### MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 875.

City of New York, Office of the Mayor,  
July 3, 1902.

To the Honorable, the Board of Aldermen of The City of New York:

The Board of Rapid Transit Commissioners has asked me to inform them whether the Hall of Records and the fire engine house, now standing in the City Hall Park, are to be removed or not; and, if so, when. It is essential, in the construction of the subway, to have definite information as to both of these buildings at as early a day as possible.

I am informed by the Corporation Counsel that the authority to pass upon this question resides in your honorable body and in the Board of Sinking Fund Commissioners. Inasmuch as both bodies must concur in any action that may be taken, I venture to suggest that the matter be referred to the appropriate committee of your Board, and that this committee arrange, if it will, for joint hearings upon the subject by itself and the Board of Sinking Fund Commissioners.

By this method, if it is acceptable, the matter can probably be progressed to a decision most rapidly.

SETH LOW, Mayor.

Which was referred to the Committee on Public Buildings and Markets.

The President laid before the Board the following message from his Honor the Mayor:

No. 490.

City of New York, Office of the Mayor,  
July 7, 1902.

To the Honorable, the Board of Aldermen of The City of New York:

I return herewith, without my approval, the resolution adopted by the Board of Aldermen on June 24, 1902, fixing the width of sidewalks on Boston road, between Tremont avenue and One Hundred and Eighty-second street, Borough of The Bronx.

My objection to this resolution is that the change in the width of the sidewalk is made without reference to the plans of the rapid transit road. Since the adoption of the resolution by the Board of Aldermen, the President of the Borough of The Bronx and the Engineer of the Rapid Transit Commission have been in conference, and have adopted plans which make it desirable to leave the sidewalk as it now is; and they have therefore requested me to return this resolution without my approval.

SETH LOW, Mayor.

The Committee on Streets, Highways and Sewers, to whom was referred on April 29, 1902 (Minutes, page 221), the annexed resolution in favor of fixing the width of sidewalks on Boston road, between Tremont avenue and East One Hundred and Eighty-second street, Borough of The Bronx, respectfully

REPORT:

That, having examined the subject, they recommend that the said resolution be adopted.

Resolved, That the sidewalks on Boston road, between Tremont avenue and East One Hundred and Eighty-second street, in the Borough of The Bronx, be and they are hereby fixed at 15 feet in width; and that the stoop, area and other privileges on the sidewalks of said road, within the above limits, be and they are hereby restricted to the same widths as allowed in the general ordinances for a street sixty (60) feet in width.

FRANK L. DOWLING, JAMES OWENS, PATRICK H. MALONE, ERNEST A. SEEBECK, Jr., DAVID M. HOLMES, Committee on Streets, Highways and Sewers.

Which were laid over, ordered to be printed in Minutes and published in full in the "City Record."

Board of Education,  
Park Avenue and Fifty-ninth Street.  
New York, June 14, 1902.

Hon J. W. STEVENSON, Secretary, Board of Estimate and Apportionment:  
Dear Sir—Referring to your communication of the 11th inst., returning certified copy of resolution adopted by the Board of Education on May 28, 1902, relative to fixing the salary of Clinton F. Lovell, draughtsman, at \$25 per week, I am directed by President Burleigh to inform you that it has always been the custom in this department to pay architectural draughtsmen and building inspectors at a weekly rate of compensation and for actual service. This enables us to dispense with their services from time to time on account of lack of work, etc. To fix Mr. Lovell's salary at an annual rate, as suggested, would establish a precedent, and all the draughtsmen and inspectors would then probably request that their salaries also be fixed at annual rates, which would make it very inconvenient to dispense with their services, if necessary to do so.

I therefore beg leave to return the certified copy of resolution above mentioned, with the request that the Board of Estimate and Apportionment take action in accordance therewith.

Respectfully,  
(Signed) A. EMERSON PALMER, Secretary, Board of Education.

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Amended Greater New York Charter, that the salaries of the following-named employees in the office of the Commissioner of Jurors, County of New York, be fixed at the rate of one thousand and fifty dollars (\$1,050) per annum, viz.:

Every such company must carry for a single fare upon such car, without change therefrom, each and every passenger to any regular stopping place desired by him, upon said car's route, in the direction of the destination so designated; and for every violation of the ordinance there shall be recoverable against the company so offending a penalty of one hundred dollars in an action to be brought in the name of The City of New York.

Sec. 2. This ordinance shall not apply to a transfer made to a connecting line, going in a different direction from that in which such car may be going, nor where by reason of any accident compliance with the ordinance is rendered impossible.

Sec. 3. This ordinance shall take effect immediately.

Sec. 2. For every violation of this ordinance there shall be recoverable against the corporation responsible therefor a penalty of one hundred dollars, in an action to be brought in the name of The City of New York.

No. 689.

The Committee on Laws and Legislation, to whom was referred on June 10, 1902 (Minutes, page 584), the annexed petition from residents of the Fourteenth and Fifteenth Wards, Borough of Brooklyn, respectfully

REPORT:

That, having examined the subject, they believe this petition of citizens and taxpayers of the Fourteenth and Fifteenth Wards of the Borough of Brooklyn, directs the attention of the Board to the fact that the suspensions of the fireworks ordinance in said wards have led to an increased fire hazard, and consequent increased insurance rates. Such suspensions of the ordinance are becoming more and more frequent, and resolutions therefor are passed without investigation, the Board relying solely upon the judgment of the Alderman introducing the resolution.

Your Committee believes that the complaint of the petitioners has a foundation in fact and the Committee therefore recommends that all members of the Board scrutinize with care applications made to them for suspensions of the fireworks ordinance.

The Committee further recommends that the petitioners' prayer for the revocation of permits now in force be referred to the Aldermen of the districts affected, with the request that they introduce rescinding resolutions if they deem them advisable.

To the Honorable SETH LOW, Mayor of The City of New York, and the Honorable Board of Aldermen of The City of New York:

Honorable and Dear Sirs—We, the undersigned petitioners, residents and property-owners and taxpayers of the Fourteenth and Fifteenth Wards of the Borough of Brooklyn, City of New York, respectfully request the revocation of all permits for the explosion of fireworks in the said wards, and further request the withholding of your consent to the further suspension of the ordinance prohibiting the explosion of fireworks, on the ground that the same is a nuisance, dangerous to life, limb and property in this section. A great majority of the dwelling houses and factories are frame structures, some of which are very old and easily ignited, particularly by the explosion of skyrockets, bombs and balloons, which are discharged in great numbers and in a most reckless manner. Certain societies in these wards, from time to time, procure a suspension of said ordinance for the purpose of celebrating certain feast days. The suspension of said ordinance increases the rate of insurance and puts the property owners in said wards to the expense of hiring people to watch their buildings to prevent fire, and it is respectfully submitted that a fire from falling sparks would with certainty demolish nearly this entire section.

It is not the desire of the undersigned to in any way curtail or interfere with the celebration of the feast days of any body of citizens in said wards, only in so far as the same, by the discharge of fireworks, endangers the life, limb and property in this vicinity.

This request is of vast importance, particularly to the property-owners in said-mentioned districts, and we sincerely trust that the Honorable Mayor and the Board of Aldermen will recognize the necessity of withholding their consent to any further suspension of said ordinance, and trust that any and all permits now in operation allowing the use of fireworks as aforesaid be revoked forthwith.

The Committee on Fire, to whom was referred on April 22, 1902 (Minutes, page 149), the annexed communication from Morten I. Christensen, complaining of wildfires at Woodlawn, in the Borough of The Bronx, respectfully

REPORT:

That, having examined the subject, they offer the following resolution: Resolved, That the Committee on Fire be and they are hereby discharged from further consideration of the matter and that the same be placed on file.

April 18, 1902.

The Honorable Board of Aldermen of New York City: Gentlemen—I, the undersigned, have lived many years in Woodlawn, in the Borough of The Bronx. From the very first we came to live there, we have encountered all the troubles an outlying district can be burdened with; water floods, wildfires, etc. Many of these troubles have we been relieved of, but the wildfires are a persistent cause to anxiety to us. When any person desires to make a bonfire, there is no law to prevent him, according to what the President of The Bronx Borough has informed me. I have seen little tots amuse themselves by starting wildfires, and no grown person object. Often a laborer, who hardly is capable to write his own name, is considered intelligent enough and competent to judge whether property is in danger of being burned or not, when engaged in clearing some one's lot or lots from brush and other rubbish, and who often, when approached by fearing people, becomes brutal for interference with his work. When first the fire company was installed here in Woodlawn, we were glad to see the firemen smother the wildfires, but whether they were doing more than contracted for or not, I do not know; fact is, they do not now trouble themselves about wildfires, but let it burn. When I go to

my business, my women folk are called to go out, and in their long clothes and in greatest peril of losing their lives, to smother the flames, in order to save fences and buildings, while a fine, well represented fire station is established two blocks away. There certainly ought to be a restriction to this, and I believe that the necessity of a fire permit, especially if such permit demanded a fee to be paid, and to be used in a certain time under police supervision, would greatly improve the present conditions. As things now are, they certainly are a disgrace to a well-governed city.

With best wishes for New York City, which I love and admire, I sign myself as Yours very respectfully,

MORTEN I. CHRISTENSEN,

274 Katonah avenue, Woodlawn, Bronx Borough, New York City. JOHN WIRTH, PETER HOLLER, JAMES COWDEN MEYERS, JOHN L. GOLDWATER, Committee on Fire. Which report was accepted.

REPORT:

That they have examined the subject and find that the present heating and lighting plant is old, antiquated, worn out, inadequate and badly located, and that if the various parts of the Museum are to be heated and lighted so that they can be used, this new plant is necessary. Your Committee are informed that over 461,000 people used the Museum during the year 1901, that the collections now stored in the Museum, which have been gifts from individuals, exceed in value \$3,000,000, and that the accessions by way of gifts of specimens in the year past amount to not less than half a million dollars in value. Your Committee mention these things in order to show to the Board that this additional construction will go to an Institution of which the City may be proud, of which its citizens make much use and from which they doubtless obtain much pleasure and benefit. They accordingly recommend the adoption of the ordinance.

AN ORDINANCE to provide for an issue of Corporate Stock in the sum of two hundred thousand dollars (\$200,000), the proceeds to be used to provide means for the construction and installation of a new heating and lighting plant for the American Museum of Natural History, in the Borough of Manhattan.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 13,

1902, authorizing the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the amended Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of bonds to an amount not exceeding two hundred thousand dollars (\$200,000), for the purpose of providing means to pay for the construction and installation of a new heating and lighting plant for the American Museum of Natural History, in the Borough of Manhattan, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, as amended by Chapter 563 of the Laws of 1902, to an amount not exceeding two hundred thousand dollars (\$200,000), the proceeds thereof to be applied to the purposes aforesaid."

HERBERT PARSONS, WILLIAM T. JAMES, JOHN L. FLORENCE, JAMES H. McINNES, TIMOTHY P. SULLIVAN, Committee on Finance.

On motion of Alderman Peck the matter was laid over and made a Special Order for 2 o'clock at the next meeting.

Property Owners' Union of The City of New York,

No. 78 East Ninety-sixth street,

May 19, 1902.

To the President of the Honorable Board of Aldermen:

Dear Sir—A resolution was adopted at our last meeting directing me to make application to your honorable Board to have an ordinance passed by you, "That the sidewalks on the east side of Fifth avenue, from Eighty-sixth street to One Hundred and Tenth street be flagged the full width, wherever the same is not done."

This avenue has in the last five years become a very important thoroughfare and promenade, and the sidewalk and flagging in a great many places are in a disgraceful condition, so much so that many pedestrians are forced to walk in the roadway.

Our society has carefully considered this matter and thinks that this state of affairs should be remedied at once, and sincerely and earnestly hopes your honorable Board will give this matter your earliest attention.

Trusting you will favor us with a reply, we are, most respectfully yours,

McLAREN QUACKENBUSH, Secretary.

Department of Water Supply, Gas and Electricity,

Commissioner's Office, 13-21 Park Row,

City of New York, June 5, 1902.

Hon. JAMES H. McINNES, Vice-Chairman, Board of Aldermen:

Dear Sir—I beg to acknowledge receipt of your letter of the 4th instant, concerning the application of the Standard Water Meter Company for the placing of their meters on the list of approved meters, and stating that the only thing you desire and have desired to know all along is whether that Company's meter is approved by this Department.

In reply I desire to say that under the Charter, the approval of water meters rests entirely with the Board of Aldermen, and I consider that the functions of this Department in the premises are fully discharged by having meters presented for approval thoroughly tested and presenting to the Board of Aldermen the result of the tests, which has been done in the case of the Standard Meter. I should be pleased, however, to have any further tests made that the Board or your Committee may desire and to promptly submit the results.

Very respectfully, J. HAMPDEN DOUGHERTY, Commissioner of Water Supply, Gas and Electricity.

Department of Water Supply, Gas and Electricity,

Commissioner's Office, 13 to 21 Park Row,

City of New York, April 15, 1902.

JAMES H. McINNES, Esq., Chairman, Committee, Water, Gas and Electricity, Board of Aldermen, New York City:

Dear Sir—I addressed a letter to Hon. Charles V. Fornes, President of the Board of Aldermen, on January 22 of this year, in which I made the following statement:

"I have the honor to recommend for your approval, in pursuance of section 475 of the Revised Charter of The City of New York, the pattern and price of water meters manufactured by the Standard Water Meter Company of this city. These meters have been tested by apparatus in the pipe yard of this Department and found reliable, accurate and durable."

The information which was before me at the time of writing this letter seemed to be sufficient to require, upon the application of the Standard Water Meter Company duly made to me, that I should give that company an opportunity to ask for the acceptance of their meter by the Board of Aldermen.

Since that time, however, other tests have been made of this meter which seemed to show that the meter is not entirely accurate.

In view of the inaccuracies of the tests referred to, the question was referred by me to the Chief Engineer of this Department, who reports to me as follows:

"I should recommend that the meter be tested under a destructive test of one million gallons, running free, to see what is the wear and tear of same."

I beg to transmit to you herewith the original reports under dates of March 20, March 21 and April 5, 1902, submitted to me by the foreman of the pipe yard, where the tests of meters are made.

I also beg to transmit the application from W. H. Marsh, Manager of the Standard Water Meter Company, dated January 20, 1902. These papers comprise all the original papers in my possession.

I shall gladly furnish any other information which I have and give any further opportunity that may be suggested for the testing of this meter. I have no opinion in regard to the meter other than is based on the reports made to me, and I can only suggest that an adequate test of the same be made in order that your Committee may

be possessed of all possible information upon the subject. The co-operation of this Department may be relied upon in any steps you care to take in the matter along the lines of an investigation of this or any other meters which are presented for the consideration and approval of the Board of Aldermen.

Very truly yours,  
J. HAMPDEN DOUGHERTY,  
Commissioner of Water Supply, Gas and Electricity.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to enclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done.
