy thoroughfare for all teams generally. The block on which the repairment is asked for is right in the heart of the retail trading district, the business centre of the Borough. Dufield street is for Bauland and Company what Ninth street, Manhattan, is for Wanamakers, or Thirteenth street for Macy's.

It is hoped that recognizing the need of the pavement as a mere street improvement, as a needed convenience to a large taxpayer and to a prominent business enterprise, that the Board of Public Improvements will at once empower the Commissioner to make the improvement at the earliest time possible. The present bad weather adds greatly to the unfavorable condition, beseeching your active co-operation in the matter, I am,

Yours truly, L. W. NAVLOR.

The following communication was referred to the Commissioner of Water Supply:

WOODSIDE, LONG ISLAND, N. Y. CITY, November 28, 1898.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

SIR: We, the undersigned residents and taxpayers do most respectfully petition your Honorable Body, asking permission to allow the Citizens Water Supply Company of Newtown, in the Second Ward, Borough of Queens, to extend their main and erect fire hydrants on Fifth street, north from Jackson avenue, 1,000 feet.

MR. GEORGE KERN, and nine others.

The following report from the Commissioner of Highways was read, and placed on file:

DEPARTMENT OF HIGHWAYS—COMMISSIONER'S OFFICE, No. 150 NASSAU STREET, New York, November 29, 1898.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR:—Acknowledging receipt of a letter from the Secretary of the Board of Public Improvements, dated November 4, 1898, I have the honor to submit the following report on the resolution adopted by the Local Board of the Nineteenth District, Borough of Manhattan, recommending that the proper department be instructed to proceed to repair the sidewalk in front of Nos. 100 West One Hundred and Seventeenth street.

Upon receipt of the communication referred to, and the accompanying resolution of the Local Board, I caused an examination to be made, and ascertained that the defective sidewalk referred to in the resolution has already been repaired.

Very respectfully, JAMES P. KRATING, Commissioner of Highways.

The following report from the Engineer of Street Openings was read, and the matter was laid over as being assessment work:

BOARD OF PUBLIC IMPROVEMENTS—BOROUGH OF MANHATTAN, No. 140 BROADWAY, New York, November 27, 1898.

Hon. Mr. F. HOLAHAN, President, Board of Public Improvements:

SIR:—In the course of the resolution from the Local Board of the Borough of Manhattan, May 24, 1895, concerning the position of Louis Rosenfeld, Senior Counsel of the League of American Wheelmen, that all curbs at the corners of the streets and avenues around Mount Morris Square be changed from the present width of 8 feet to one of 20 feet.

Section 214, Chapter New York Charter, Department of Parks, general powers of commission, states as to the management of parks, etc., etc.

Subject to the general rules and regulations established by the Board, each commissioner shall have power to determine the line of curbs and the surface construction of all streets and avenues lying within a distance of 150 feet from the outer boundaries of any park, square or public place in his jurisdiction, etc., etc.

The power to alter the radius of the curb lines, the removal of all obstructions, sewer basins, lamp-posts, trees, etc., etc., is with the Department of Parks, and I would respectfully recommend that the communication be sent to it for action.

I would further state that Mount Morris Square was laid out in the year 1866 by the Commissioner of Central Park, and the surrounding streets and avenues, with their grades, width of sidewalks, etc., were then established.

The regulating, grading, sidewalks and sewer basins are fully completed, and at the expense of the owners of property in that neighborhood.

To alter the existing regulations, such as removing and rebuilding the sewer basins, lamp-posts, the widening of the crosswalks, relaying of curbs, etc., would be expensive, and could not be done except at the cost of the City, as the owners of the abutting property have been once assessed for all improvements that have been made.

I would state that the alteration of the corners of all curbs around Mount Morris Square would be a great improvement, especially at the southwesterly corner of One Hundred and Twentieth street and Fifth avenue, where the sidewalk has been made 30 feet in width; this extra width of sidewalk 20 feet has been taken from the avenue roadway, and reducing it to 20 feet only. By the alteration of the corner, as suggested, a great improvement will be made, and will also be in conformity with the curbline of the southwesterly corner, which has a radius of 20 feet.

Respectfully, J. O. B. WEBSTER, Engineer of Street Openings.

The Engineer has submitted the following estimate of the cost of the proposed alteration:

Statement of the Estimated Cost of the Alteration of the Curb Lines at the Corners of the Square around Mount Morris Park.

Table with 2 columns: Description of work and Estimated cost. Total: \$3,732 00.

Total cost for alteration, \$3,000. J. O. B. WEBSTER, Engineer of Street Openings.

The following communication from the Commissioner of Water Supply was read:

DEPARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE, No. 150 NASSAU STREET, New York, November 25, 1898.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR:—In accordance with the resolutions of the Local Board of Improvements of the Twenty-sixth District, transmitted to your Board by the President of the Borough of The Bronx under date of October 13th and 27th ult., and received with letters from the Secretary of your Board dated October 24th ult. and 4th inst., I recommend that water-mains be laid in the following streets in the Boroughs of Manhattan and The Bronx:

One Hundred and Seventieth street, between Franklin and Boston avenues; nine houses to be supplied with water; distance, 1,050 feet; estimated cost, \$800.

In One Hundred and Ninety-third street, between Marion and Webster avenues; six houses to be supplied with water; distance, 650 feet; estimated cost, \$500.

In Barretto street, between One Hundred and Sixty-fifth street and Intervale avenue; twenty-eight houses to be supplied with water; distance, 1,650 feet; estimated cost, \$1,000.

In Spencer place, between One Hundred and Forty-fourth and One Hundred and Fiftieth streets; nine houses to be supplied with water; distance, 1,200 feet; estimated cost, \$500.

In Morningside avenue, West, between One Hundred and Fourteenth and One Hundred and Seventieth streets; nine houses to be supplied with water; distance, 950 feet; estimated cost, \$6,000.

I herewith transmit and recommend for adoption drafts of resolutions for your Board and for the Municipal Assembly authorizing these works.

Very respectfully, WM. DALTON, Commissioner of Water Supply.

The following resolution was thereupon adopted: Resolved, by the Board of Public Improvements, That, in pursuance of section 413 of the Greater New York Charter, the laying of water-mains in One Hundred and Seventieth street,

The following form of ordinance was also approved for transmission to the Municipal Assembly:

IN MUNICIPAL ASSEMBLY.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

That, in pursuance of section 413 of the Greater New York Charter, the following resolution of the Board of Public Improvements, adopted by that Board on the 30th day of November, 1898, be and the same hereby is approved, and the public work or improvement therein provided for is hereby authorized, viz.:

Resolved, by the Board of Public Improvements, That, in pursuance of section 413 of the Greater New York Charter, the laying of water-mains in One Hundred and Seventieth street, Franklin to Boston avenue; One Hundred and Ninety-third street, Marion to Webster avenue; Barretto street, One Hundred and Sixty-fifth street to Intervale avenue; Spencer place, One Hundred and Forty-fourth to One Hundred and Fiftieth streets, all in the Borough of The Bronx; and in Morningside avenue, West, between One Hundred and Fourteenth and One Hundred and Seventieth street, Borough of Manhattan, under the direction of the Commissioner of Water Supply, be and the same is hereby authorized and approved, the cost of said public work or improvement to be paid for from the appropriation for "Laying Croton Pipes—Boroughs of Manhattan and The Bronx, for 1898."

The following report from the Chief Topographical Engineer was read and filed, and the Secretary was directed to notify the petitioner:

CITY OF NEW YORK, PRESIDENT OF THE BOARD OF PUBLIC IMPROVEMENTS, TOPOGRAPHICAL BUREAU, BOROUGH OF THE BRONX, ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE, November 29, 1898.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR:—In reply to the action taken by the Board of Public Improvements, referring, for report, a letter of Mr. Mark C. Meagher, St. Paul Building, N. Y., including plan of lots bounded by Murray Lane, Sixteenth street, Mitchell avenue and Bayside avenue, Murray Hill Park, Third Ward, Flushing, Borough of Queens, and requesting that the Board of Public Improvements approve the subdivision shown on the above mentioned "Plan of Lots," I wish to state that the Board of Public Improvements exercises jurisdiction only in so far as over this plan of lots as certain lots front on streets, which are not shown on the legal map of Flushing, and which streets Mr. Meagher wishes to be approved. The streets not yet established on the map of Flushing are Twelfth, Thirteenth and Fifteenth streets, from Mitchell to Bayside avenue, and I may say that these streets will probably be laid out on the new plan of the street system, which is in preparation in the Topographical Bureau.

It is not advisable to adopt and file small sections separately and I recommend, therefore, that no action be taken at present, and that Mr. Meagher be advised of the probable retention of the streets on the future plan.

The papers in the matter are herewith returned.

Respectfully, LOUIS A. RISSE, Chief Topographical Engineer and Engineer of Concourse.

The following report from the Chief Topographical Engineer was read and referred to the Commissioner of Sewers:

CITY OF NEW YORK, PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS, TOPOGRAPHICAL BUREAU, BOROUGH OF THE BRONX, ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE, November 29, 1898.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR:—In reply to the action taken by the Board of Public Improvements, referring, for report, the application of John Dutton & Co. to construct a private sewer in Howes Park, Flushing, Third Ward, Borough of Queens, to connect with the present city sewer at Amity and Murray streets, as shown on the map enclosed therein, I have to state that I have examined all the maps which were obtained from the former Town of Flushing in relation to sewerage and drainage, and that such maps do not give a comprehensive record of the existing sewers in Flushing, which were built by the Trustees of the former town and by special commissioners. It is recommended, therefore, before action in any of the sewerage questions is taken, that the Commissioner of Sewers prepare and submit to the Board of Public Improvements a complete plan, showing location and size and grades of the constructed sewers.

It is impossible to give a decision on sewer matters until the above record map is made, especially since a statement was made to me that several sewers are overcast at the present time.

The papers and the blue print relating to the above matter are herewith returned.

Respectfully, LOUIS A. RISSE, Chief Topographical Engineer and Engineer of Concourse.

The following communication from the Commissioner of Highways was read:

DEPARTMENT OF HIGHWAYS—COMMISSIONER'S OFFICE, / NO. 150 NASSAU STREET, / NEW YORK, November 29, 1898.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—I am in receipt of a letter, dated the 21st inst., from the Secretary of the Board of Public Improvements, transmitting, for my information, a copy of an opinion of the Corporation Counsel, to the effect that under the contract for the Brook Avenue Beam Tunnel "asphalt may be substituted for granite paving blocks, providing such substitution be made at the same price as bid for and that the increase in cost involve no more than \$5,950, but that no territory outside of the contract area should be considered as forming a part of the work of constructing a steel beam structure and abutments at the crossing of Brook Avenue and the Port Morris Railroad, between East One Hundred and Fifty-seventh street and Third Avenue."

While the Corporation Counsel's opinion further states that the question of the modification of the contract by substituting asphalt for granite may be decided in accordance with the wishes of the Board of Public Improvements, I learn that the Law Department agrees with my view that inasmuch as the original specifications for this improvement were approved by the Board of Estimate and Apportionment, it is necessary that said Board should ratify the proposed change in

the contract. It is now in order for the Board of Public Improvements to authorize the substitution of asphalt for granite, whereupon I will submit the matter to the Board of Estimate and Apportionment for approval.

Very respectfully,

JAMES P. KEATING, Commissioner of Highways.

Thereupon the following resolution was adopted:

Resolved, That the recommendation of the Commissioner of Highways to substitute asphalt in place of granite blocks in the pavement of the Brook Avenue Beam Tunnel, is hereby approved.

Affirmative—Commissioner of Water Supply, Commissioner of Highways, Commissioner of Street Cleaning, Commissioner of Sewers, Commissioner of Bridges, President of the Borough of the Bronx and President of the Board.

Negative—None.

The following communication from the Woodhaven Water Supply Company was referred to the Commissioner of Water Supply:

THE WOODHAVEN WATER SUPPLY COMPANY, / WOODHAVEN, NEW YORK, November 21, 1898.

DEAR SIR—Your favor of October 12, embodying resolutions adopted by your Honorable Board and including form of agreement approved by the said commission, was duly received. We understand that its receipt was formally acknowledged by our counsel, who have since had the papers. We now beg to state that we have no objection to executing the contract in the form proposed, providing we are correct in our impression that the use of the term "hydrants that may be hereafter erected" does not effect the obsolescence of the lifts of dry rentals according to the contract by hydrants heretofore erected, and then the first section on which is covering the release of the City "from any claim for payment of rentals during the year 1898," refers only to hydrants hereafter to be erected.

First paragraph of section 3, folio 2, relates to a pressure of at least 25 pounds per square inch, we suggest amending to read "Except on the Ridge," as being to the great elevation (some parts 120 feet) it is impossible to obtain quite so much pressure.

We would be glad if you would inform us as soon as your convenience will permit, if this modification is satisfactory, and whether our understanding of the proposed supplemental agreement, as hereto stated, is correct. If so, we will at once execute the agreement and return for attention by you.

Respectfully,

A. J. CORRIER, S. E.

The following report from the Chief Topographical Engineer was read and approved by the Board:

CITY OF NEW YORK, / PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS, / TOPOGRAPHICAL BUREAU, BOROUGH OF THE BRONX, / ONE HUNDRED AND SEVENTYSEVENTH STREET AND THIRD AVENUE, / November 26, 1898.

Mr. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the action taken by the Board of Public Improvements referring for report, letter of Mr. Henry T. Morrison, Deputy Commissioner and Chief Engineer, Department of Highways, Borough of Richmond, relative to a change of grade of Bay street, between an unnamed lane and Maple avenue, I have to state that the proposed change of grade would not be approved. The established grade forms a continuous gradient on Bay street, while the proposed change makes five breaks in about 1,200 feet, and there will be only one depressed point in the established grade—against two in the proposed grade, requiring additional leveling basins. The deepest filling according to the established grade is less than three feet and most of it is to the property toward the land or west side; on the east side, where the street borders on the shore of the Bay, a raising of the grade would be an advantage. The street is now only 4 1/2 feet above the water line.

The papers in the matter are herewith returned.

Respectfully,

LOUIS A. RISSE,

Chief Topographical Engineer and Designer of Concrete.

I therefore recommend that the carriage-way of One Hundred and Forty-eighth street, from the Boulevard to the Hudson River Railroad tracks, be paved with granite-block pavement, and that crosswalks be laid at each intersecting avenue where necessary.

Pursuant to the provisions of section 417 of the Charter, I respectfully request the Board of Public Improvements to approve and adopt the accompanying ordinance and to transmit it to the Municipal Assembly for action by that body. The work of paving this street can be deferred until the Board of Public Improvements shall re-establish the grade at its intersection with the Riverside Drive Extension.

SIR: The petition of Bill, Mary & Co., requesting a change of the established grade of One Hundred and Thirty-ninth Street from Seventh to Eighth Avenue, presented to the Board of Public Improvements, and referred to me for report thereon, at the meeting of the 10th instant.

I have personally visited the location and have had a survey made, and find that the buildings, a row of sidewalks on the westerly side of the street, owned by them, have been erected without a due regard to the established grade of the street, and upon a personal interview with the owners they have desired to withdraw the request, and will make such alteration in their premises as will be necessary.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR: I have the honor to acknowledge receipt of a letter, dated July 18, 1898, from the Secretary of the Board of Public Improvements, with a resolution adopted by the Local Board of the Twenty-first District, Borough of the Bronx, recommending that East One Hundred and Eighty-second Street, from Aqueduct Avenue to Jerome Avenue, be regulated and graded, curbstones set and sidewalks flagged; a space four feet wide through the centre thereof, and crosswalks laid where necessary.

In reply, I beg to report that the improvement is necessary. The estimated cost of the work is \$12,000, and the assessed value of the real estate within the probable area of assessment is \$30,450.

I recommend that One Hundred and Eighty-second Street, from Aqueduct Avenue to Jerome Avenue, in the Borough of the Bronx, be regulated, graded, the curbstones set, the sidewalks flagged a space four feet in width, across the lot where not already laid, approaches constructed where necessary, and signs built where required.

DEPARTMENT OF HIGHWAYS—COMMISSIONER'S OFFICE, }
No. 150 NASSAU STREET, }
New York, November 29, 1898. }

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR: I have the honor to acknowledge receipt of a letter, dated November 4, from the Secretary of the Board of Public Improvements, transmitting a communication from the President of the Borough of Manhattan, embodying a resolution adopted by the Local Board of the Nineteenth District of said borough, recommending that two courses of bedestone be laid across the Boulevard at the south side of One Hundred and Thirty-eighth Street, and that two courses of flags be laid at the southwest corner of One Hundred and Thirty-eighth Street and the Boulevard, extending from the westerly house-line of said Boulevard to the west curb-line, and being about 128 square feet of flagging.

I have had an investigation made, and find that the work called for in the resolution of the Local Board is necessary. I therefore recommend that the sidewalks on the southwest corner of One Hundred and Thirty-eighth Street and the Boulevard be flagged eight (8) feet wide where not already done, and that all the flagging and curb now on the sidewalks be relaid and reset where necessary, and that new flagging and curb be furnished where the present flagging and curb are defective.

Also, that a crosswalk be laid across the south side of the Boulevard and One Hundred and Thirty-eighth Street, said crosswalk to consist of two courses of bedestone with paving blocks between.

The estimated cost of the flagging work is \$40, and the assessed value of the property within the probable area of assessment is \$5,500, while the estimated cost of laying the crosswalk is \$235 and the assessed value of the real estate within the probable area of assessment is \$508,000.

In accordance with section 417 of the Charter, I respectfully request the Board of Public Improvements to approve and adopt the accompanying ordinances for these improvements, and to transmit them to the Municipal Assembly for action by that body.

Very respectfully,
JAMES P. KEATING, Commissioner of Highways.

The following report from the Commissioner of Sewers was read, and the matter was laid over, being assessment work:

No. 303.
CITY OF NEW YORK—OFFICE OF THE MAYOR, }

To the Honorable the Council:

I return herewith, without my approval, an ordinance adopted by you on April 12, 1898, entitled "An Ordinance to provide for the lighting with gas of Gerard Avenue, between One Hundred and Thirty-ninth and One Hundred and Fifty-first Streets."

My objection to this ordinance is that no ordinance or resolution authorizing or approving this public work has been passed by the Board of Public Improvements.

HEALTH DEPARTMENT, CENTRAL LIME WHITE AND FRANKLIN STREETS, CRIMINAL COURT BUILDING, NEW YORK, September 16, 1898.

EDWARD F. ROBERTS, M. D., Sanitary Superintendent.

As I have no longer any room available to the fact that the Department of Health, Borough of Queens, is unable to conduct its business satisfactorily because of lack of proper accommodations.

The necessary repairs is completed to transfer all its affairs to one room on the upper floor of the building on Union avenue, between, with the Bureau of Records occupies a smaller apartment on the ground floor, which together form the southern half of the building. The northern half of the building is used by the Broadway Block and Vesting Company, which has one apartment in the large room on the ground floor, the upper room being devoted to the social functions of the local company. There being no other free company houses in Jamaica, room could undoubtedly be found in one of them for Executive support's paraphernalia.

The building is owned by The City of New York, and I respectfully suggest that the Municipal Assembly be requested to grant a part for the sole use of the Department of Health, Borough of Queens. The building was formerly known as Village Hall and Excelsior Hose Company No. 2 House, and is situated on the west side of Union avenue, midway between Fulton street and South avenue, front.

I have been informed by Assistant Corporation Counsel John F. Walsh that Corporation Counsel Wisler was requested by the Sinking Fund Commissioners, to whom the question of assigning the building for the use of this Department was referred, subsequent to my application being made of April 22, to give an opinion as to their power in the premises, and that he rendered an opinion to the effect that the Municipal Assembly had full power in the matter, and a request for the assignment of the building should be made by the Board of Health to that body.

Respectfully yours,

OHED L. LISK, M. D., Assistant Sanitary Superintendent.

LESLIE W. SCHIFFER, Acting Chief Clerk.

REPORT:

The Fire Commissioner reserves the right to decline any and all bids or estimates, if deemed to be for the public interest.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, or surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the amount, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate,

they will, or it being so awarded, become bound as sureties for its faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are made. The amount above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and ever and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, for the amount of the security required, or the amount of the security specified, such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been retained by said officer or clerk and found to be correct. All such checks, except that of the successful bidder, will be returned to the person or persons to whom the contract may be awarded, within five days after notice that the contract has been awarded to him, to secure the same, the amount of the deposit made by him shall be forfeited in and to the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him, or to give or propose, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having

abandoned it and as in default to the Corporation, and the contract will be re-awarded and read as provided by law.

No estimate will be accepted or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, or surety or otherwise upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the amount, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate,

they will, or it being so awarded, become bound as sureties for its faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are made. The amount above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and ever and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

PROPOSALS FOR ALL THE ARTICLES REQUIRED FOR THE YEAR...

... Monday, December 10, 1898.

"Bid or Estimate for Poultry for the year 1899," and with his or their name or names, and the date of presentation, to the head of said Department at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President, or his duly authorized agent, at said Department and read.

The Board of Public Charities reserves the right to reject all bids or estimates if deemed to be for the public interest, as provided in section 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of FIVE THOUSAND DOLLARS.

Each bid or estimate shall contain or state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the counter, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to assume the same, they will pay to the Corporation any difference between the sum to which he would be entitled as his completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the poultry by which the lots are tested. The counter also mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature and kind, and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money in the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate bids, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him to assume the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall assume the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be re-awarded and read as provided by law.

Bidders will write out the amount of estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

The form of the contract, following specifications, and showing the manner of payment, can be obtained at the office of the General Bookkeeper and Auditor, foot of East Twenty-sixth street, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

The Board of Public Charities reserves the right to reject all bids or estimates if deemed to be for the public interest, as provided in section 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must furnish satisfactory testimonials that he is engaged in the business of "Butcher" in the City of New York, and has the plant necessary to carry out promptly and regularly the contract, if it be awarded, to the entire satisfaction of the Commissioners of Public Charities, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of FIFTY THOUSAND DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work in which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the counter, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to assume the same, they will pay to the Corporation any difference between the sum to which he would be entitled as his completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the meats by which the bids are tested. The counter also mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature and kind, and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money in the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate bids, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him to assume the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall assume the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be re-awarded and read as provided by law.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

The form of the contract, including its provisions and showing the manner of payment, can be obtained at the office of the General Bookkeeper and Auditor, foot of East Twenty-sixth street, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

No empty packages are to be returned to holders or contractors, except such as are designated in the specifications.

Bidders will state the price for each article, by which the bids are tested.

The Board of Public Charities reserves the right to reject all bids or estimates if deemed to be for the public interest, as provided in section 110, chapter 278, Laws of 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, or surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the name of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact, also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or

clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relief as provided by law.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine. The terms of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the Department, No. 29 Elm place, Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

The articles, supplies, goods, wares and merchandise are to be delivered, free of expense, at the General Drug Department on the grounds of Bellevue Hospital, East Twenty-sixth street, east of First Avenue, and are to be delivered in such quantities and at such times as may be required.

The quality of the Hospital Supplies must conform in every respect to the specifications and samples, and bidders are cautioned to examine both specifications and samples of the articles required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

The Board of Public Charities reserves the right to reject all bids or estimates if deemed to be for the public interest, as provided in section 64, CHAPTER 470, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners, or as provided for by the specifications.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two substantial sureties, each in the penal amount of fifty (50) per cent. of the bid for each article (no bonds or deposits are required on bids amounting to less than \$1,000).

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by section 22 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined

by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be re-advertised and retold, as provided by law.

Payment will be made by a requisition in the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine. The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the General Inspector and Auditor, foot of East Twenty-sixth street, and bidders are cautioned to examine such and all of its provisions carefully, as the Board of Public Charities will not incur any liability or responsibility in every particular.

JOHN W. KELLER, President, ADOLPH SIMS, Jr., Commissioner, JAMES FEENEY, Commissioner, Department of Public Charities.

them therein, and if no other person be so interested it shall distinctly state that; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk thereof, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, in the City of New York, with their respective places of business as residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmations, in writing, of each of the persons signing the same (that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimates, and no estimate can be deposited in said bag until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall neglect or omit, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation and the contract will be re-advertised and retold, as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, or, in the absence of samples, to the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, and, if required, before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Department. Such reference is not valid for selecting bids whereon they are invited, and will in every case operate to the disadvantage of the bidder.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to entering the same in figures.

Each article when delivered shall have a tag attached bearing its number.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including applications and showing the manner of payment, can be obtained at the office of the Department, and bidders are cautioned to examine such and all of its provisions carefully, as the Board of Public Charities will incur no absolute responsibility in every particular.
