MESSAGES FROM HIS HONOR THE MAYOR.

The Vice-Chairman laid before the Council the following message from his Honor the Acting Mayor:

No. 1184.

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE COUNCIL, CITY HALL,
NEW YORK, August 23, 1901.

Hon. JOHN T. OAKLEY, *Acting President of the Council, New York City:*

DEAR SIR—I direct your attention to the matter of the establishing of a ferry between the foot of Whitehall street, Manhattan, and Communipaw, New Jersey, and the loss that has been and is being sustained by the City through the failure of the Municipal Assembly to adopt the pending resolution providing for the establishment of the said ferry.

This ferry has been operated since 1897, without any compensation to the City and without any legal right on the part of those operating it, when the City might have received many thousand dollars for the franchise.

In 1897 an action was begun to restrain its operation and for an accounting. Before the return day of the application for an injunction the attorneys for the Central Railroad Company, operating this ferry, communicated with the then Corporation Counsel stating that they had no intention to contest the right of the City to enjoin the operation of the ferry and also that they were ready to bid upon the franchise as soon as it was offered for sale and, after the establishment of the ferry by the City authorities, the company was not only willing to bid upon the franchise when offered for sale but also to pay compensation to the City for the time the ferry had been operated up to the time of the selling of the franchise for the benefit of the City. The company's position seemed fair and proper, and therefore the application for an injunction was not pressed, and thereafter, in May, 1899, the Central Railroad of New Jersey made written application to the Municipal Assembly asking that the ferry should be established between the points in question. This application was referred to the Committee on Docks and Ferries of the Council, but no report was made by that committee. In January, 1900, the matter was taken up by the President of the Council, and further correspondence was had between that official and the railroad company's counsel, and in April, 1900, a resolution providing for the establishment of said ferry was introduced in the Council by the President and referred to the Committee on Docks and Ferries, with the request that the said committee make an early report. The committee has not made any report, and I now recommend that this committee be directed by the Council to report at its next meeting so that the resolution in question may be considered by that body. I would further recommend that if no report be made by the said committee that it be discharged from further consideration of the matter and immediate consideration be given it by the Council itself.

It is the plain duty of those having in charge the interests of the City that taxpayers should have the benefit that would result from the payment of this large sum of money, estimated at sixty thousand dollars ($60,000), into the Treasury of the City.

Yours respectfully,
RANDOLPH GUGGENHEIMER, Acting Mayor.

Which was referred to the Committee on Docks and Ferries.

No. 1190.

To the Hon. ROBERT A. VAN WYCK, *Mayor, the Hon.* BOARD OF COUNCILMEN, *and the Hon.* BOARD OF ALDERMEN *of The City of New York*—Greeting:

At a regular meeting of the Washington Heights Progressive Association, held at their Headquarters No. 2176 Amsterdam avenue, New York City, on Thursday, July 18, 1901, the following resolutions were unanimously adopted:

Whereas, We consider it for the best interests of the largest number of taxpayers and residents of Washington Heights and the upper west side that additional surface railroad facilities be established connecting the upper west side with the Borough of The Bronx from the Rapid Transit station at One Hundred and Fifty-sixth street and Broadway, through One Hundred and Fifty-fifth street across the viaduct and Macomb's Dam Bridge to Jerome avenue; and

Whereas, We believe that the wishes of the people who have paid the largest share of the cost of constructing the One Hundred and Fifty-fifth street viaduct should receive the due consideration to which they are honestly entitled as to what further public or private uses this viaduct shall be put to; and

Whereas, The Union Railway Company has asked your Honorable Boards for a franchise to extend their railroad upon said viaduct; it was

Resolved, That the Honorable Mayor, Robert A. Van Wyck, the Honorable Board of Councilmen and the Honorable Board of Aldermen, are petitioned to refuse the privilege of constructing any railroad upon said One Hundred and Fifty-fifth street viaduct unless the railroad company applying therefor shall agree to construct and operate a system of cars across said viaduct through West One Hundred and Fifty-fifth street to Broadway and the Rapid Transit station at One Hundred and Fifty-sixth street, and such agreement shall be included in and made a part of any franchise hereafter granted by your Honorable Boards.

It was further

Resolved, That a copy of these resolutions be delivered to the Honorable Robert A. Van Wyck, Mayor, the Honorable Board of Councilmen, the Honorable Board of Aldermen and the public press.

ORMISTON & McCORMACK,
No. 7 NASSAU STREET,
NEW YORK, August 23, 1901.

Hon. RANDOLPH GUGGENHEIMER, *President, Council of The City of New York:*

HONORABLE AND DEAR SIR—As one of the residents on West Seventy-second street, and as a member of the West End Association, I have been very much interested in having West Seventy-second street, from Central Park to Riverside drive, asphalted. The Park Department has been asked for an appropriation for that purpose, it has passed the Commissioners and the Aldermen, and is, I understand, likely to be brought up before the Council in its next session, 27th instant.

I cannot express too strongly the necessity for this improvement. When the traffic on Seventy-second street was but slight in comparison to what it now bears, the macadamized pavement did very well, and the street was lined on both sides with private residences. Now we are either choked with dust or smothered by mud. It is not that the pavement does not receive proper attention and care, it is simply the fact that so numerous are the wheels that it is impossible to keep a macadamized road in satisfactory condition in such immediate proximity to private residences of such grade as are those in this West side street. Asphalting is now so freely used in the city that all horsemen must be prepared to traverse it at all times, and the objection once to be urged against its use on a road connecting two parks is no longer tenable. We need the asphalting very greatly. It ought to be done without delay, and I most earnestly beg that you will favor this matter in this, its last stage, before the Council.

Very respectfully yours,
F. S. ORMISTON.

Hon. P. J. SCULLY, *City Clerk:*

DEAR SIR—Herewith I transmit a communication from the Department of Parks, dated January 27, 1901, requesting an appropriation of $20,000 for the purchase of 5,000 additional settees for Central Park and the small parks, also a report of the Engineer of the Finance Department relative thereto, which were presented to the Board of Estimate and Apportionment at a meeting held July 8, 1901, and on motion of the Mayor, referred to the Municipal Assembly, with the request that they authorize the issue of $20,000 bonds under subdivision 8, section 188 of the Charter.

Very respectfully,
CHAS. V. ADEE, Clerk.

In connection herewith Councilman Goodwin offered the accompanying ordinance:

AN ORDINANCE to authorize the issue of $20,000 Corporate Stock for the purpose of providing chairs in the public parks.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

That, in accordance with the provisions of subdivision 8, section 188 of the Greater New York Charter, and subject to the concurrence of all the members of the Board of Estimate and Apportionment, the Comptroller be and he is hereby authorized, empowered and requested to issue Corporate Stock of The City of New York to the amount of twenty thousand dollars ($20,000) for the purpose of providing chairs in the public parks.

DEPARTMENT OF PARKS—THE CITY OF NEW YORK,
THE ARSENAL, CENTRAL PARK,
June 27, 1901.

To the Board of Estimate and Apportionment, The City of New York:

GENTLEMEN—I have the honor to request your approval of an expenditure of the sum of $20,000 for the purchase of 5,000 additional settees to meet the needs and convenience of the public in the Central Park and the several smaller parks in the Borough of Manhattan, and that your Honorable Board will authorize a bond issue, pursuant to the provisions of the Charter, in that amount for such purpose.

Respectfully,
GEORGE C. CLAUSEN,
Commissioner of Parks, Boroughs of Manhattan and Richmond.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
July 3, 1901.

Hon. BIRD S. COLER, *Comptroller:*

SIR—Hon. George S. Clausen, Commissioner of Parks, boroughs of Manhattan and Richmond, in communication dated June 27, 1901, to the Board of Estimate and Apportionment, requests its approval of an expenditure of $20,000 for the purchase of 5,000 additional settees, to meet the needs and convenience of the public in the Central Park and the several smaller parks in the Borough of Manhattan, and the Commissioner also requests the Board to authorize a bond issue, pursuant to the provisions of the Charter, to that amount for such purposes.

In reply, I would report that there are about 11,000 settees in use in Central and the other parks in the Borough of Manhattan. The Commissioner says he requires about 2,500 additional settees for Central Park, 1,000 for Riverside Park, and the remainder, 1,500, for the Speedway and the other small parks.

The Commissioner proposes to purchase the castings from the State of New York, Prison Department, buy the lumber and have the Carpenters of the Department of Parks make the settees. By this method the Commissioner thinks it possible, with an additional carpenter force, to complete the entire 5,000 by January 1, 1902.

Although the Commissioner appears to be very sanguine as to the number of settees he is able to make before the end of the year, I think, with delays in obtaining the money and the time taken by the State Prison authorities in furnishing the castings, it would take very nearly two years to complete 5,000 settees, and at the best, that only 2,500 could be turned out by January 2, 1902.

From inquiry, I am led to believe that 5,000 additional settees are needed in the parks (Borough of Manhattan), and the estimate, $4 per settee, I consider just and reasonable; but as it is not possible to make 5,000 by January 2, 1902, I think an appropriation of $10,000 is all that would be expended this year; therefore this amount is all that should be considered at present; any further amount could, and should be considered by the Board of Estimate and Apportionment, in the appropriation of the Park Department for 1902.

In the provisional estimate submitted by the Department of Parks for 1901, only $2,000 was requested for settees.

Inasmuch as section 48 of the Greater New York Charter only includes the "acquisition and construction of parks," I do not think that bonds can properly be authorized for this work, pursuant to this section, but would suggest that the Commissioners of Parks, boroughs of Manhattan and Richmond, apply to the Municipal Assembly, in accordance with the provisions of section 188 of the Greater New York Charter, for the necessary funds for purchasing these settees.

Respectfully,
EUG. E. McLEAN, Engineer.

DEPARTMENT OF WATER SUPPLY,
COMMISSIONER'S OFFICE, Nos. 13 TO 21 PARK ROW,
CITY OF NEW YORK, August 15, 1901.

Hon. JOHN T. OAKLEY, *Vice-President and Acting President of the Council:*

DEAR SIR—The dearth of rainfall in the summer and autumn of last year reduced the water supply in the Borough of The Bronx to the extent of causing not only discomfort to a large portion of the population of that borough, but actual distress to those living on the higher grounds, culminating in this condition early in November. This emergency called for immediate and drastic measures. To carry out these measures the Municipal Assembly and the Board of Estimate and Apportionment authorized the issue of revenue bonds to the amount of $80,000 (eighty thousand dollars) to provide additional pumping facilities and connections with the distributing system, to take and distribute water from the Croton Aqueduct. The Municipal Assembly, however, did not respond to my request that I be authorized to procure the necessary pumping plant, connections, etc., without contract at public letting, so as to avoid the delays of preparing contract and specifications; approval of the same by the Corporation Counsel as to form; advertising; letting; approval of sureties by the Comptroller; certification of the Comptroller on award of the contract that there were sufficient moneys available to pay for the contract, etc. In the meantime the drought continued and the emergency became more acute.

To afford partial relief for the time which must intervene before work under a contract at public letting for installing a pumping plant could be commenced, this Department ordered the installation of smaller temporary pumping plants, boilers and appurtenances for drawing water from the aqueduct for distribution in the distressed sections of the Borough of The Bronx. For these works preliminary to the installation of the plant provided for by the appropriation and revenue bond issue of $80,000, there was expended in placing pumps, boilers and appurtenances, and in operating the pumps during February, March and April, 1901, and in laying mains and appurtenances to connect the pumps with the distributing system, the sum of $15,398.60.

After the contract for the larger pumping plant which has now been in operation for several months and furnishes from 5,000,000 to 10,000,000 gallons per day from the aqueduct for distribution in the borough, it was found that there would be a large surplus in the $80,000 appropriation by revenue bonds.

I therefore respectfully ask that the Municipal Assembly, by joint resolution of the Council and the Board of Aldermen, authorize the payment of said sum of $15,398.60 for the preliminary smaller pumping plants and connections, including operating expenses from the appropriation by revenue, bonds of $80,000, authorized by the Assembly and by the Board of Estimate and Apportionment.

Very respectfully,
WILLIAM DALTON, Commissioner of Water Supply.

DEAR SIR—In conformity with circular letter of Hon. Bird S. Coler, Comptroller of The City of New York, we hereby request an appropriation for conducting the work of the Northern Dispensary in and for the year 1902 of twelve hundred dollars ($1,200).

The Northern Dispensary was incorporated in 1828 and since then has furnished free medical attendance to the needy sick poor residing in that portion of the city bounded on the north by West Twenty-third street, on the east by Broadway, on the south by Spring street and on the west by the North river.

During the year ending December 31, 1900, 11,778 patients were treated, 21,543 visits were made and 17,713 prescriptions dispensed.

The disbursements in the year 1900 were $7,195.48 of which $625 was received from The City of New York, the balance being the proceeds of voluntary contributions by friends of the institution.

The only salaries paid are to the physicians and employees of the Dispensary, the officers serving gratuitously.

The Dispensary was erected by private subscription on land donated by the City for the purpose at the intersection of Christopher street and Waverley place.

The appropriation asked for is needed for the proper maintenance of the work of the Dispensary.

NEW YORK, July 18, 1901.

Hon. LANDOLPH GUGGENHEIMER, *President, Municipal Assembly:*

DEAR SIR—In compliance with the request of the Hon. Bird S. Coler I have the honor to inclose duplicate estimate of expenditures for the year 1902 of the Society of the Lying-in Hospital of The City of New York.

THE SOCIETY OF THE LYING-IN HOSPITAL OF THE CITY OF NEW YORK,
SECOND AVENUE AND SEVENTEENTH STREET,
NEW YORK, July 18, 1901.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—In compliance with the request of the Hon. Bird S. Coler, Comptroller, under date of July, 1901, the Society of the Lying-in Hospital presents to your Honorable Board its estimate of the amount required for its charitable work for the year 1902, according to the provisions of chapter 385 of the Laws of 1895.

For six months ending June 30 the society has had 1,738 applicants for treatment, and cared for some 1,179 cases.

The work of the society consists in the care of destitute women in childbirth who cannot pay for medical attendance and whose circumstances are such that if not cared for by the society they would become a public charge. Every case treated by the society is carefully investigated and no cases are relieved unless absolutely destitute.

The society expects to occupy its new building, with an accommodation of two hundred and fifty beds, on the 1st of next January. The building has been erected with every modern improvement and is at the disposal of the City authorities for the treatment of such emergency cases as the City desires it to care for.

The Society of the Lying-in Hospital earnestly desires to co-operate in every way with the Department of Charities in giving proper medical treatment to the deserving poor, and will accept such pro-rata rate for the care of any patients as shall seem expedient to the Honorable Board of Estimate and Apportionment to fix upon.

All of which is very respectfully submitted by
THE SOCIETY OF THE LYING-IN HOSPITAL OF THE CITY OF NEW YORK,
F. DELANO WEEKES, Secretary.

GENTLEMEN—In compliance with section 220 of the Greater New York Charter I have the honor to submit a Departmental Estimate of the amount required for expenditure in the office of the District Attorney of Kings County for the year 1902. OFFICE OF THE
DISTRICT ATTORNEY OF THE COUNTY OF RICHMOND,
PORT RICHMOND, NEW YORK, July 22, 1901.

Board of Estimate and Apportionment:

GENTLEMEN—I inclose Departmental Estimate for the District Attorney's Office of Richmond County for the year 1902. For the same reason stated in a letter sent you last year, and which accompanied the Departmental Estimate for the year 1901, the sum of $1,500 will be necessary for the expenses of this office.

I trust that because no long letter of explanation follows this request for an appropriation of that sum for a contingent fund for the year 1902, you will not fail to allow that sum, as it is absolutely necessary that such a sum be allowed this office if the business is to be conducted properly.

Yours very truly,
EDWARD SIDNEY RAWSON, District Attorney.

More than $1,000 have been expended to date out of the $1,500 appropriated for 1901. Two terms of court at which criminal causes are heard are yet to be held in this county for the year 1901.

No part of the $1,500 will probably remain unexpended.

GENTLEMEN—In response to the circular letter of the Comptroller dated July , 1901, the Hospital and Dispensary of the Town of Flushing submits the annexed estimate of the amount required for the care and support of its inmates for the year 1902.

By chapter 754 of the Laws of 1895 and section 230 of the Greater New York Charter the Board of Estimate and Apportionment, with the approval of the Municipal Assembly, is authorized to appropriate moneys for the benefit of the hospital, payments in be made thereout only for such inmates as are received and retained in the hospital pursuant to the rules established by the State Board of Charities.

Pursuant to such authority, the sum of $7,500, to be expended at the rate of 60 cents per day for medical treatment and 80 cents per day for surgical treatment, was duly appropriated for the Flushing Hospital in the fall of 1900 and included in the Budget for 1901.

The hospital asks that an appropriation of $10,000 be made for its benefit for the year 1902, and also that, if possible, the old per diem rates of $1 for surgical cases and 70 cents for medical cases be restored.

An estimate of expenditures for the year 1902 is annexed.

MISSIONARY SISTERS OF THE THIRD ORDER OF ST. FRANCIS,
PEEKSKILL, N. Y., July 31, 1901.

The Municipal Assembly, New York City:

THE HONORABLE COUNCIL—The estimate for this institution is and for the year 1902, for the care and maintenance of the inmates accepted by the Department of Public Charities as a proper charge against the City Treasury.

For infants under two years of age, at the rate of 38 cents per day; for dependent children (other than infants under two years of age), at the rate of $2 per week ... $93,167 24

Section 230, Greater New York Charter, as amended by chapter 196, Laws of 1899.

Respectfully,
SISTER M. MARGARET, Secretary.

To the Honorable the Municipal Assembly of The City of New York:

The Children's Fold of The City of New York respectfully applies for an appropriation by your Honorable Board in its behalf, viz.: Twenty-one thousand dollars ($21,000) for the ensuing year 1902, upon the basis of two dollars per capita per week, reference being had to section 5, subdivision 22, section 230, chapter 378 of the Laws of 1897. This is the aggregate of the appropriations made for the present year: For the Children's Fold, $17,250, and for the Shepherd's Fold, $3,750. During the present year this appropriation for the Shepherd's Fold was transferred to the Children's Fold, which latter-named institution has since that time maintained the children theretofore of the Shepherd's Fold, and the latter institution has since then ceased to receive children.

The object of this institution, the Children's Fold, is the maintenance, training and education of destitute children; and all those for whose support any portion of the City's appropriation is drawn have first been received and accepted as City charges by the Commissioner of Charities or committed by a magistrate. It has generally under its care about seventy girls in its house on One Hundred and Fifty-fifth street, near St. Nicholas avenue in this city, who attend the public school in the vicinity, and about one hundred and fifty boys at Mount Minturn, Elmsford, Westchester County, New York, for whom a school is provided. We have there three cottages in which are maintained these one hundred and fifty boys; also a school-house, reception house and infirmary, with woods and fields for the boys' playground. The money received from the City is expended solely for the maintenance of the children. The difference between the amount granted to the institution by the City and the actual expense of conducting the institution is contributed by friends.

No trustee or officer of the institution receives any compensation for his services.

We respectfully request therefore that an appropriation of twenty-one thousand dollars ($21,000), on a basis of two dollars per week per child, may be made in its behalf for the ensuing fiscal year.

Dated AUGUST 1, 1901.

Respectfully submitted,
CHARLES H. MEYER, President of the Children's Fold.

OFFICE OF THE CORPORATION OF THE CHURCH OF THE TRANSFIGURATION,
No. 11 EAST TWENTY-NINTH STREET,
NEW YORK, August 2, 1901.

To the Municipal Assembly, New York City:

GENTLEMEN—Replying to the July circular from the Comptroller entitled "Department Estimates," I beg to advise you that my estimate for the Protestant Episcopal House of Mercy

for the next ensuing year, for board of inmates committed by the courts, is seven thousand five hundred dollars ($7,500).

Yours very respectfully,
CHAS. N. KENT, Acting Treasurer, P. E. House of Mercy.

ST. JAMES' HOME,
No. 21 OLIVER STREET, NEW YORK CITY,
August 2, 1901.

The Municipal Assembly:

GENTLEMEN—In accordance with resolution adopted by the Board of Estimate and Apportionment, June 13, 1901, I beg to submit estimate of amount required for year 1902 for the care and support of inmates of St. James' Home, No. 21 Oliver street, as provided by Laws 1897, 1899, chapters 378, 196, sections 10, 226 and 230.

I estimate the amount required to be $10,430.

Yours respectfully,
JAMES B. CURRY, President.

The support of 100 children for 365 days, 36,500:

$$36{,}500 \text{ days at } \frac{\$2}{7} = \frac{\$73{,}000}{7} = \$10{,}428\tfrac{4}{7}$$

ESTIMATE OF EXPENDITURES FOR THE YEAR 1902 FOR THE BROOKLYN NURSERY AND INFANTS' HOSPITAL.

1. Under the Charter of New York City, section 230, subdivision 22, subsection 23, it is provided that:

"The Board of Estimate and Apportionment are hereby authorized in their discretion to "include in their annual statements and estimates the following specified sums of money for the "respective purposes therein stated, viz.:

"Four thousand dollars ($4,000) to be paid to the Brooklyn Nursery and Infants' Hospital."

In addition to this the institution is entitled to receive money under the Laws of 1888, chapter 472, under what is known as the "Mothers and Infants' Fund."

The annual statement for the year 1900, shows that the total expenditures for that year amounted to about the sum of fourteen thousand dollars ($14,000). It is very probable that the expenditures for the coming year will be at least fifteen thousand dollars ($15,000).

The following is a statement of the work done by the institution for the year 1900:

Brooklyn Nursery and Infants' Hospital, from August 1, 1900, to August 1, 1901.

Number of children cared for	200
Number of free days support	9,148
Days partly paid for	6,227
Public charges, days	4,248
Total	19,823
Number of mothers with children	61
Free days	5,279
Mothers paid for by City	2
Number of days support	99
Money received from City in 1901 for board of committed children	$1,781 84

It is respectfully submitted that the full estimate of four thousand dollars ($4,000) allowed under the Charter should be made, and also the full proportional amount which is due and payable under what is known as the "Mothers and Infants' Fund," and at least two thousand dollars ($2,000).

OMRI F. HIBBARD, Attorney for Brooklyn Nursery and Infants' Hospital.

State of New York, County of New York, ss.:

Omri F. Hibbard, attorney for the Brooklyn Nursery and Infants' Hospital, being duly sworn, deposes and says, that he has read the foregoing estimate and knows the contents thereof, and that the same is true of his own knowledge, except as to the matters therein stated to be alleged on information and belief, and that as to those matters he believes it to be true.

OMRI F. HIBBARD.

Sworn to before me this 2d day of August, 1901.

To the Municipal Assembly:

GENTLEMEN—In reply to a communication from our Hon. Bird S. Coler, Comptroller of The City of New York, requesting our estimate for the year 1902, we have figured on seventy-five thousand dollars, having ample room to take care of many more children than we have at present.

NEW YORK, August 3, 1901.

To the Municipal Assembly:

GENTLEMEN—This institution respectfully submits estimate for coming year as follows: Under section 230, Greater New York Charter, as amended by chapter 196, Laws 1899, for maintenance of dependent children accepted by Department Public Charities as proper charges, at the rate of $2 per week per capita, the sum of thirty-one thousand dollars ($31,000).

CITY OF NEW YORK—BOROUGH OF BROOKLYN,
OFFICE OF THE PRESIDENT OF THE BOROUGH,
August 2, 1901.

Board of Estimate and Apportionment, Municipal Assembly:

GENTLEMEN—I have your circular letter of the 3d ultimo, notifying me to send you an estimate of the amount of appropriation required to conduct this office during the year 1902. In view of the amendments to the Charter affecting the office of the President of the Borough, which go into effect on January 1, 1902, it is impossible for me now to make an intelligent estimate for conducting the office during the next fiscal year.

The amended Charter provides (section 10) that between January 1 and May 1 next year the Board of Estimate and Apportionment shall have power to alter, modify and amend the Budget for that year, so your Board may not consider it necessary to determine upon an appropriation in detail during the current year for the office of the President of the Borough during the year 1902. If, however, you do so determine, I will make, when requested, as accurate an estimate as possible.

For the purpose of complying with section 226 of the charter, I request the same appropriation for the year 1902 as was appropriated for the present year, as follows:

	REQUIRED FOR 1902.	APPROPRIATED FOR 1901.
President's salary	$5,000 00	$5,000 00
Salaries of Secretary, Clerk, etc.	6,800 00	6,800 00
Contingencies	300 00	300 00
Total	$12,100 00	$12,100 00

Respectfully,
EDWARD M. GROUT, President of the Borough of Brooklyn.

THE ST. VINCENT'S HOSPITAL OF THE CITY OF NEW YORK.

To the Honorable Body, Municipal Assembly:

GENTLEMEN—In submitting the estimate for the year 1902 we respectfully request that you would grant us the sum of thirty thousand dollars ($30,000).

We ask this amount in view of the constantly increasing number of emergency cases. For instance, during the heated spell in July our calls numbered seventy a day. Our appropriation for 1901 was not adequate to cover half the cases who were proper charges on the City, and consequently were not approved by the Department.

The cost of supporting the hospital for the year, including provisions and supplies, wages, drugs, ambulance service and all other expenditures, was $69,340.86.

Trusting you will give this matter your kind consideration and aid us to care for the large number of suffering poor who are constantly applying for admission to our wards, I beg to remain,

Respectfully yours,
SISTER LOUIS GONZAGA, Treasurer, St. Vincent's Hospital,
Eleventh street and Seventh avenue.

GERMAN HOSPITAL AND DISPENSARY IN THE CITY OF NEW YORK,
HOSPITAL, EAST SEVENTY-SEVENTH STREET, PARK AND LEXINGTON AVENUES,
DISPENSARY, No. 137 SECOND AVENUE,
NEW YORK, August 6, 1901.

The Municipal Assembly of The City of New York:

DEAR SIRS—The Board of Trustees of the German Hospital and Dispensary beg to request that the amount of $6,000 be set aside for the care and maintenance of such patients as may be accepted by the Department of Public Charities during the year 1902, in accordance with section 230, Greater New York Charter, as amended by chapter 196, Laws 1899.

Very respectfully,
ADOLF KUTTROFF, Vice-President.

THE HEBREW INFANT ASYLUM OF THE CITY OF NEW YORK,
EAGLE AVENUE AND ONE HUNDRED AND SIXTY-FIRST STREET,
NEW YORK, August 6, 1901.

Municipal Assembly, City of New York:

We beg to apply for an appropriation of $15,600 for the ensuing year, being at the rate of $1,300 monthly.

Reference to your books will show that we are nearly drawing above amount in 1901, and we are making but a slight advance in our demands, based upon the natural increase of the destitute among the Hebrew infants. I beg to remain,

Yours truly,
CHAS. LITTMAN, Treasurer.

THE BROOKLYN SOCIETY FOR THE PREVENTION OF CRUELTY TO CHILDREN,
NO. 105 SCHERMERHORN STREET,
BROOKLYN, NEW YORK, August 1, 1901.

Hon. RANDOLPH GUGGENHEIMER, President, Municipal Assembly:

MY DEAR SIR—Replying to your notice of the 1st instant, asking for a report of this society in accordance with the resolution passed by the Board of Estimate and Apportionment held June 13, 1901, I beg herewith to respectfully submit that, under paragraph 23 of subdivision 22 of section 230 of the Charter, your Board is empowered to include in your Annual Budget the sum of four thousand dollars for The Brooklyn Society for the Prevention of Cruelty to Children, and, under chapter 196 of the Laws of 1899, further power is given to your Board to make any appropriation which in your judgment is deemed proper for the said society. This power is continued under chapter 466 of the Laws of 1901.

Under the latter provision, this society respectfully asks that six thousand dollars ($6,000) be provided in your Budget for the uses and purposes of this society.

Attached hereto is a general statement of the receipts and expenditures for the year 1900, giving in detail, as provided in section 226 of the Greater New York Charter, the objects of, and the expenditure.

This statement is sent to the Mayor, the Comptroller, and to the Municipal Assembly. The additional amount above stated which is asked for the year 1902 is owing to the increased expenditure which has been necessitated by the extension of the society's work to the Borough of Queens.

If this society was only an aid-giving society, in the sense that it took care of destitute children as an orphan asylum does, or gave alms outside to the poor, as the Poor Association, or was a hospital, and cared for sick patients in the general way that most institutions do, it would not be necessary for us to give anything further to the Board of Estimate than our report; but the work of this society is peculiar to itself, and its claim for recognition by the authorities, even in pursuance with this law, is on the ground of its special work.

No provision has ever been made in the boroughs of Brooklyn and Queens for the care of lost children except in the Shelter of this society. No provision was ever made for the care of children under fourteen years of age, who would be sent to the jails except in the Shelter of this society, and no provision has been made for the care of girls under sixteen years who are arrested by the police and held for trial except in our Shelter.

In this particular the society stands alone. In another particular the society stands alone, viz.:

Of the many children under the age of sixteen, both boys and girls, who may be taken before the City Magistrates, there is no recognized agency for the investigation of their home surroundings, and the merit of such arrests other than this society, and as there are eight City Magistrates' Courts in the Borough of Brooklyn and three in the Borough of Queens, located at the distant points of Long Island City Flushing, and Far Rockaway, and some four thousand children arrested each year and taken before these courts, you can readily see that the work of investigation by the society's agents is large.

In addition to this, as there is no provision made by the Police Department, it has been and is necessary for this society to defray the expense of transportation of children from the Shelter to the courts and back again in every instance, even when in the care of a police officer in uniform.

In addition to this, so as to prevent the necessity of a young girl being taken through the streets openly under arrest by an officer in uniform, the society's agents have delivered girls from the courts to the House of Refuge, the New York Catholic Protectory, and other institutions to which they have been committed, which is an additional expense.

In view of all this work, together with the investigation, prosecution and conduct of cases of actual cruelty to children, including all its phases, the society makes a special plea to the Board of Estimate and Apportionment for its consideration.

In addition to all of the above, the society cured, without one cent of expense to City or County or State of New York, for 1,260 children during the year 1900, and supplied them with food, clothing and medical attendance.

Should any question be raised, the society begs leave to say that it has obeyed all the laws and ordinances, rules and regulations laid down by the public authorities, and has made all the reports called for by such officers.

The society's Shelter is open for inspection daily. You are invited to visit.

Acknowledging past courtesies, I beg to remain, with great respect,

ROBERT J. WILKIN, Superintendent and Attorney.

CORONERS' OFFICE, BOROUGH OF THE BRONX,
NO. 761 EAST ONE HUNDRED AND SIXTY-SIXTH STREET,
NEW YORK, August 8, 1901.

To the Board of Estimate and Apportionment, City of New York:

GENTLEMEN—The Board of Coroners of the Borough of The Bronx submit for your consideration the annexed statement of salaries and expenses required for the Coroners' Office for the year 1902.

There is an increase in the amount required for the year 1902 over the amount appropriated for the year 1901.

This increase in the salaries of the Assistant Clerks is not unreasonable; they do the special work of the Coroners day and night on investigations and ante-mortem statements, summon jurors, subpœna witnesses and take testimony in simple cases, and we consider that $2,000 is small enough salary for the amount of work and kind of work it is their duty to do.

The Assistant Clerks were paid last year out of the Contingent Expenses, and according to the opinion of the Corporation Counsel the Clerks paid out of said appropriation will be included hereafter in the Classified Salaries, and the salaries will be fixed by the Board of Estimate and Apportionment.

There is a decrease in the contingent expenses of each Coroner by appropriating a classified salary for the Assistant Clerks.

Respectfully yours,
ANTHONY McOWEN, }
THOMAS M. LYNCH, } Coroners.

Very truly yours,
WILLIAM F. MOORE, Justice.

LIBRARY OF THE YOUNG WOMEN'S CHRISTIAN ASSOCIATION OF THE CITY OF NEW YORK,
No. 7 EAST FIFTEENTH STREET, August 10, 1901.

Municipal Assembly of The City of New York:

GENTLEMEN—As Chairman of the Library Committee of the above-named association I beg leave to submit the accompanying copies (as required) of estimates for the appropriation for the library for the year 1902. I beg leave also to state here that we entertain a very earnest hope that the amount granted us may be much larger than that of last year, which was far below the amount allowed by law to be awarded and was disproportionate to the rational and desirable increase of the library. Our association is doing a very large work on educational, industrial and many other benevolent lines, aside from its library work, and yet the library is the only department in which it receives City aid.

In view of this fact we think the aid given to the library should not be too freely reduced, and we hope it will not be on this occasion.

Yours truly,
MARY McL. WATSON (MRS. B. F. WATSON),
Chairman of Library Committee, Young Women's Christian Association of The City of New York.

UNIVERSITY OF THE STATE OF NEW YORK—HOME EDUCATION DEPARTMENT.

Certificate of Approved Circulation.

This certifies that New York Y. W. C. A. Library is subject to the inspection of the Regents and registered by them as maintaining a proper standard; that its system of recording the circulation of books and the character of the books so circulated have been officially inspected; that its trustees have reported under oath the number issued for home use during the year ending December 31, 1900, and that in the judgment of the authorized inspector this library has circulated for the free use of the public during the said year eighty-eight thousand (88,000) volumes of such a character as to merit a grant of public money.

MELVIL DEWEY, Director.

W. R. EASTMAN, Inspector.

In Witness Whereof, the Regents grant, under seal of the University, this certificate, recorded as No. 827 in the University Register June 4, 1901.

COMPARATIVE STATEMENT

FREE CIRCULATING LIBRARY OF THE YOUNG WOMEN'S CHRISTIAN ASSOCIATION OF THE CITY OF NEW YORK, NO. 7 EAST FIFTEENTH STREET.

	1901.	1902.
Appropriation granted by the Board of Estimate and Apportionment, for 1901, on an approved circulation of 80,000	$5,500 00	.....

The balance unexpended at the close of the current year will not more than pay outstanding bills, as the amount remaining after the payment of salaries and binders' bills (as per Departmental Estimate herewith) is inadequate for the purchase of the necessary books.

Expenses Which are Paid from City Appropriation.

Bookbinding bills (estimated)		450 00	550 00
	Total	$3,300 00	$3,400 00

The above are the only expenses paid from the City appropriation, as the Young Women's Christian Association of The City of New York provides rooms for the library in its own building, No. 7 East Fifteenth street, and also furnishes heat, light, rate, repairs, janitor's services, etc. After the payment of the expenses specified in the above statement the balance of the appropriation is used for the purchase of books.

Appropriation granted in 1901 (on an approved circulation of 80,000)	$5,500 00
Expenses taken therefrom (as stated above)	3,300 00
Balance for the purchase of new books in 1901	$2,200 00

It is hoped that the Board of Estimate and Apportionment will consent to make a larger appropriation for 1902, as that of the current year does not allow for a proper and proportionate increase of the library.

Chairman of Library Committee, Young Women's Christian Association of The City of New York.

ESTIMATE OF EXPENDITURES BY THE NEW YORK HOMEOPATHIC MEDICAL COLLEGE AND HOSPITAL (FLOWER HOSPITAL).

To the Board of Estimate and Apportionment:

GENTLEMEN—The following estimate of expenditures by the New York Homeopathic Medical College and Hospital for the support of Flower Hospital for the year 1901-1902 is respectfully submitted:

22 pupil nurses	2,730 00
6 orderlies	1,344 00

2 engineers (1 only half year)	900 00
2 cooks, 2 kitchen girls	972 00
3 waitresses	480 00

5 laundresses	885 00
1 seamstress	130 00

SUPPLIES.

Provisions	$14,000 00
Medical supplies	3,800 00
Ambulance service (fuel, shoes, repairs)	600 00
House supplies (starch, soap, brooms, etc)	400 00
Crockery, kitchen utensils	250 00

Repairs	1,200 00
Painting and decorating	350 00
Fuel and light	2,000 00
Stationery	700 00
Sundries	300 00
Total	$38,080 00

The hospital is open day and night with ambulances always ready at a moment's notice.

It is estimated that the ambulances will answer 1,650 calls during the year, half of which number will be brought into the hospital, the remainder being cared for by the Ambulance Surgeon at the place of call.

The number of patients who will receive hospital care during the year will be about 4,200.

Basing calculations upon the amount received last year, the City will pay about $9,000.

Thus $29,000 must be provided by the institution from outside sources.

Total	$54,964 51	$59,017 49	$113,982 00

The total it will be noticed exceeds the appropriation by $24,382. This excess will be made up in whole or in part from the income of the department, derived from interest on invested funds, voluntary annual contributions, State appropriation, fines, etc., which for the last fiscal year of the New York Free Circulating Library ending October 1, 1900, amounted to $26,282 14, and for the last fiscal year of the St. Agnes Free Library amounted to $1,131. This includes unusually large donations, amounting to about $7,000, which cannot be counted upon for the current year. In the ensuing year there will be further reductions in the amount, owing to the facts that the State appropriation will probably be reduced fifty per cent, and that many persons who formerly subscribed regularly to the New York Free Circulating Library will probably discontinue their subscriptions now that that institution no longer exists as a separate corporation.

The estimated expenses for the year 1902 for the twelve branch libraries now included in the department, and for the traveling libraries which it operates (at present 156 in number), including the necessary increases due to expected rise in circulation, and to needed improvements in method and plant, are as follows:

Estimated Expenses for 1902.

Books, papers, periodicals, etc	$17,000 00
Bindery	2,500 00
Repairs and furnishing	3,500 00
Heat	1,400 00
Light	4,000 00
Water	120 00

Supplies and administration	12,000 00
Catalogue cases, etc	100 00
Monthly book list	1,000 00
Total	$119,550 00

Estimated Income for 1902.

Income from all sources, except City appropriation, for last fiscal year:

New York Free Circulating Library		$26,282 14
St Agnes Free Library		1,131 00
Total		$27,413 14
Deduct 50 per cent. State appropriation	$1,200 00	
" donations	6,350 00	
" memberships, etc	4,795 00	
" interest on $30,000 paid for Yorkville lot	1,500 00	
		13,845 00
Estimated income for 1902		$13,568 14
Estimated expenses as above		$119,550 00
		13,568 14
Total		$105,981 86

We would therefore ask from the City an appropriation of $105,000 for the year 1902, as against $89,000 appropriated in 1901 for the same objects.

The Regents' certificate of approved circulation will be submitted with this estimate.

Respectfully yours,

G. L. RIVES, Secretary,
New York Public Library, Astor, Lenox and Tilden Foundations.

ST. JOSEPH'S HOSPITAL FOR CONSUMPTIVES,
EAST ONE HUNDRED AND FORTY-THIRD STREET, BETWEEN ST. ANN'S AND BROOK AVENUES, NEW YORK CITY.

To the Honorable Municipal Assembly, Board of Estimate of The City of New York:

HON. GENTLEMEN—Before complying with the request of the Board of Estimate and Apportionment for the estimate of our hospital for 1902 we beg to offer you our sincere thanks for the apportionment you so kindly granted to us last year, for which generosity may abundant thanks and blessings be bestowed upon you all. St. Joseph's Hospital receives, cares for and treats such patients as are sent to it or accepted in pursuance of the rules established by the Commissioner of Charities.

The City pays the hospital sixty cents per day for medical patients and thirty-eight cents for children under five years of age, so sent and received.

Since January 1, 1901, the number of patients approved of by the Commissioner of Charities are as follows:

January	197	medical patients.
February	180	"
March	197	"
April	195	"
May	194	"
June	183	"
Total for six months	1,155	

We are convinced from past years' experience, that during the year 1902 we shall be called upon to render service at least to the same number of patients if not more as were treated during the year 1901, which are as follows:

January	470	medical patients.
February	445	"
March	408	"
April	450	"
May	447	"
June	446	"

Therefore we take as a basis for estimate for 1902 the apportionment of 1901.
The sum required for 1902, $34,000.

ST. JOSEPH'S HOSPITAL,
By SISTER LIGUORI, Superior.

To the Board of Estimate and Apportionment:

The Board of Managers of the North Western Dispensary in The City of New York respectfully ask your Board to appropriate the sum of six hundred and twenty-five dollars to said Dispensary, being the amount appropriated to said institution in the Budget for 1901 and 1901.

Dated NEW YORK, August 16, 1901.

JOHN HARDY, Treasurer.

CHAMBERS OF THE SURROGATES' COURT,
COUNTY OF NEW YORK,
NEW YORK, August 16, 1901.

To the Honorable the Board of Estimate and Apportionment:

An estimate of the amount of expenditures required for the maintenance of the Surrogates' Court and office for the year 1902 is herewith respectfully submitted for your consideration and action.

For the ensuing year is required the same appropriation as was made for the previous year for the Clerks employed, pursuant to chapter 57 of the Laws of 1883, as amended by chapter 467 of the Laws of 1890, in the preservation and transcription of mutilated and obliterated records. Eight Clerks are so employed at a salary of $1,200 a year each, and a Superintendent and Examiner at $1,500 a year. Four libers in addition to those now on hand, at a cost of $30 each, and $100 for stationery, will be required for the prosecution of this work next year. The necessity for this work has been duly certified in accordance with the acts mentioned. A certificate as to the same accompanied the communication of September 11, 1890, of the then Surrogate, submitting the estimates for that year; a similar certificate was attached to the respective estimates submitted August 16, 1892; September 5, 1895; September 15, 1896; September 7, 1897; September 28, 1899, and October 1, 1900. A like certificate is submitted herewith. For office contingencies $1,330 are required, being the same amount allowed for this purpose for this year; $1,000 are needed for the payment of the Sheriff for services in serving citations and orders in proceedings commenced by the Surrogates to compel accountings of delinquent executors, guardians and others, this amount being the same as was appropriated for the same purpose for this year. The total appropriation asked is $170,120, and is $2,310 in excess of the appropriation for this year. This difference is accounted for as follows: By a proposed increase of $500 in the salary of the Chief Clerk; $500 in the salary of the Deputy Chief Clerk; $500 in the salary of the Clerk of the Court; $250 in the salary of the First Law Assistant; $300 in the salary of the Second Law Assistant; $300 in the salary of the Third Law Assistant; $100 in the salary of the Deputy Clerk of the Court; $100 in the salary of the Clerk of Records, and by the requisition of $240 less than had been appropriated for the current year for libers used by the Clerks employed in the preservation of the public records.

Respectfully submitted,
(Signed) FRANK T. FITZGERALD, Surrogate.

BROOKLYN CHILDREN'S AID SOCIETY,
No. 61 POPLAR STREET,
BROOKLYN, August 9, 1901.

To the Honorable the Board of Estimate and Apportionment, City Hall, New York City, N. Y.:

GENTLEMEN—In conformity with your request in circular letter of July, we submit the following estimates:

For the care and maintenance of dependent children accepted by the Department of Public Charities as proper charges against the City Treasury, at the rate of $2 per week, including disbursements in placing out children	$10,000 00
For Seaside Home (Sanitarium) of the Brooklyn Children's Aid Society, payable in twelve monthly installments	5,000 00

The larger part of the children placed in our care are boarded with private families, instead of being kept in an institution. This method is strongly commended by many persons experienced in caring for dependent children, and has amply justified itself during several years of trial.

Children are willingly received for short commitments, and parents and relatives are encouraged to take children home as soon as possible. When the children's own homes cannot be reestablished, we endeavor to find free homes or adoptive homes for them, if parents will consent, thus relieving the City of burden of support and giving children a better chance in life.

Children ill with diseases incident to summer are sent, after medical examination, to the Seaside Home at Coney Island. Mothers accompany and care for the children. Sometimes only one of the family has an acute attack, but usually all are in need of constitutional or other treatment.

This is the only Brooklyn seaside hospital or home, and it is believed to be the oldest in the country. No rejections are made on account of religion or nationality. Illness and need are the only tests.

The Seaside Home carries on a work for the Borough of Brooklyn similar to that of the Hebrew Sanitarium and St. John's Guild for Manhattan. Both of these societies receive aid from the City Treasury.

The home can care for about 500 inmates at a time, and is well equipped for the treatment of summer diseases. The medical staff is composed of eminent specialists in children's diseases, a resident physician and trained nurses.

I am, very respectfully,
WILLIAM C. KELLOGG, President.

DEPARTMENTAL ESTIMATE FOR 1902.

J. HOOD WRIGHT MEMORIAL HOSPITAL,
NEW YORK, August 16, 1901.

Hon. BIRD S. COLER, *Comptroller, New York City:*

SIR—In response to your circular of July , 1901, asking for data upon which to base estimate for appropriations to be made by the Board of Estimate and Apportionment, to partially compensate private hospitals for the care of sick and injured, who would be entitled to care by the public institutions, we beg to submit that it is practically impossible to do more than refer to our capacity for service, and by repeating what was contained in our reply to your circular of July 2, 1900, i.e.:

"By calling special attention to the fact that we are essentially an emergency hospital, located in a rapidly growing district on the west side, where, by the contiguity of the Hudson River Railroad, the river docks, the active construction of buildings, the large number of tenement-houses, and the great number of passengers carried by the street cars, the liability of accident is greatly increased over many other districts. It will be readily seen, therefore, that we can but approximate the demand upon us for ambulance and other emergency cases."

Last year we suggested that there should be appropriated $7,500. The records of the hospital and those of the Department of Charities will show that for six months of 1901 (January to June inclusive) there was paid the hospital $3,366.88. Should the remaining six months of 1901 not exceed the work of May and June it would call for nearly $5,900, and this under the strictest rulings of the Department of Charities.

Our work is increasing each year, as will appear by our annual report for 1900, herewith inclosed. Our days of free treatment decreased in 1900 on account of the partial payment received from the City, although the total number of days patients were treated in the hospital increased from 14,681 to 16,163. We receive no aid for the work of the dispensary, although we treated 4,417 patients, and from them received 10,141 visits. The number of patients treated for 1900 fell off slightly because of the stringent ruling of the State Board of Charities under the new law, by which we are precluded from rendering free service when the patient is able to contribute anything.

By referring to our last annual report, page 55, it will appear that we treated 1,278 cases in the emergency ward of the hospital, and 420 cases were treated by the Ambulance Surgeon and not brought to the hospital. The cases thus treated in the emergency ward are exclusive of the dispensary.

Should the work for 1902 be indicated by the months of February and May, 1900, there would be needed $8,000. We think you should appropriate at least $6,500. The hospital cannot obtain one penny of it except by doing the work in accordance with the law and rules of the Department of Charities, so that any increased portion would remain safely in the City Treasury.

It is only just to state that the 70 cents per day received for medical and 80 cents per day for surgical cases is only about one-half the actual cost of caring for these same patients, and we feel quite confident that our cost is not in excess of other institutions.

We beg also to submit to your careful consideration the question of allowance for ambulance service, apart from the free service of the hospital. It costs more than a full day's service to answer an ambulance call and dress the wounds of a patient, irrespective of any future treatment in the hospital. Furthermore, when it is necessary to transport a patient to Bellevue, because of insanity or other reasons making it impossible to retain them at our hospital, it demands a round trip of fifteen miles for the ambulance, thus not only calling heavily on horse flesh, but also depriving our district of an ambulance for several hours at a time. We think at least $2 should be allowed for an ambulance call, irrespective of subsequent service, for if the hospital did not maintain an ambulance service, the City authorities would be compelled to establish one, and it will hardly be claimed that it could be maintained as economically as by the present method.

Yours respectfully,
JOSIAH C. REIFF, President, J. Hood Wright Memorial Hospital.

SETON HOSPITAL, SPUYTEN DUYVIL, N. Y.,
August 16, 1901.

To the Honorable Municipal Assembly of The City of New York:

HONORED SIRS—In response to your communication of July 2, I beg to state that our estimated number of patients for the year 1902 is two hundred (200). This number at sixty (60) cents per day, per capita, amounts to $43,800, our estimate for 1902 in accordance with the provisions of the law.

Permit us, however, to add that we find we cannot properly support and nourish our patients on less than one dollar ($1) per capita, per day.

I am, Honored Sirs,

Respectfully yours,
SISTER FRANCIS IGNATIUS, Treasurer.

ST. AGATHA'S HOME FOR CHILDREN,
NANUET, ROCKLAND COUNTY,
NEW YORK, August 17, 1901.

Honorable Municipal Assembly of The City of New York.

GENTLEMEN—In response to your communication of July 2 I beg to state that the estimated number of children for the year 1902 is four hundred and thirty (430). This number at $2 per capita per week amounts to $44,720, our estimate for the year 1902.

I am, with much respect, Honored Gentlemen, Yours,
SISTER MAY ALBERT, Treasurer.

THE TOTTENVILLE LIBRARY ASSOCIATION,
TOTTENVILLE, BOROUGH OF RICHMOND, NEW YORK CITY,
THE LIBRARY, No. 137 JOHNSON AVENUE,
TOTTENVILLE, N. Y., August 19, 1901.

Municipal Assembly, City of New York:

SIR—I file herewith one copy of an estimate of expenses of the Tottenville Library for the year 1902, together with two certificates (certificates filed with the Comptroller) of approved circulation from the State University, the certificate for 10,000 volumes representing the circulation of the main library, and that for 390 volumes representing the circulation of the Princes Bay branch.

The branch library is located for convenience and economy in the office of S. S. White Dental Manufacturing Company, for whose employees and their families it was primarily established and is now sustained. It is a useful adjunct of the main library and exerts a wholesome influence. It is open every working day in the year, an average of 60 hours a week, and is under the supervision of the treasurer of the main library.

Referring to the above-mentioned certificates, the trustees beg to ask, for the year 1902, for an appropriation of $1,200, to cover salaries, expenses and purchases for both libraries. It is our intention to add monthly to our book ownership, and as largely as our funds will permit. This purpose, if it can be carried out, will tend to supply existing and growing needs. It will afford a basis for more extended reading of helpful books and create higher ideals in literature among all classes of our patrons; but especially will it favor the juvenile readers, the class above all that must not be neglected. The main library has been open four days each week. Our estimate of expenses for 1902 is in part based on the intention to have it open every working day in the year.

But an increase of books and service means, however, an increase of work and expenses. We therefore urge that the full amount asked for, viz., $1,200, be granted us.

Permit me to add that the letter from the University transmitting the certificates contained this favorable comment: "We are pleased to note the evidence of your success."

Very respectfully,
FRANK JOLINE, President Tottenville Library.

SLOANE MATERNITY HOSPITAL,
FIFTY-NINTH STREET AND AMSTERDAM AVENUE,
NEW YORK, August 20, 1901.

To the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—We respectfully apply for an appropriation of twelve thousand dollars ($12,000) for the care and support of the women and their babes in the Sloane Maternity Hospital for the year 1902, based upon the facts as set forth in accompanying letter. Such allowance, of course, to be subject to the rules and regulations as shall be prescribed by the Department of Charities and Correction, also subject to the inspection of the State Board of Charities.

Very respectfully,

By WM. D. SLOANE, Treasurer.

SLOANE MATERNITY HOSPITAL,
FIFTY-NINTH STREET AND AMSTERDAM AVENUE,
August 20, 1901.

To the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—In conformity with the request contained in the circular letter of the Comptroller dated July, 1901, the Sloane Maternity Hospital respectfully submits herewith its estimate of the amount it should be pleased to receive from the City for the year 1902.

As the Legislature has provided that your Honorable Board shall determine as to the amount a charitable institution shall be allowed in any one year, we submit herewith a brief statement to show the claims of the Sloane Maternity Hospital for the allowance of $12,000, as asked for in inclosed estimate.

For the current year you were pleased to grant us an appropriation of $8,000, which amount will be about used by the end of August, for the support of emergency cases accepted by the Department of Charities and Correction as worthy of public support. We estimate that at least $1,000 per month will be required in the last four months of this year to meet the additional cases which will be passed upon by the Department.

The Sloane Maternity Hospital has 120 beds absolutely *free*, and two-thirds of them are filled most of the year. Last month (July) we had 141 cases, and for the six months of this year (ending June 30) there were in all 726, of which 288 were emergency cases and accepted by the Department as a charge upon the City.

For the year 1900 the entire cost of maintenance was $41,226.70, of which we received from the City $7,879.32, the balance having been contributed by friends of the institution.

The City only approves and allows for emergency cases at the rate of $18 per case.

The hospital is entirely free from debt, is conducted on the most economical basis, is doing effective work in relieving the City's deserving poor, and believes its request for an allowance of $12,000 a reasonable one.

We beg for it your favorable consideration, and remain,

Very respectfully yours,
JAS. W. McLANE, President.
WM. D. SLOANE, Treasurer.

FLUSHING FREE LIBRARY,
BOROUGH OF QUEENS, NEW YORK CITY.

To the Municipal Assembly of The City of New York:

GENTLEMEN—Herewith we respectfully submit, as required by law, a copy of our estimate of expenses for maintaining the Flushing Free Library for the coming year, which estimate accompanies our application for an appropriation from the City funds, under the Laws of 1892, chapter 378.

For the Flushing Library Association,
FOSTER CROWELL.

AUGUST 22, 1901.

FLUSHING LIBRARY ASSOCIATION.

To the Board of Estimate and Apportionment, City of New York:

GENTLEMEN—The Trustees of the Flushing Free Library hereby respectfully make application for an appropriation of $3,000 from the public funds, said library and reading-room having been kept open for the use of the public and 30,000 volumes having been circulated during the year, as shown by the certificate of approved circulation granted by the State Board of Regents and attached hereto.

Our similar application of a year ago was denied by your Board, without any explanation being vouchsafed officially.

Severe as this was, the citizens in our community spontaneously came to the relief of the library and by a prompt and generous general subscription provided funds sufficient to carry on the work of the library during the current year, being an amount greater than we had applied for to your Board.

While this action on the part of the citizens was most commendable and attests the importance of the Flushing Free Library in their judgment, we respectfully urge that to compel such action in order that this particular library may be maintained for the public while your Board freely contributes the City money for the support of other libraries in the Borough of Queens that are of far less service, and whose administration costs the City more, is manifestly unfair.

We recognize the fact that the authority of your Board in the premises is both absolute and discretionary, so that we are powerless and without legal remedy, but nevertheless there can be no doubt that it is a questionable use of such authority to discriminate as your Board has done in our case, and we protest against such action both as trustees and as citizens, and we urge upon you to right the wrong you have done us.

The arguments for an appropriation in the two years previous which were recognized during those years by your Board as valid exist in even greater force now; the usefulness of the Flushing Library to the community increases every year. For ourselves we ask nothing and obtain nothing except the satisfaction of helping to provide for every citizen who wishes it what we regard as one of the most important of agencies for increasing the well being of a free people. It is for the sake of a large community entitled to it that we ask this justice on your part.

The Flushing Free Library has upwards of 2,100 registered users, representing over 1,000 different households, and probably nearly one-third of the tributary population receive benefit, directly or indirectly from it. These people live in Flushing, Corona, College Point, Whitestone, Willett's Point, Bayside and Little Neck; the library is centrally and most conveniently located. The circulating and reference library as well the reading room are kept open day and evening to all orderly citizens without question. It is maintained in a manner to receive the full approval of the State Board of Regents and of Library experts.

In the light of these facts why should the City refuse to recognize the public service that the Library has rendered and is constantly rendering?

Very respectfully,

[SEAL]

HENRY M. DUNCAN, President, FOSTER CROWELL, W. J. VERDERY, A. M. RYAN, Secretary, } Representing the Board of Direction of the Flushing Library Association.

ST. JOHN'S LONG ISLAND CITY HOSPITAL, JACKSON AVENUE AND TWELFTH STREET, LONG ISLAND CITY, August 15, 1901.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—As you are aware, the Borough of Queens is without any public hospital like those in the boroughs of Brooklyn, Manhattan and The Bronx, which are maintained solely by the City.

Since we have become a part of the Greater City, practically the whole of the burden has fallen on St. John's Hospital, as it is the only fully equipped one in the borough.

In Flushing and Jamaica, it is true, they have hospitals, but they are only for emergency calls, and but a small portion of the hospital work falls to their lot.

Long Island City, with its population of 50,000 souls, is composed almost entirely of factories. There are thousands of working people who come from Brooklyn and elsewhere to work at these factories. Night and day our ambulances are kept running. A little ways down from us are the termini of several lines of trolley cars, which reach away out on the Island, and the terminus of the Long Island Railroad connecting with Thirty-fourth street and other ferries, all of which inevitably increase the number of accidents and the number of calls upon us, and, owing to our proximity to the termini of these railroads, we are made the recipient of nearly all the cases on the line of the roads, and especially serious accident cases.

Exceedingly few indeed are our pay patients. The people are too poor. As I said, the population is composed of working people and mechanics, who earn their livelihood by hard manual labor, and when sickness and other misfortunes overtake them they are in sore need indeed.

Thus you see, gentlemen, how necessary is a hospital like ours and what a want it fills for that class of our citizens.

The work is growing more and more every year, the field is a large one, and with our limited resources, as we are at present circumstanced, we are unable to keep up with it.

We have stated the above facts very briefly for the information of your Honorable Body, so that the work done by our hospital for the past year might be drawn to your attention. While the work of the hospital has increased, we have asked the same amount which was allowed us last year.

Very sincerely yours,
ST. JOHN'S HOSPITAL,
SISTER MARY DAVID, Superintendent.

ST. JOHN'S HOSPITAL, LONG ISLAND CITY, August 20, 1901.

Hon. RANDOLPH GUGGENHEIMER, *President of Municipal Assembly, City of New York:*

DEAR SIR—In response to your communication of June 13, 1901, in regard to estimate of the amount required for the care and support of the inmates of St. John's Hospital in and for the year 1902, would say that, estimating on the basis of the work done during the first six months of the present year (1901), we will require at least the same amount as last year, viz., $25,000.

St. John's Hospital is without any endowment, and depends wholly upon its current receipts to meet its expenses, which for the year 1901 was upward of fifty thousand dollars ($50,000), or more than $18,000 in excess of its receipts.

The Hospital is open day and night, with an ambulance ready at a moment's call.

Yours very respectfully,
ST. JOHN'S HOSPITAL,
SISTER MARY DAVID, Superintendent.

SEVENTEENTH SEPARATE COMPANY, N. G., N. Y., FLUSHING, N. Y., August 15, 1901.

Board of Estimate and Apportionment, City of New York, N. Y.:

GENTLEMEN—In accordance with section 226 of the Greater New York Charter, and resolution of June 13, I have the honor to submit herewith my yearly estimate of necessary expenditures for this armory:

Painting walls and ceiling in drill-room	$200 00
2 urinals, 2 closets, 3 wash-stands and plumbing	300 00
50 tons coal	275 00
1 electric fan for forcing smoke out of smoke chamber in rifle range	30 00
1 set of bars and grate for boiler	30 00
Oiling floor of drill-room and galleries	60 00
6 brass wire brushes, 45 calibre	2 40
2 dozen mops	3 00
3 dusters, large feather	3 00
3 hair brooms, 18 inches wide	12 00
6 corn brooms, large	2 40
1 box (100 cakes) soap	5 00
2 gross pens	2 00
Ink, gun oil, cleaning paste, etc	25 00

Electric lighting, gas and water.
One Armorer, salary $3 per day, same as heretofore.
One Engineer, salary $3 per day, same as heretofore.

The urinals, closets, and wash-stands asked for are an absolute necessity: there is but one of each now for 80 men, and in very poor condition; the closets and urinals should be inclosed. Price is estimated.

Respectfully,
JOHN H. KLEIN, Captain.

ORPHAN ASYLUM SOCIETY OF THE CITY OF BROOKLYN, CITY OF NEW YORK, BOROUGH OF BROOKLYN, August 21, 1901.

To the Municipal Assembly, New York:

Estimate of the amount required for the care and support of dependent inmates of this asylum, as provided under chapter 378, Laws of 1897; forwarded at the request of Bird S. Coler, Esq., Comptroller.

There are in this institution 79 children who have been accepted by the Commissioners of Charities and Correction for the County of Kings, as inmates for whose care and support bills may be properly rendered to the City. Allowing for discharges and admissions, we estimate that there will be an average number of 96 dependent children inmates of the institution during the year 1902, for whose care and support at $2 per week per capita, $9,984 will be required; and we estimate that that sum is the amount that will be needed from the City for the care and support of said children as provided by law, in and for the year 1902.

Respectfully submitted,
JANE V. PALMER, Treasurer.

1 Clerk	$1,500 00
1 Transitman	1,800 00
1 Inspector of Cement	2,000 00
1 Messenger	1,200 00
3 Laborers and 1 Driver	3,022 50
Total	$9,522 50

The balance, amounting to $20,350, is paid, about one-third out of appropriation and about two-thirds out of Street Improvement Fund, being regulated entirely by the time occupied in the construction of new sewers and basins.

There will be a balance in the appropriation for the year 1901 of about $5,000.

CONTINGENCIES.

Allowed for 1901	$2,000 00

There will be no balance at the end of year. The amount is small, and great care and economy has to be exercised to keep within the appropriation.

SEWERS—REPAIRING AND CLEANING.

Allowance for 1901—		
Pay-rolls and Supplies	$125,000 00	
Contracts at Public Letting	40,000 00	
		$165,000 00
Amount required for 1902		200,000 00

Request is herewith made for an appropriation for the maintenance of the sewer system of $200,000. The amount allowed for the past two years has been $165,000. This sum is not adequate to the needs of the service. A separation of the same into two items, one for labor and supplies on the days' work system, and the other for contracts at public letting, does not meet the requirements of the case, since the laboring force which it has been necessary to employ eats up the whole of this appropriation, and the transfer of the amount for "Contracts at Public Letting" to "Pay-rolls and Supplies" has been necessary in each case, so that a large amount of repairs which has been reported to me by the Superintendent and the General Inspector as necessary, variously estimated from $40,000 to $60,000, has been left undone.

The importance of preserving the sewer system in a clean and healthy condition cannot be overestimated, but with the limited means at our command it is impossible to maintain any system of inspection and application of funds appropriated for the purpose to the whole sewer system.

I am informed that, under a recent decision of the courts, it is held that the City is responsible for the condition of its sewer system at all times, if the same results in damages to any adjacent property on account of storms or otherwise, reversing the old rule that it was only responsible for negligence after notice of the condition of the sewers. I understand several judgments have been obtained under this ruling.

To protect itself under these circumstances it would appear that the City will be obliged to employ a sufficient force to make periodical examinations of the whole sewer system, say every three months, and that whatever defects or uncleanliness are found as a result of these examinations, same must be attended to at once, or become liable for damages which might result therefrom.

Under these circumstances it would appear that $200,000 is a very small sum to meet all the foregoing conditions.

All contingent expenses, telephone charges, telegraph rates and office expenditures are charged against this appropriation. The same amount as was appropriated last year will be adequate.

PRELIMINARY SURVEYS, PLANS, ESTIMATES, ETC.

Final Estimate for 1901		$30,980 00
Departmental Estimate for 1902		37,760 00
3 Assistant Engineers, salaries $2,500, $2,100, $2,100	$6,700 00	
3 Transitmen	5,400 00	
3 Levelers	5,060 00

Surveying instruments and repairs	3,000 00	
For running bench levels	3,000 00	
		8,500 00
Total		$37,760 00

This item is to provide for the preliminary work of making ready for sewer construction, such as surveys, etc., made necessary by petitions of property-owners. These petitions are presented by property-owners almost constantly, and in view of the fact that many new streets are being legally opened and a large amount of building is in progress, the construction work of this

Department is increasing daily, as witnessed by the fact that there are at present fifty-seven (57) new sewers under construction, as against thirty-seven (37) at this time last year. An increase in this appropriation is therefore absolutely necessary in order to properly perform this preliminary work.

ROCK SOUNDINGS, BORING EXAMINATIONS, ETC.

Final Estimate for 1901	$15,000 00
Departmental Estimate for 1902	21,315 00
2 Sounding and Boring gangs—	
[illegible] men at $2.75 per day, for 250 days	$16,875 00
2 Rodmen in charge of gangs	2,640 00
Machinery and supplies for boring	1,800 00
Total	$21,315 00

The increase in this appropriation is made necessary for the same reasons as outlined in the preceding paragraph.

SPECIAL APPROPRIATION NO. 1.

For Altering, Rebuilding and Improving Receiving-basins and Sewer Appurtenances.

Final Estimate for 1901	$3,000 00
Departmental Estimate for 1902	8,000 00

This appropriation is absolutely necessary owing to the fact that there are many changes in lines and grades of streets in this borough where receiving-basins are already built and assessed for. The changes in lines and grades of streets necessitates the change of the receiving-basins, and as it is impossible to assess the property-owners a second time for these receiving-basins this appropriation is necessary.

SPECIAL APPROPRIATION NO. 2.

Outlet Sewers, Repairing and Cleaning, Contracts at Public Letting.

Departmental Estimate for 1902	$20,000 00

This special appropriation for cleaning by contract several of the large outlet sewers is asked for and especially urged as it has become apparent in the past that the Jerome avenue sewer, the Brook avenue sewer, the Webster avenue sewer, the Rider avenue sewer, the Fourth avenue sewer and other tide-water sewers are so choked up with the accumulation of years that the proper discharge from these sewers is impossible, and it has been found impossible for the Maintenance Bureau of this Department to clean these sewers out of its regular appropriation, there being so much other work for it to do.

SEWERS, RECEIVING-BASINS, CULVERTS, DRAINS, ETC., REPAIRING AND CLEANING, PAY-ROLLS AND SUPPLIES.

Final Estimate for 1901	$90,000 00
Departmental Estimate for 1902	110,000 00
Foremen, Assistant Foremen, Mechanics, Laborers, etc.	$90,000 00
Materials	20,000 00
Total	$110,000 00

The salaries of Foremen, Assistant Foremen, Mechanics, Laborers, etc., engaged in the work of maintaining, cleaning and repairing sewers and appurtenances, receiving-basins, culverts, drains, etc., and the cost of supplies and materials are included in this estimate, which is based on the approximate expenditures for the past three years and the increased amount which will be required for the year 1902, even in exercising the strictest economy. As mentioned in a preceding paragraph, the number of sewers now under construction is greatly in excess of the number under construction this time last year, and as the appropriation for this item for the past three years has been insufficient to properly prosecute the work of maintenance, this increase in construction, which is steadily being added to, makes an increase of the appropriation for maintenance imperatively necessary.

The following are the amounts which will probably remain unexpended of appropriations for 1901 at the end of the year:

Salaries, Deputy Commissioner's Office	$185 00
Boring Examinations	16 75
Sewers—Repairing and Cleaning—Pay-rolls and Supplies	....
Altering, Rebuilding and Improving Receiving-basins and Sewer Appurtenances (to be contracted for)	....

$54,070 appropriated for 1901.

Respectful request is made for an appropriation of $54,120, as shown by tabulation above. This amount is barely enough to properly administer the public business in this borough. Every position noted is absolutely necessary.

It would be well after the year 1902 to employ more inspectors of connection, as the mileage of sewers is increasing constantly and the territory is large, making it difficult for the inspectors to get over the ground, and to thoroughly inspect and ascertain that house connections have been properly made with sewers—a matter of utmost importance conducive to the health and happiness of our citizens.

Total	$44,091 25

$26,000 appropriated for 1901.

The above noted Engineering Corps of this Department in the Borough of Brooklyn is small when careful thought is given to the amount of work under its jurisdiction. Attention is drawn to the estimate of $12,500 of the amount of salaries listed to be charged against assessment work. This amount was estimated last year also, but your Honorable Board were of the opinion that much more could be estimated as chargeable to assessment work, and therefore $26,000 only was appropriated. Although much work has been in progress, enough money was not appropriated to prohibit the charge against assessment work of an amount less than 10 per cent. of contract cost of same for the present year. It must be borne in mind that Inspectors of Construction are charged against assessment work also, these salaries not appearing in the Budget; said salaries will, for the present year, aggregate about $35,000.

Thus it will be seen, even if it is anticipated, that $650,000 of work is to be constantly in progress during the year 1902, the charges against assessment work must reach the figure of 10 per cent. of contract cost, unless the amount above requested is appropriated, viz.:

Salaries, listed	$53,191 25
Supplies	3,400 00
Inspectors' salaries chargeable to assessment work (not appearing in budget)	35,000 00
Total expenses superintending all work	$91,591 25
Less amount of appropriation 1901	26,000 00
Total	$65,591 25

—which is about 10 per cent. on $650,000 of anticipated work, constantly in progress, necessarily chargeable to contracts in force under assessment proceedings.

The conduction of $650,000 of work in progress of construction means at least an amount of work in force of from one to one and one-quarter millions of dollars. The preparatory stages of field work and the preparation of plans from information so obtained, besides the care of contracts during the retained percentage period of six months after the completion of contracts, in time, cannot be charged against contracts of assessment, as, firstly, no charges can be made until contract is registered in the Department of Finance, and, latterly, after final estimate is rendered, unless delay is caused in the preparation of assessment lists, thus adding a charge of interest to each contract caused by such delay. It is anticipated that from one million to one and one-quarter million dollars of assessment work will be in progress during the coming year. To properly conduct this business the engineering force listed must be maintained. Therefore it is earnestly requested that $44,091.25 may be appropriated in order that the percentage charge against contracts under assessment work may be reduced.

Total	$150,000 00

$100,000 appropriated for year 1901.

The above salary list shows an annual pay-roll aggregating $128,320 in excess of the appropriation allowed under this heading for the year 1901. The supplies listed are based upon experience and consumption.

In other words, the force at this time maintained, with necessary supplies for same, for repairing and cleaning service is at the rate of $39,220 in excess of the amount appropriated.

Even with this force as listed we are able to just keep in repair and to clean the smaller pipe-sewers, receiving-basins, and small sub-mains of our system.

The deposits in our large sewers are gaining simply because we have not a force large enough to cope with same. When these deposits gain, such is not gradual and in proportion to attention given, but the gain is as to the square of such attention.

It is obvious, then, that to keep within the appropriation allowed this borough for the present year, the entire system must be neglected for the last two months in the year by the non-employment of the entire force. The results consequent upon such procedure must be apparent to all. Like results, but to a greater extent, must be expected during the year 1902 unless more money is annually allowed in this account.

Recent requisition has been made upon your honorable Board for $50,000 additional appropriation for the year 1901, in order that the condition above described may be obviated.

Requisition is here respectfully and earnestly made for an appropriation of $150,000 for the year 1902, in order that such condition may not obtain during that year.

I quote from a recent report made by the Chief Engineer of Sewers, Borough of Brooklyn, who says: "To maintain all of the repairs, and to keep clean a sewerage system of some 654 miles in extent, comprising 7,800 receiving-basins and many accessories, such as manholes, culverts, etc., * * * that it will require about $50,000 more annually to properly maintain this extensive system, and that this amount should be proportionately increased as the system increases in length. I merely mention that in 1895, when the system was 140 miles less in extent, that $100,000 was appropriated; that in 1897 $122,000 was appropriated, and since then only $100,000 has been allowed annually, although since the consolidation of the cities now comprising Greater New York 40 miles of sewers have been built, and of these a part, much greater than the average, have been main sewers."

The fact is, that unless $150,000 is appropriated, it will cost the City in damage suits many times the additional amount of $50,000 requested for the year 1902.

$43,568.50 appropriated for year 1901.

In order to maintain two sewage disposal plants at Coney Island and one at Sheepshead Bay it will be necessary that the above requested amount of $49,109 be appropriated.

There are three shifts of men to care for the sewage discharged during all the twenty-four hours of the day for three pumping-stations. In addition to these duties said laborers be called upon to pump collected water after rainfalls from Surf avenue, in the district of a sewerage system, which does not provide for surface waters as well as house drainage; also to clear obstructions from the smaller sewer-pipes at the Island, which frequently occur.

DEPARTMENT OF SEWERS—BOROUGH OF RICHMOND.

Salaries—Including one-third Salary of Deputy Commissioner and Chief Engineer.

	1901.	1902.
Henry P. Morrison, Deputy Commissioner and Chief Engineer, one-third of $5,000	$1,666 67	$2,500 00
L. W. Freeman, Assistant Engineer	2,000 00	2,100 00
John J. Kaltenmeier, General Inspector	1,200 00	1,500 00
Adolph A. Rottmann, Chief Clerk	1,200 00	1,500 00
William H. Engelbrecht, Inspector of Sewer Connections	900 00	1,000 00
Charles M. Brice, Inspector of Sewer Connections	900 00	1,000 00
John Wilt, Private Secretary	720 00	800 00
J. T. Fetherson, Transitman	1,200 00	1,500 00
George Wood, Draughtsman	1,000 00	1,200 00
Total	$10,786 67	$13,100 00

The amount asked for the salary of the Deputy Commissioner and Chief Engineer is $2,500 instead of $1,666.67, for the reason that the salary now paid for this position is $5,000, derived from the departments of Highways, Sewers and Water Supply, each contributing one-third, or $1,666.67, and that under the Department of Public Works, as contemplated in the revised Charter, the position of Chief Engineer will be that of the departments of Highways and Sewers combined, the Department of Water Supply still maintaining its integrity in this borough. This will maintain the salary at $5,000, as at present, being made up of $2,500 each from the departments of Highways and Sewers. Furthermore, the responsibilities and additional work devolving on this position will be largely increased by the combining in the Department of Public Works of the other departments, as contemplated by the Revised Charter. The increases asked for the positions of Assistant Engineer, Transitman, General Inspector, etc., together with the remainder of the incumbents on the salaried list as itemized, is, in my estimation, just and reasonable, and only places these officials on an equality with those paid in the other boroughs for like positions, the Civil Service requirements being the same and the duties the same in all boroughs, and requiring the same class of men, deserving the same rate of pay. It is further requested that no discrimination be made against this borough in this matter, as the number of employees is in proportion to the amount of work to be performed, and the salaries should be on a scale fixed for the whole city, as this borough pays its city tax, the rate being the same as for the other boroughs.

Sewers—Repairing and Cleaning (as per Last Pay-roll).

	1901.	1902.
William H. Hasson, Foreman, $3 per day	$900 00	$900 00
Martin Burke, Foreman, $2.50 per day	750 00	750 00
John Murrison, Foreman, $2.50 per day	750 00	750 00
	$2,400 00	$2,400 00
Labor.		
Mason, 25 days	100 00	400 00
Labor, 4,095 days	8,190 00	9,000 00
Team, 15 days	60 00	140 00
Horse and wagon, 300 days	1,050 00	1,050 00
Material and Supplies.		
Water for 1 flush tank	100 00	
Water for 48 flush tanks		4,800 00
Pipe, cement, brick, etc	500 00	900 00
Total	$12,400 00	$18,690 00

Under the heading "Sewers—Repairing and Cleaning" an increase of $6,290 is asked for. This increase is necessary as the work of maintenance is increasing by reason of new sewer construction, with its appurtenances, together with the fact that the appropriation has heretofore been insufficient for the proper maintenance of the sewers in this borough, in spite of the fact that $4,400 originally intended for the purchase of water for flushing purposes has been transferred to the Labor account. The amounts asked for supervision and inspection are commensurate with the amounts asked for labor and supplies.

Contingencies.

	1901.	1902.
Contingencies	$500 00	$500 00

For "Contingencies" the sum of $500, as heretofore allowed, will be sufficient.

Preliminary Surveys.

	1901.	1902.
Preliminary surveys	$500 00	$500 00

For "Preliminary Surveys" an increase of $2,000 is asked for over the appropriation for the current year, for the reason that from present indications it will be necessary to put an extra surveying party in the field, an additional Draughtsman in the office to make and prepare prelim-

inary surveys and plans made necessary by the increasing demand for new sewers in this borough, and beg to state in connection with this matter that no expense for surveys, draughting, supplies, etc., can be certified to from Street Improvement Fund until the contract has been let and registered by the Comptroller.

Rebuilding South Avenue Sewer.

Taking up 6-inch sewer in South avenue, from Arlington place, 775 feet south, and replacing same with 8-inch sewer $2,000 00

For the purpose of rebuilding South avenue sewer the sum of $2,1000 is asked for. It is very necessary that 775 feet of 6-inch sewer in South avenue be taken up and replaced with 8-inch pipe, as it is only by continual attention that this section of South avenue sewer is kept in operation, it being almost completely filled with sand, owing to careless methods adopted in the original construction under a former village government. It is very probable that failure to relay this sewer will result in damage suits against the City, should the sewer at any time become completely closed, which is very probable.

Northfield Ditch.

Cleaning Northfield Ditch $450 00

Under chapter 421, Laws of 1889, the Legislature authorized the Board of Town officers of the Town of Northfield (now Third Ward) in the County of Richmond, to reopen, maintain and keep open the ditch water-course or canal opened through said Town of Northfield, pursuant to chapter 747 of the Laws of 1869. Section 3 of the above act reads as follows:

Section 3. "The expenses of reopening, maintaining and keeping open the said ditch, water-course or canal, not to exceed the sum of $250, shall be audited, assessed, levied and collected in the same manner as other town charges."

This matter was only brought to the attention of the Department in October, 1900, and was referred to the Comptroller, whose opinion is that the law in question became nullified by the Greater New York Charter. Whether that be so or not, the fact remains that it is very necessary that this water-course (which affords drainage for hundreds of acres of land) should be cleaned, as no work has been performed on it since the summer of 1897. For this purpose I ask the sum of $450.

OLIVER B. BRIDGMAN,
Major Commanding, Squadron "A," N. G. N. Y.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—I, Henry W. Langschmidt, hereby respectfully request that the sum of $1,500 be appropriated by your Honorable Body for the payment of my salary as one of the General Interpreters of the German language for the several local inferior Courts of Civil and Criminal Jurisdiction in the Borough of Brooklyn, Second Division, City of New York, for the year 1902. The reason for asking to be equalized with other General Interpreters is on account of having the same work to perform, also traveling expenses to pay, with Special Sessions Court, to three different boroughs, Brooklyn, Queens and Richmond.

Yours very truly,
HENRY W. LANGSCHMIDT.

MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 3054.

CITY OF NEW YORK—OFFICE OF THE MAYOR, July 31, 1901.

To the Honorable the Board of Aldermen:

I return herewith, without my approval, a resolution adopted by you on June 11, 1901, calling for a detailed report from the Commissioner of Police, showing at what intersecting streets and avenues, throughout the entire city, there are street signs, and the character thereof, and at what points there are no such designations.

My objection to this resolution is that jurisdiction over street signs is vested in the Commissioner of Public Buildings, Lighting and Supplies, and the information required is properly to be sought from his Department.

ROBT. A. VAN WYCK, Mayor.

Resolved, That the Commissioner of Police be and he is hereby respectfully requested to co-operate with the Municipal Assembly in its effort to secure for the City more adequate and satisfactory designation of our various streets and avenues, by the use of appropriate street signs.

Resolved, That such effort will be aided most effectively by the said Commissioner of Police if he will kindly require of his several Precinct Commanders or Captain that they request of the Patrolmen respectively a detailed report, showing at what intersecting streets and avenues there are street signs, and the character thereof, and also at what points there are no such designations.

Resolved, That the said Commissioner of Police, if inclined to comply with our request, is urged to prepare a tabulated form, so that the work will be readily performed, and our record of the existence and non-existence of street signs may be full and complete.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

COMMUNICATIONS.

The President laid before the Board the following communication from the State Commission of Prisons:

No. 3227.

STATE OF NEW YORK—STATE COMMISSION OF PRISONS, OFFICE AT THE CAPITOL, ALBANY, July 9, 1901.

To the Board of Supervisors of Queens County:

GENTLEMEN—Inclosed please find a copy of a report of an inspection of your county jail, made by Hon. George McLaughlin, Secretary of this Commission.

Very truly yours,

GEO. McLAUGHLIN, Secretary.

QUEENS COUNTY JAIL.

To the State Committee of Prisons:

The Secretary inspected the Queens County Jail at Long Island City May 22, and submits the following report:

This is a spacious and well constructed modern, fire-proof jail. In the principal men's prison there are 140 cells, five tiers. Usually only the cells in the two lower tiers are used.

Entirely separate from the men's prison is the women's prison, consisting of four departments, with twenty cells. There are also twenty cells for debtors and witnesses in two departments. Besides these, there are forty other cells on two floors which can be used for any purpose required.

During the past year the authorities have substituted new Yale locks for the ones first put in when the jail was rebuilt recently, and have painted the iron work of the main jail.

This jail is constructed with a closet and washbowl in each cell. The warden strongly indorses this plan, and says they have no serious difficulty with prisoners interfering with plumbing.

The prisoners have no employment, except to keep the jail clean and do some work in the adjacent yards. The women assist in the laundry and in the kitchen.

There is a hospital, but as there was no one sick in the jail, it was empty. The jail physician visits the institution every day. A pharmacist deals out the medical supplies on the order of the physician.

The Sheriff's office in this county is a fee office. He is allowed $3 per week for board of prisoners.

About one-half the number of prisoners in the jail belong to Nassau County, and are boarded in this jail pending the completion of the Nassau County jail. Queens is a much larger county than Nassau, but owing to the fact that the courts sit more frequently in Queens than in Nassau, and trials are more speedy after arrest, the average number of inmates of the two counties is about the same.

The number of inmates on the day of inspection was as follows:

Held for the Grand Jury, males, 35; females, 8.
Serving sentence, males, 71; females, 9.
Held for Special Sessions, males, 3.
Held for examination, males, 18; females, 1.
Held as witnesses, males, 5; debtors, 2.
Total number, 147.

One of the persons held as a witness was a young man from Nassau County who had been kept a prisoner for seven months.

Respectfully submitted,

GEO. McLAUGHLIN, Secretary.

Which was ordered on file.

The President laid before the Board the following communication from the Washington Heights Progressive Association:

No. 3228.

To the Hon. ROBERT A. VAN WYCK, *Mayor, the Honorable Board of Councilmen, and the Honorable Board of Aldermen of The City of New York*—Greeting:

At a regular meeting of the Washington Heights Progressive Association, held at their headquarters, No. 2176 Amsterdam avenue, New York City, on Thursday, July 18, 1901, the following resolutions were unanimously adopted:

Whereas, We consider it for the best interests of the largest number of taxpayers and residents of Washington Heights and the upper west side that additional surface railroad facilities be established connecting the upper west side with the Borough of The Bronx, from the Rapid Transit station at One Hundred and Fifty-sixth street and Broadway, through One Hundred and Fifty-fifth street, across the Viaduct and Macomb's Dam Bridge to Jerome avenue; and

Whereas, We believe that the wishes of the people who have paid the largest share of the cost of constructing the One Hundred and Fifty-fifth Street Viaduct should receive the due consideration to which they are honestly entitled, as to what further public or private uses this viaduct shall be put to; and

Whereas, The Union Railway Company has asked your Honorable Boards for a franchise to extend their railroad upon said Viaduct; it was

Resolved, That the Hon. Mayor, Robert A. Van Wyck, the Honorable Board of Councilmen and the Honorable Board of Aldermen are petitioned to refuse the privilege of constructing any railroad upon said One Hundred and Fifty-fifth street Viaduct unless the railroad company applying therefor shall agree to construct and operate a system of cars across said viaduct through West One Hundred and Fifty-fifth street to Broadway and the rapid transit station at One Hundred and Sixty-fifth street, and such agreement shall be included in and made a part of any franchise hereafter granted by your Honorable Boards. It was further

Resolved, That a copy of these resolutions be delivered to the Hon. Robert A. Van Wyck, Mayor, the Honorable Board of Councilmen, the Honorable Board of Aldermen and the public press.

A true copy,

CHRISTIAN TRINKS, President.

JOHN C. KLETT, Secretary.
JOHN KOOPMAN, Secretary.
LOUIS WENDEL, JR., Counsel.

Which was referred to the Committee on Railroads.

The President laid before the Board the following communication from the Municipal Art Society:

No. 3229.

To the Honorable Board of Aldermen of The City of New York:

The Municipal Art Society in May last addressed a memorial to your Honorable Body relative to a proposed ordinance for the proper designation of street names by signs upon the street corners. In that memorial, on behalf of the Society, we suggest that the ordinance to be passed should prescribe generally for the designation, leaving the details to the Commissioner of Highways, and we stated that if the Society could be thus advised of the requirements of the City in regard to the designation, and also of a limit of cost, it would prepare and submit, at its own expense, designs for adoption and use by the City, which would be the result of a competition. We have since learned that a resolution has been adopted by you requesting the Society to submit to you its views and plans for adequate and satisfactory signs.

We are most pleased to comply with this resolution. We think, however, that there may be a slight misunderstanding as to our position. What the Society contemplates is, to procure the best possible designs for the purpose. We can now make to you various suggestions as to designs, and we shall be glad to do so, but they will be tentative only until we know precisely what the City is resolved to do. Proper designs may be procured only by working upon a definite plan, and throwing open the field to competitive work. It will be readily appreciated by you that it will be impossible to arrange for a competition unless the Society can state to competitors precisely what the City requires. Designs for signs to be used on the buildings will be very different from those to be used on street lamps or other structures. Our plan is, therefore, what we urged in our former memorial, that you pass some general ordinance which will specify the manner of designation, whether on the buildings or by the street lamps or otherwise, leaving the actual selection of the kind of design for any particular locality to the Commissioner of Highways. We can then submit to him designs in accordance with our original suggestion.

We submit that this is the only practical method of securing the best results. The conditions of the City are so various that there should be some elasticity in the ordinance and some discretion in the hands of the proper official as to the character of the sign to be erected. What may be properly used for one district may be impracticable or too expensive for another. In thickly populated districts the signs will naturally be substantially uniform, and much more attention can be given to them than in a thinly populated district. In the latter, where there is a street alone, and the region is unbuilt, a plain post with a sign of the most ordinary character will be sufficient as a temporary designation. It is quite as necessary to inform a stranger of the street in such a region as it is in the most thickly populated portions. Indeed, it is a little more so, because other information is not readily at hand, but it is not as necessary that the signs themselves should cost as much, and the expense should be reduced to a minimum. The signs should be in all cases plain and unobstructed, and never, as is now sometimes the case with lamp-posts, covered with advertising transparencies.

We believe, as we stated in our former memorial, that there should be in places two sets of signs—one for the stranger ignorant of the locality and the other for the traveler in the street cars who knows the street which he is traversing but does not know the street which he is approaching or passing. Where these are to be used is a matter which can be determined only by a special designation and not by a general ordinance. The designation of almost every street will require, as to its character, the executive decision of one man. It is impracticable for a large legislative body to deal with all the details.

We have ventured to prepare an ordinance which embodies our ideas and is in line with our former memorial, and which we submit herewith. Its purpose is to compel the adoption of some sign for every street, on the buildings if possible, and if not on a post on the street corners. It has been drawn in accordance with the opinion of the Corporation Counsel, recently submitted to you, as to your powers in the premises. If your Honorable Body shall deem it wise to adopt an ordinance of this character, the society can then know precisely what the City desires to have, and arrange for a proper competition and a submission of designs in accordance with our offer.

The ordinance also provides for a discretionary marking of the streets and avenues which are used by street car lines, in the manner which we suggested in our former memorial. It leaves the matter of details to the Commissioner of Highways. This seems to be essentially necessary, as otherwise, as we have stated, a design which will be perfectly proper in one locality of the city will be inexpedient in another.

The important thing is to get the streets well marked, and we shall have a long advance when we have a law under which any citizen can compel the marking to be done.

We shall be glad to appear before you and explain more in detail our views and our suggestions.

Dated NEW YORK, July 25, 1901.

JOHN DE WITT WARNER,
NELSON S. SPENCER,
CHARLES R. LAMB,
MILO ROY MALTBIE.

AN ORDINANCE authorizing and regulating the designation of the names of streets, avenues and highways in The City of New York.

It is Ordained by the Municipal Assembly of The City of New York, as follows:

Section 1. The name of each street in The City of New York shall be designated by a sign stating such name, placed substantially parallel with the direction of the street, at each corner formed by its intersection with any other street, and the Commissioner of Highways is hereby authorized and directed to designate all streets accordingly.

2. Such designation shall be made as follows:

(*a*) If there be a building erected on the corner lot, by placing such signs on the intersecting street walls of such building, if the owner of such lot or building consent thereto.

(*b*) If there be no building erected on the corner lot, by signs placed on a suitable post erected at the street corner of the lot, if the owner of such lot consent thereto.

(*c*) If the owner of any corner lot or building do not consent to the use of his lot or building for such purpose, or if, in the opinion of the Commissioner of Highways, it is impracticable to use the building on such corner lot for such purpose, then on a suitable post, lamp-post, electric-light pole, or other standard, or structure, either existing or erected for the purpose, and situated at the intersection of the streets, provided, however, that in such case not more than two such corners need be so designated, which shall be diagonally opposite to each other.

3. In addition to the designation prescribed in the foregoing sections, the Commissioner of Highways is hereby authorized to designate further the streets of the city as follows:

In each street in which is operated a street railway or other transportation line, or in which for other reasons he may deem it desirable to place signs on a suitable post, lamp-post, electric-light pole or other standard or structure, either existing or erected for the purpose, and situated on diagonally opposite corners formed by the intersection of such street with any other street. Such signs shall indicate the name of the cross or intersecting street, and shall be placed at about an angle of 45 degrees to the street on which is operated such railway or other transportation line, so as to be legibly read by passengers in an approaching or passing car or other vehicle.

4. All signs shall be of such size and be so placed and of such design as to be easily read by day and, as far as practicable, by night. They may, by any suitable device, indicate both the street designated and the intersecting street, and the street number of the corner building. All designs for signs shall be as few in number as may be consistent with the necessities of different portions of the city, and shall be of as artistic character as possible, having regard to their cost. Such designs shall be submitted by the Commissioner of Highways to and be approved by the Municipal Art Commission, but this shall not prevent the Commissioner of Highways, if necessary, from erecting temporary signs prior to such approval of the designs therefor.

If it be practicable for the Commissioner of Highways to combine the purposes of public utility, other than advertising, for which any post, standard or structure may be used, he is hereby authorized to provide for such combination.

5. The word "street" in this ordinance wherever used shall include any street, avenue, highway, road, court or alley used as a public way.

6. All ordinances or parts thereof inconsistent herewith are hereby repealed.

7. This ordinance shall take effect immediately.

The President laid before the Board the following communication from the Commissioner of Water Supply:

No. 3232.

DEPARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE,
NOS. 13 TO 21 PARK ROW,
CITY OF NEW YORK, August 15, 1901.

Hon. THOMAS F. WOODS, *President, Board of Aldermen:*

DEAR SIR—The dearth of rainfall in the summer and autumn of last year reduced the water supply in the Borough of The Bronx to the extent of causing not only discomfort to a large portion of the population of that Borough, but actual distress to those living on the higher grounds, culminating in this condition early in November. This emergency called for immediate and drastic measures. To carry out these measures, the Municipal Assembly and the Board of Estimate and Apportionment authorized the issue of revenue bonds to the amount of eighty thousand ($80,000) dollars, to provide additional pumping facilities and connections with the distributing system, to take and distribute water from the Croton Aqueduct. The Municipal Assembly, however, did not respond to my request that I be authorized to procure the necessary pumping plant, connections, etc., without contract at public letting, so as to avoid the delays of preparing contract and specifications; approval of the same by the Corporation Counsel as to form, advertising, letting, approval of sureties by the Comptroller, certification of the Comptroller on award of the contract that there were sufficient moneys available to pay for the contract, etc. In the meantime the drought continued and the emergency became more acute.

To afford partial relief for the time which must intervene before work under a contract at public letting for installing a pumping plant could be commenced, this Department ordered the installation of smaller temporary pumping plants, boilers and appurtenances for drawing water from the aqueduct for distribution in the distressed sections of the Borough of The Bronx. For these works preliminary to the installation of the plant provided for by the appropriation and revenue bond issue of $80,000, there was expended in placing pumps, boilers and appurtenances, and in operating the pumps during February, March and April, 1901, and in laying mains and appurtenances to connect the pumps with the distributing system, the sum of $15,398.60.

After the contract for the larger pumping plant, which has now been in operation for several months, and furnishes from 5,000,000 to 10,000,000 gallons per day from the aqueduct for distribution in the borough, it was found that there would be a large surplus in the $80,000 appropriation by revenue bonds.

I therefore respectfully ask that the Municipal Assembly, by joint resolution of the Council and the Board of Aldermen, authorize the payment of said sum of $15,398.60 for the preliminary smaller pumping plants and connections, including operating expenses, from the appropriation by revenue bonds of $80,000, authorized by the Assembly and by the Board of Estimate and Apportionment.

Very respectfully,
WILLIAM DALTON, Commissioner of Water Supply.

Which was referred to the Committee on Water Supply.
