On motion of Alderman Behrmann it was

Resolved, That the Local Board of Chester respectfully requests the Commissioner of Water Supply, Gas and Electricity to have poles erected and arc lights suspended therefrom at the following places:

One at the corner of Maple Avenue and First street, and one at the centre of the street, on Arthur Avenue, between Fourth and Fifth Avenues, and on Nineteenth Avenue, from White Plains road west to the Bronx river, and on Becker Avenue, from White Plains road west to the Bronx river.

Alderman Behrmann offered the following preamble and resolution:

Whereas, Objection has been made by the people of Williamsbridge and Wakefield to the payment by them of any portion of the cost necessary to extend the White Plains road below its terminus as it existed prior to the annexation of said territory by chapter 934 of the Laws of 1895, and it is further objected that it would not be fair or just for the said people to pay any of the expense of regulating and grading below the said terminus, and entirely new street 100 feet wide, because the people of Williamsbridge and Wakefield, through the said late villages, have already been assessed three times for improving the said White Plains road, which for more than fifty years has been maintained at a width of 50 feet.

Resolved, That the matter be referred to the Corporation Counsel for his opinion as to what relief, if any, can be afforded the said people of Williamsbridge and Wakefield, particularly if there is any legal method by which Williamsbridge and Wakefield may be made a separate district of assessment for the purposes of regulating and grading the said White Plains road.

Which was adopted.

Communication received from the Department of Water Supply, Gas and Electricity, that the grades on Madison street and Columbus Avenue, not now being established, it is unable to lay water mains, as requested by the Local Board of Chester.

On motion, the meeting adjourned.

## APPROVED PAPERS.

APPROVED PAPERS FOR WEEK ENDING JULY 19, 1902.

No. 372.

AN ORDINANCE to regulate the construction of fences, signs, bill boards and sky signs within the building line, being an amendment to Part XXVIII, section 144 of the Building Code.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1, Part XXVIII, section 144 of the Building Code, is hereby amended by striking out the paragraphs relating to fences, signs and bill boards beginning with the words "Fences of wood shall not be erected over ten feet high," and ending with the words "and the same shall be properly supported and braced," and substituting in lieu thereof the following words:

Fences, signs or bill boards shall not be at any point over ten feet above the adjoining ground; except that when any fence, sign or bill board shall be constructed entirely of metal or of wood covered on all sides with sheet metal, including the uprights, supports and braces for same, it shall not be at any point over eighteen feet six inches above the adjoining ground.

Any letter, word, model, sign, device or representation in the nature of an adver-

tisement, announcement or direction, supported or attached, wholly or in part, over or above any wall, building or structure, shall be deemed to be a "sky sign."

Sky signs shall be constructed entirely of metal, including the uprights, supports and braces for same, and shall not be at any point over nine feet above the front wall or cornice of the building or structure to which they are attached or by which they are supported.

All fences, signs, bill boards and sky signs shall be erected entirely within the building line, and be properly secured, supported and braced, and shall be so constructed as not to be, or become, dangerous.

Before the erection of any fence, sign, bill board or sky sign shall have been commenced, a permit for the erection of the same shall be obtained from the Superintendent of Buildings having jurisdiction, as provided in Part II, section 4, of this Code. Each application for the erection of any fence, sign, bill board or sky sign, shall be accompanied by the written consent of the owner or owners, or the lessee or lessees of the property upon which it is to be erected.

Sec. 2. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of this ordinance are hereby repealed.

Sec. 3. This ordinance shall take effect immediately.

Adopted by the Board of Aldermen July 1, 1902.

Approved by the Mayor July 14, 1902.

BUREAU OF CHIEF ENGINEER OF THE CROTON AQUEDUCT.

The rainfall for the quarter at the several stations where the Department keeps rain gauges was as follows:

At Boyd's Corner Reservoir, inches.....	12.67
At Middle Branch Reservoir, inches.....	9.88
At Kensico Reservoir, inches.....	10.88
At Croton Dam, inches.....	9.54
At Central Park Reservoir, inches.....	8.30

The new reservoir built by the Department on the Muscote river, a tributary of the Croton, has been completed and filled with water.

During the early part of the quarter 5,600,000,000 gallons of water were drawn from the three reservoirs on the east branch of the Croton, the west branch, and the Titicus river, to supplement the natural flow in the Croton river.

Surveys are in progress for a new storage reservoir on Cross river, another tributary of the Croton.

Keepers' houses have been built at the Muscote Reservoir and the Middle Branch Reservoir.

For a daily supply of 15,000,000 gallons from the Bronx and Byram rivers 620,000,000 gallons of stored water was drawn from the Kensico and the Rye Pond Reservoirs.

Vigorous progress has been made in the construction of the dam and appurtenances at Byram Pond.

Maps have been furnished the Counsel to the Corporation for legal proceedings to acquire title to lands for the sanitary protection of the waters of the upper Bronx river, the Rye Ponds Reservoir, and the Byram and Wampus rivers.

The old Croton Aqueduct has been shut off during the quarter in consequence of work at the Jerome Park Reservoir and on the arch at Burnside avenue; the entire supply from the Croton being received through the new aqueduct.

The Chief Engineer's report, hereto appended, furnishes the details of work in the care and maintenance of the two aqueducts, the Bronx river conduit, the storage reservoirs and distributing reservoirs, and their appurtenances. Special measures became necessary to protect the old aqueduct during the progress of rock excavation for the grading of Edgecombe avenue, between One Hundred and Fifty-sixth street and One Hundred and Fifty-eighth street.

Under a special appropriation the water main connections with the old reservoir at Fifth avenue, Fortieth street and Forty-second street, have been removed, the reservoir emptied, and certificate has been made that the removal of the structure may now be commenced, as required by Chapter 556 of the Laws of 1897.

Under the special appropriation for additional fire hydrants, to increase the facilities for extinguishing fires, 301 new hydrants, 4,606 linear feet of new water mains and 62 new stop-cocks were placed.

In extending the water service into seventeen new streets, nearly all north of the Harlem river, 13,205 linear feet of 48-inch mains, 2,265 linear feet of 36-inch mains, 13,664 linear feet of 20-inch mains, 19,376 linear feet of 12-inch mains, and 31,942 linear feet of 6-inch mains were laid—total 80,002 feet or 15.15 miles. In connection therewith 148 stop-cocks and 208 fire hydrants were placed.

BUREAU OF WATER PURVEYOR.

The following new pavements were laid during the quarter:

First Pavements, Payable by Local Assessments.

	Square Yards.	Miles.
Granite Blocks.....	12,538	Length, 0.54
Asphalt Blocks.....	40,171	Length, 1.53

Asphalt Blocks.....	16,713	Length, 0.82
Total.....	155,022	Length, 7.84

Total Areas and Mileage of New Pavements Laid.

	Square Yards.	Miles.
Sheet Asphalt.....	156,143	Length, 8.01
Asphalt Blocks.....	56,884	Length, 2.35
Granite Blocks.....	12,538	Length, 0.54
Grand Total.....	225,565	Length, 10.9

In the repairs of stone block pavement an average force of 199 pavers and rammers, 251 laborers, 96 carts and 5 teams were employed, the work being continued to the close of the year without interruption, except by storms. The area of pavements taken up and relaid by this force is 89,569 square yards. On order from the Department the Asphalt Companies relaid 962 square yards of asphalt in repairing damages by bonfires and other causes, for which they were not responsible under their contracts.

Street pavements were opened for the laying of 12.58 miles of new gas mains; 0.34 miles of electrical subways, 3.85 miles of ducts for fire telegraph and 3 miles of pneumatic tubes; also for overhauling and repairing 9.64 miles of gas mains and one mile of subways.

In the reconstruction of street railroads to substitute underground electricity for motive power in place of horses, 14 miles of double tracks, 4 miles of single track, and 18 miles of underground electric conduits were built; 245,178 square yards of pavement were taken up, and 202,418 square yards of pavement were relaid.

In making and repairing house connections with water mains, sewers, gas mains, electric conduits and steam pipes, 3,848 separate openings were made in the streets.

Three contracts for regulating and grading streets and eleven smaller contracts for flagging and reflagging sidewalks were completed during the quarter. The following are the aggregate quantities of work done under the several contracts, including those now in progress:

- 11,766 cubic yards earth excavated.
- 17,814 cubic yards rock excavated.
- 25,373 cubic yards filling placed in embankments.
- 9,362 linear feet new curbstone set.
- 1,603 linear feet old curbstone reset.
- 41,576 square feet new flagging laid.
- 6,169 square feet old flagging relaid.
- 2,100 cubic yards rubble masonry wall built.

OFFICE OF ENGINEER IN CHARGE OF SEWERS.

The work for construction of new sewers and the improvement of the old sewer system has been unusually extensive during this quarter.

Seventeen sewer contracts and two basin contracts have been completed, and work is now in progress on fourteen unfinished contracts. The aggregate length of new sewers built is 5.82 miles, with 40 receiving basins.

The following are the principal items of work done in the maintenance and repairs of the sewer system:

- 1,658 receiving basins and culverts cleaned.
- 60,929 linear feet of sewers cleaned.
- 207 manhole heads reset.
- 199 basin heads reset.
- 45 new manhole heads furnished and placed.
- 17 new granite basin heads furnished and placed.
- 435 new manhole covers and 45 new basin covers placed.
- 226 basin grates and 11 basin hoods placed.
- 124 cart loads of solid sewer deposit removed.

BUREAU OF STREETS AND ROADS.

Each successive season adds to the weight and frequency of business and freight traffic to which the uptown macadam roadways are subjected.

This traffic grinds up the gravel and silt broken stone which compose the top dressing, so rapidly that the annual appropriation for maintenance and repair becomes more and more inadequate for the necessary material and labor for resurfacing the roads, and resort must be had to larger or special appropriations if these roads are to be kept in fair condition.

The resurfacing of the Seventh avenue driveway, which is the main northerly outlet from the Central Park drives, has been completed from One Hundred and Tenth street to One Hundred and Forty-fifth street, placing it in fine condition. The cost of this work is charged to the fund for repaving. The same treatment will have to be applied during the ensuing year to the Boulevard from One Hundred and Tenth street north, and to Avenue St. Nicholas from Manhattan street to One Hundred and Fifty-fifth street. As there is a double track railroad on this avenue, from Manhattan street to One Hundred and Tenth street, the macadam roadway should there be replaced by a more durable pavement.

The macadamizing of the Boulevard Lafayette, from One Hundred and Fifty-eighth street to Kingsbridge road, is progressing satisfactorily.

The unpaved carriageway of Fort Washington avenue (formerly Ridge road) has been covered with road material, making a firm surface at very moderate cost. Other repaved roads in that section of the City should be similarly improved, but this can be done to a very moderate extent only, as the demands on the appropriation for the maintenance of unpaved streets and roads is almost wholly absorbed in ordinary repairs of damages to dirt roads caused by rain storms.

In the report of the Acting Superintendent of Streets, hereto appended, will be found full details of the work done and materials used in the care and repairs of macadam roads and unpaved streets.

BUREAU OF LAMPS AND GAS.

The following are the changes and additions in the service of lighting the public streets and places during the quarter:

- 518 new gas lamps placed and lighted.
- 14 new electric lamps placed and lighted.
- 1 new naphtha lamp placed and lighted.
- 343 old gas lamps relighted.
- 98 gas lamps discontinued.
- 1 electric lamp discontinued.

At the close of the quarter there were 25,287 gas lamps, 4,122 electric lamps and 1,278 naphtha lamps in use on the streets, parks, places, docks and bridges of the City.

BUREAU OF REPAIRS AND SUPPLIES.

Among the principal repairs made during the quarter in public buildings and offices are: New cast iron bases placed on twenty-six columns on the first floor of the Criminal Court building; a new water closet placed; walls and ceilings repapered, and slate roof repaired in the Third District Court House (Jefferson Market); a new heating furnace placed in the old Hall of Records; stoves furnished and placed in the new Twelfth Judicial District Court and the new branch office of the Department of Buildings at No. 2775 Third avenue; 284 chairs renovated and new flooring laid at the Eighth Regiment Armory; 120 new gun cases furnished at the Ninth Regiment Armory; two new iron gates placed and iron doors repaired at the Twelfth Regiment Armory; the decks of the United States ship "New Hampshire" (the armory of the First Naval Battalion) repainted.

Extensive repairs are in progress on the roofs of Fulton, Washington, Catharine, West Washington, Jefferson and Centre Markets.

New offices have been fitted up for the Sheriff in the Stewart Building. The offices of the Board of Assessors have been removed from No. 27 Chambers street to No. 320 Broadway.

The construction of the New Gouverneur Hospital on the site of the old hospital in Gouverneur slip is progressing slowly.

Specifications have been prepared for the repairs and refitting of the Free Floating Baths, now in winter quarters.

**BUREAU OF INCUMBRANCES.**

The operations of this Bureau during the quarter are summarized as follows:  
 708 complaints of obstructions received and attended to,  
 209 seizures and removals of obstructions made,  
 125 cart loads of refuse material removed from the streets,  
 124 dangerous trees, stumps and posts removed,  
 1,050 permits issued to place building material on the streets,  
 48 permits issued for temporary sidewalk sheds,  
 233 miscellaneous permits issued.

**WATER SUPPLY.**

The rainfall in the watersheds of the Croton river and the Bronx river for the year amounted to 51½ inches, which is three inches above the average for the past thirty-two years. There were brief periods, however, when the natural flow of the Croton river fell below the quantity required for the City's supply, and had to be supplemented by drafts on the water held in reserve in the storage reservoirs. These drafts were as follows:

	Gallons.
From the East Branch Reservoir.....	5,050,000,000
From the West Branch Reservoir.....	2,900,000,000
From the Titicus Reservoir.....	2,190,000,000
<b>Total from the Croton Watershed</b> .....	<b>10,140,000,000</b>
For the supply from the Bronx and Byram rivers there was drawn:	
From the Kensico Reservoir.....	830,000,000
From the Rye Ponds Reservoir.....	420,000,000
<b>Total</b> .....	<b>1,250,000,000</b>

The following shows the present storage capacity and the dates when the several reservoirs were brought into use:

	Gallons.
<b>Croton Watershed.</b>	
Croton Lake—completed in 1842.....	500,000,000
Lakes Mahopac, Kirk, Glencida, Gilead and Barrett Pond—dams completed in 1870.....	1,600,000,000
Boyd's Corner Reservoir—completed in 1873.....	2,700,000,000

Middle Branch Reservoir—completed in 1878.....	4,000,000,000

*Consumption of Water.*

Up to July, 1890, when the new aqueduct was completed, the supply from the Croton watershed was limited to the capacity of the old Croton Aqueduct.

That structure was completed in 1842, and was designed to carry water only to the spring line of the top arch, giving it a daily capacity of 71,000,000 gallons. As early as 1867, however, the demands of the City had outgrown this limit. In 1870 the daily supply and consumption had reached 77,000,000 gallons, and in the succeeding five years it had increased to 95,000,000 gallons, which is the maximum capacity of the old aqueduct.

From that time (1875) until September, 1884, when the Bronx River Conduit was completed and brought into use, there could be no increase of supply, and during the severe droughts of 1876, 1877 and 1880, when the reserve held in storage was inadequate to supplement the diminished flow in the Croton river, the daily supply fell to a minimum of 60,000,000 gallons.

The addition of the Bronx river supply, which began at a daily volume of 10,000,000 gallons, and was gradually increased to 15,000,000 gallons, gave only temporary and inadequate relief.

This led to passage of the Act creating the Aqueduct Commission, chapter 490 of the Laws of 1883. Under the direction of this Commission the construction of the new aqueduct was begun in 1884 and completed in July, 1890, when the structure was transferred to the care of this Department. The daily supply from the Croton watershed was at once increased to 135,000,000 gallons, and subsequently as follows: In 1891 150,000,000 gallons; 1892, 156,000,000 gallons; 1893, 164,000,000 gallons; 1894, 170,000,000 gallons; 1895, 174,000,000 gallons; 1896, 205,000,000 gallons; 1897, 210,000,000 gallons.

The large increase for 1896 and 1897 is partly due to a more liberal policy, which utilizes the water supply for flushing and cleansing asphalt-paved streets in the tenement districts during the summer, to promote the health and comfort of the tenement population.

The daily consumption of water for 1897, including 15,000,000 gallons from the Bronx and Byram rivers, is 226,000,000 gallons.

*Distributing System.*

During the year the water service has been extended in 125 different streets enumerated in the Chief Engineer's report. The following statement gives the sizes and length of additional water mains laid:

36 inch mains.....	2,681 linear feet
20 inch mains.....	12,318 linear feet
12 inch mains.....	39,098 linear feet
6 inch mains.....	84,221 linear feet

**Total**.....**139,018 linear feet = 26.33 miles**

Under the special appropriation of \$1,000,000 made by chapter 669 of the Laws of 1896 for water mains to increase the supply and pressure of water in the lower part of the city, there were laid:

48 inch mains.....	29,311 linear feet
36 inch mains.....	20,352 linear feet
20 inch mains.....	15,050 linear feet
12 inch mains.....	14,436 linear feet
6 inch mains.....	9,316 linear feet

**Total**.....**88,465 linear feet = 16.75 miles**

The two lines of large mains on Fifth avenue, from South Washington square (Fourth street) to Eightieth street, are completed, except the line on the east side of the avenue for the four blocks from Sixty-fifth street to Sixty-ninth street.

In connection with the laying of new water mains, 532 new stop-cocks and 632 new fire hydrants were placed.

Under a special appropriation for placing additional fire hydrants at locations selected by the Fire Department, to increase the facilities for extinguishing fires, 331 new fire hydrants were placed.

The distributing system now includes 816.85 miles of water mains, 8,633 stop-cocks, and 11,068 fire hydrants.

*High Service Supply.*

The first high service pumping works, to supply the parts of the city above the elevation at which water can be delivered by gravity from the City reservoirs, were erected at High Bridge, and were completed in 1870, having a capacity of delivering 6,000,000 gallons of water per day. The constant and rapid increase in buildings and population on the high grounds in the upper part of the city called for repeated additions to the capacity of the high service works.

In 1880 new pumping works were erected at Ninety-eighth street, west of Columbus avenue, with a daily capacity of 15,000,000 gallons. In 1892 this was increased by 10,000,000 gallons by the placing of new pumping engines. In 1896 new works were completed on the west bank of the Harlem river, near Washington bridge, having a daily capacity of 28,000,000 gallons.

There are now 38,000,000 gallons of water distributed daily from the high service works.

*Sanitary Protection of the Water Supply.*

By chapter 189 of the Laws of 1893, special powers were granted to the Department to acquire lands along the streams, lakes and reservoirs which are tributary to the City's water supply, and to take other measures to prevent pollution of the water. Under that act title has been obtained to 2,639 acres of land required in the Croton, Bronx and Byram river watersheds, and everything tending to the defilement of the water has been removed therefrom.

At the villages of Brewsters and Mt. Kisco, the Department continues to maintain plants for the disinfection of the sewage.

The Counsel to the Corporation has been furnished with maps of lands required around Lakes Mahopac and Kirk, and along the Muscot river in Putnam County. Surveys are in progress as to lands required along the streams emptying into the Cornell Reservoir.

**BRIDGE OVER THE HARLEM RIVER AT THIRD AVENUE.**

The completion of this structure has been delayed in consequence of several changes in the plans for the approaches made this year by the Board of Estimate and Apportionment. Possession has only recently been obtained of the lands required for the south approach. The Counsel to the Corporation has been furnished with the surveys and maps of lands required for the southwest approach and the widening of One Hundred and Thirty-eight street.

**BRIDGE OVER THE HARLEM RIVER AT FIRST AND WILLIS AVENUES.**

The contract for this bridge was let in October last by public letting to the lowest bidder, at \$1,039,607.42, which is below the Engineer's estimate. The contractor is now putting in place the plant for the construction of the bridge.

**BRIDGE OVER SPUYTEN DUUVIL CREEK.**

The work under the contract for this bridge is progressing very slowly.

ARCHES UNDER THE OLD CROTON AQUEDUCT AT BURNSIDE AVENUE. This work is progressing favorably and will be completed early next spring.

SEWERAGE AND DRAINAGE.

During the year 57,451 linear feet of sewers and culverts were added to the sewer system on Manhattan Island, which now includes 403.06 miles of sewers, with 5,743 receiving basins.

In the improvement and reconstruction of the old sewer system 16,645 linear feet of sewers and culverts were built.

At the close of the year work is in progress for the construction of 18,941 linear feet of sewers now under contract.

Plans and specifications are prepared for 3.30 miles of new sewers.

In 1870 the sewer system comprised 260.82 miles of sewers and 3,372 receiving basins. From 1870 to 1888 there were added 168 miles of sewers and 1,787 receiving basins. From 1889 to 1894 there were added 33 miles of sewers and 322 receiving basins. From 1895 to 1897, inclusive, there were added 21 miles of sewers and 162 receiving basins.

For details of the improvements made this year, I beg to refer to the annexed report of the Engineer in charge of sewers.

I mention, as an illustration of the incompleteness of the old sewer system, that on Broadway there are twenty-six blocks without sewers, and twelve blocks with sewers on one side only; on Fifth avenue, from Waverley place to Fiftieth street, there were thirteen blocks wholly or partly without main sewers, which have since been constructed simultaneously with the laying of large water mains; on Madison avenue, between Forty-second street and One Hundred and Thirty-fifth street, thirty-five blocks were without main sewers, which have now been completed in conjunction with the construction of the electric railway on that avenue.

STREET LIGHTING.

During the year 4.84 miles of additional streets on Manhattan Island and 4.71 new streets north of the Harlem river were lighted with gas lamps. On 2.73 miles of new streets in the newly annexed districts naphtha lamps were placed and lighted.

On 25.68 miles of streets on Manhattan Island and 5.43 miles of streets north of the Harlem river, the gas lamps have been displaced by electric lamps.

There are now 111.26 miles of streets south of the Harlem river and 88.31 miles of streets north of the Harlem river lighted by electric lamps.

The public lamp service now extends to 646.82 miles of streets, 3.11 miles of bridges and docks, and 109 1/2 acres of public parks.

Electric light was first introduced on our streets in 1881.

A tabular statement, attached to the report of the Superintendent of Lamps and Gas, shows the contract prices for lighting public lamps each year, from 1858 to 1897.

From 1858 to 1864 there were three gas companies, which were paid \$25 and \$28 per year for each lamp.

From 1865 to 1872 there were four gas companies, paid from \$45 to \$53 per year for each lamp.

From 1873 to 1880 there were seven gas companies, paid respectively \$12, \$17, \$19, \$30, \$35, \$42, \$45 and \$50 per year for each lamp.

For the first seven years that electric lamps were used, from 1881 to 1887, the Brush Electric Light Company was the only bidder, and charged 70 cents per night for each lamp, amounting to \$255.50 per annum. In subsequent years eight other electric light companies came into competition. The average price for each electric lamp per annum has been reduced to \$155.17, at which it has remained for the past three years.

The average price for lighting gas lamps, which has also been unchanged for the past six years, is now \$19.33 per year for each lamp.

STREET OBSTRUCTIONS.

The operations of the Bureau of Incumbrances for the year are summarized as follows:

- 3,781 complaints of obstructions received and attended to.
1,298 seizures and removals of obstructions made.
891 cart loads of abandoned material removed from streets.
526 dangerous shade trees, posts and stumps removed.
5,349 permits issued to place building material on streets.
252 permits issued for temporary sidewalk sheds.
13 permits issued to cut down shade trees.
1,328 miscellaneous permits issued.

REVENUE FROM THE WATER SERVICE.

The amounts collected by the Bureau of Water Register and paid into the City Treasury during the year are:

Table with 2 columns: Description of revenue source and Amount. Includes frontage rates on houses, penalties on frontage rates, water supplied in houses through meters, etc.

Total cash receipts \$3,822,420 22
Unpaid water rents returned in arrears as liens on real estate 499,806 11

Total revenue from the water service \$4,322,226 33

MISCELLANEOUS REVENUE.

The Department also collected and paid into the City Treasury:

Table with 2 columns: Description of revenue source and Amount. Includes vault permits, sewer permits, redemption of street obstructions, etc.

Total \$402,383 00

Very respectfully, CHARLES H. T. COLLIS, Commissioner of Public Works.

Title: Contract No.

The amount of the security will be twenty thousand (\$20,000) dollars.

The period of the contract will be for five years from 1st day of December 1902.

Each bid or estimate must be accompanied by a certified check on a solvent banking corporation in the City of New York, payable to the order of the Comptroller for five per centum of the amount for which the work bid for is proposed in any one year to be performed. The check should be enclosed in the envelope.

From the bids so received the Commissioner may select the bid or estimate the acceptance of which will in his judgment best secure the efficient performance of the work, or he may reject any or all of said bids as provided by section 544 of the Greater New York Charter.

Bidders are requested to make their bids or estimates upon the blank form prepared by the Commissioner, a copy of which with the proper envelope in which to enclose the bid together with a copy of the contract, including the specifications, in the form approved by the Corporation Council, and containing the terms and conditions approved by the Board of Estimate and Apportionment by its resolution of July 8, 1902, can be obtained upon application therefor at the office of the said Commissioner.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1008 OF THE "Greater New York Charter," the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears, of the assessment for OPENING AND ACQUIRING TITLE to the following named street in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTIONS 12 AND 13.

GUN HILL ROAD (formerly Olin Avenue)—OPENING, from Jerome Avenue to Bronx River. Confirmed May 28, 1902; entered July 19, 1902. Area of assessment includes all those lands, tenements and hereditaments and premises situated, lying and being in the Borough of the Bronx, in The City of New York, which taken together are

bounded and described as follows, viz.: Beginning at a point formed by the intersection of the easterly side of Moshulu parkway, North, with a line drawn parallel to and distant 100 feet southerly from the southerly side of a certain unnamed street running westwardly from the westerly side of East Two Hundred and Eighth street, nearly opposite the junction of Kosanuth place, with the easterly side of said Two Hundred and Eighth street to the easterly side of Moshulu parkway, North; running thence northerly along said easterly side of Moshulu parkway, North, and its prolongation northwardly on an arc of a circle whose radius is 782.9 feet to its intersection with a line drawn parallel to the northerly side of Gun Hill road and distant 100 feet northerly therefrom; thence easterly along said parallel line to its intersection with a line drawn parallel to the westerly side of Jerome Avenue and distant 100 feet westerly therefrom; thence northerly and northwesterly along said parallel line to its intersection with the westerly prolongation of a line drawn at an equal distance from Gun Hill road and East Two Hundred and Thirty-third street; thence easterly along said westerly prolongation and equally distant line to the centre line of the Bronx River; thence southerly along said centre line of the Bronx River to its intersection with the easterly prolongation of the middle line of the block between East Two Hundred and Seventh street and East Two Hundred and Ninth street; thence westerly along said easterly prolongation and middle line of the blocks to the easterly side of Perry Avenue; thence westerly on a straight line to the intersection of the northwesterly side of Reservoir Oval, West, with the easterly prolongation of the middle line of the block between East Two Hundred and Eighth street and East Two Hundred and Tenth street; thence westerly along said easterly prolongation and middle line of the blocks to its intersection with the easterly prolongation of a line drawn parallel to and distant 100 feet southerly from the southerly side of a certain unnamed street running westwardly from the westerly side of East Two Hundred and Eighth street, nearly opposite the junction of Kosanuth place, with the easterly side of said Two Hundred and Eighth street to the easterly side of Moshulu parkway, North; thence westerly along said easterly prolongation and parallel line to the point or place of beginning.

The above-entitled assessment was entered on the date hereinafter given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 150 of this act."

Section 150 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third Avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before September 15, 1902, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

EDWARD M. GROUT, Comptroller.

CITY OF NEW YORK, DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE, July 17, 1902.

Dated Borough of Brooklyn, City of New York, the 15th day of July, 1902. GEORGE L. RIVES, Corporation Counsel, Borough Hall, Brooklyn, N. Y. July 15, 1902.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of the wharfage rights, terms, easements, emoluments and privileges appurtenant to Pier old No. 26, East river, in the Borough of Manhattan, City of New York, and all right, title and interest in and to said pier, or any portion thereof, not now owned by The City of New York, on the East river, pursuant to the plan heretofore adopted by the Board of Docks, and approved by the Commissioners of the Sinking Fund.

PURSUANT TO THE STATUTES IN SUCH case made and provided, notice is hereby given that an application will be made to a Special Term of the Supreme Court of the State of New York in and for the First Judicial District, to be held in Part I. thereof at the County Court House in the City of New York, Borough of Manhattan, on the 25th day of July, 1902, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and Assessment in the above-entitled matter.

The nature and extent of the improvement hereby intended is the acquisition, in the name of and for the benefit of The City of New York, for the execution of a certain plan for the improvement of the water front of The City of New York, pursuant to the statutes in such case made and provided, and determined upon by the Board of Docks on the 13th day of April, 1871, and approved by the Commissioners of the Sinking Fund on the 27th day of April, 1871, as altered and amended by the Board of Docks on the 26th day of October, 1900, which alteration and amendment was approved by the Commissioners of the Sinking Fund on the 14th day of November, 1900, and which said plan and alteration and amendment thereof are on file in the office of the Department of Docks and Ferries, of all the wharfage rights, terms, easements, emoluments and privileges not now owned by The City of New York and appurtenant to the premises described as follows, to wit:

All the interest in the pier known as Pier old No. 26, East river, in the Borough of Manhattan, City of New York, not now owned by The City of New York, said interest being an undivided half interest. Said pier is situated about twenty-five feet easterly of Peck Slip and is bounded and described as follows, to wit:

Beginning at a point in the old bulkhead between Peck Slip and Dover street where the easterly side of the Peck Slip Pier East, or Pier old No. 26, East river, intersects the same, and running thence southerly along the easterly side of said old pier about 244 feet to its outer end; thence westerly and along the outer end of said old pier about 40 feet to the westerly side of said pier; thence running northerly along said westerly side about 248 feet to the old bulkhead between Peck Slip and Dover street; thence easterly along said bulkhead about 42 feet to the point or place of beginning.

Dated New York, July 12, 1902. GEORGE L. RIVES, Corporation Counsel, No. 2 Tryon Row, Borough of Manhattan, New York City.

FIRST JUDICIAL DISTRICT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of the wharfage rights, terms, easements, emoluments and privileges appurtenant to Pier old No. 24, East river, in the Borough of Manhattan, City of New York, not now owned by The City of New York, and all right, title and interest in and to said pier, or any portion thereof, not now owned by The City of New York, on the East river, pursuant to the plan heretofore adopted by the Board of Docks, and approved by the Commissioners of the Sinking Fund.

PURSUANT TO THE STATUTES IN SUCH case made and provided, notice is hereby given that an application will be made to a Special Term of the Supreme Court of the State of New York in and for the First Judicial District, to be held in Part I. thereof at the County Court House in the City of New York, Borough of Manhattan, on the 25th day of July, 1902, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and Assessment in the above-entitled matter.

The nature and extent of the improvement hereby intended is the acquisition, in the name of and for the benefit of The City of New York, for the execution of a certain plan for the improvement of the water front of The City of New York, pursuant to the statutes in such case made and provided, and determined upon by the Board of Docks on the 13th day of April, 1871, and approved by the Commissioners of the Sinking Fund on the 27th day of April, 1871, as altered and amended by the Board of Docks on the 26th day of October, 1900, which alteration and amendment was approved by the Commissioners of the Sinking Fund on the 14th day of November, 1900, and which said plan and alteration and amendment thereof are on file in the office of the Department of Docks and Ferries, of all the wharfage rights, terms, easements, emoluments and privileges not now owned by The City

of New York and appurtenant to the premises described as follows, to wit:

All the interest in the pier known as Pier old No. 24, East river, in the Borough of Manhattan, City of New York, not now owned by The City of New York, said interest being an undivided half interest. Said pier is situated about 75 feet westerly of Peck Slip and is bounded and described as follows, to wit:

Beginning at a point in the old bulkhead between Beckman street and Peck Slip where the westerly side of the Peck Slip Pier West, or Pier old No. 24, East river, intersects the same, and running thence southerly along the westerly side of said pier a distance of about 145 feet; thence deflecting to the east and running still southerly about 160 feet; thence deflecting to the west and running still southerly about 31 feet to the outer end of said old pier; thence easterly about 40 feet to the easterly side of said old pier; thence running northerly along the easterly side of said old pier about 48 feet; thence deflecting to the west and running still along the easterly side of said old pier about 186.65 feet; thence running still northerly a distance of about 117 feet to the old bulkhead between Beckman street and Peck Slip; thence westerly along said bulkhead a distance of about 40 feet to the point or place of beginning.

Dated New York, July 12, 1902. GEORGE L. RIVES, Corporation Counsel, No. 2 Tryon Row, Borough of Manhattan, New York City.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks relative to acquiring right and title to and possession of certain uplands, and lands, wharf property, wharfage rights, terms, easements, emoluments and privileges necessary to be taken for the improvement of the water front of The City of New York on the North river between West Eighteenth and West Twenty-third streets, and the easterly side of the marginal street, wharf or place adopted by the Board of Docks and approved by the Commissioners of the Sinking Fund and the North river, pursuant to the plan heretofore adopted by the Board of Docks and approved by the Commissioners of the Sinking Fund.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to a Special Term of the Supreme Court of the State of New York, in and for the First Judicial District, to be held in Part I. thereof, at the County Court House in the City of New York, Borough of Manhattan, on the 25th day of July, 1902, at the opening of the court on that day, or as soon thereafter as counsel can be heard thereon for the appointment of Commissioners of Estimate and Assessment in the above-entitled matter.

The nature and extent of the improvement hereby intended is the acquisition in the name of and for the benefit of The City of New York for the execution of a certain plan for the improvement of the water front of The City of New York on the North river, pursuant to the statutes in such cases made and provided, determined upon by the Board of Docks on the 13th day of April, 1871, and approved by the Commissioners of the Sinking Fund on the 27th day of April, 1871, as altered and amended by the Board of Docks on May 20, 1897, and approved by the Commissioners of the Sinking Fund on June 14, 1897, as further altered and amended by the Board of Docks on January 14, 1898, and approved by the Commissioners of the Sinking Fund on March 11, 1898, as again altered and amended by the Board of Docks on July 19, 1901, and approved by the Commissioners of the Sinking Fund on July 31, 1901, and which said plan and alterations and amendments thereof are on file in the office of the Department of Docks and Ferries, of the uplands and lands, wharf property, wharfage rights, terms, easements, emoluments and privileges hereinafter described and not now owned by The City of New York and situated in the Borough of Manhattan in The City of New York, namely:

Dated New York, July 12, 1902. GEORGE L. RIVES, Corporation Counsel, No. 2 Tryon Row, Borough of Manhattan, New York City. July 12, 1902.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title wherever the same has not been heretofore acquired, to VYSE STREET (although not yet named by proper authority), from West Farms road to Boston road, in the Twenty-third and Twenty-fourth Wards, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN THAT THE bill of costs, charges and expenses incurred by reason of the proceedings for taxation to one of the Justices of the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part I, to be held at the County Court House, in the Borough of Manhattan, in The City of New York, on the 25th day of July, 1902, at 10.30 o'clock in forenoon of that day, or as soon thereafter as counsel can be heard thereon; and that the said bill of costs, charges and expenses has been deposited in the office of the Clerk of the County of New York, there to remain for and during the space of ten days, as required by the provisions of section 999 of the Greater New York Charter, as amended by chapter 466 of the Laws of 1901.

Dated Borough of Manhattan, New York, July 12, 1902. WM. C. COZIER, LOUIS GORDON, J. O. MSHANE, Commissioners. JOHN P. DUNN, Clerk. July 12, 1902.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICES TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for the City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless accompanied by a certified check, upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to The City.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bid, or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. Plans and drawings at construction work may also be seen there.
