No. 427.

A GENERAL ORDINANCE providing for the issuing of permits for the erection of bay windows projecting beyond the building line.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Commissioners of Public Works and the Park Commissioners, having jurisdiction, shall issue permits for the erection of bay windows projecting beyond the building line, provided, in the opinion of the Commissioner having jurisdiction, no injury will come to the public thereby.

For the purposes of this ordinance a "bay window" shall be taken to mean and include all projections on the face of a building in the nature of windows, such as are commonly called bay windows, show windows, oriel windows and bow windows, without regard to the material of which they are constructed or to the purposes for which they are to be used.

Sec. 2. Before the erection of any bay window projecting beyond the building line shall have been commenced, the owner or his duly authorized agent shall make application in writing to the Commissioner having jurisdiction, on suitable blanks furnished by him, and shall state the length and width of the proposed bay window, the number of stories through which it is intended to be carried, and the number of square feet of area covered by that portion of the bay window projecting beyond the building line.

Each application for the erection of a bay window projecting more than one foot beyond the building line shall have indorsed thereon the consent of all the adjoining property owners within a distance of fifty feet from the centre of the bay window, on the same side of the street, meaning, thereby, so much of the side of a street as is intersected by any other street, on which it is proposed to be erected.

Each application shall be accompanied by a certified cheque for the amount of the compensation due the City for the privilege of erecting said bay window, as hereinafter provided.

Sec. 3. The amount that shall be paid as a compensation to the City for the privilege of erecting each bay window shall be not less than one dollar nor more than five dollars, for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line for each and every story through which it is carried, the rate to be based upon the assessed valuation of the property as confirmed by the City authorities.

The Commissioners of Public Works and the Park Commissioners shall divide the City into districts, throughout which, in each district, the rate per square foot shall be uniform, the maximum rate being charged where the assessed valuation per square foot is the greatest, and the minimum rate where the assessed valuation per square foot is the least, the intermediate rates being proportioned accordingly.

Sec. 4. Bay windows may be hereafter erected with a projection of not more than three feet beyond the building line, provided that when the projection exceeds one foot beyond the building line the total number of feet in width occupied by all the bay windows on the same frontage of the same building shall not exceed seventy-five per cent. of the width of the frontage of the building on which they are located.

Sec. 5. Permits for the erection of bay-windows shall be issued in duplicate, one of which shall be retained by the applicant and kept at the building during the erection of the window, and the other shall be filed by him, with the plans for the construction of the window, in the Department of Buildings. It shall be the duty of the applicant, upon the completion of the bay-window, to file with the Commissioner issuing the permit a certificate from a City Surveyor stating the dimensions of said window, the number of square feet contained therein, and the number of stories through which it has been carried, as erected.

Sec. 6. Permits granted pursuant to the provisions of this ordinance are revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof at any time hereafter by the Board of Aldermen of The City of New York, upon the recommendation of the Commissioner having jurisdiction, when the space occupied by said bay, or any portion thereof, may be required for any public improvement; or upon any violation of any of the terms or conditions upon which this permit is issued."

Sec. 7. Permits for the reconstruction of now existing bay-windows as defined by this ordinance, and for all bay-windows which shall be hereafter erected under the provisions of this ordinance, shall be issued by the Commissioner having jurisdiction, without the applicant's obtaining the consent of adjoining property owners, as provided in section 2 of this ordinance; provided that the bay-window, when reconstructed, shall have to greater projection or width, nor be carried through a greater number of stories, nor cover a greater area, than the window as originally constructed.

Sec. 8. Nothing herein contained shall be deemed to conflict with the provisions of the Building Code, and all bay-windows for which permits are issued, under the provisions of this ordinance, shall be erected in accordance with all the provisions of said Code in regard to the kind and quality of materials used.

Sec. 9. All fees received by the Commissioner of Public Works or the Park Commissioners for the issuing of permits for the erection of bay-windows shall be accounted for in proper books kept for that purpose, and shall be turned over by them to the Commissioners of the Sinking Fund and credited to the Fund for the Redemption of the City Debt.

Sec. 10. Any person, firm or corporation violating any of the provisions of this ordinance shall be liable to a fine of one hundred dollars (\$100) for each offense, and for ten dollars (\$10) for each and every day that such offense shall continue, which shall be duly sued for and collected.

Sec. 11. All ordinances or parts of ordinances inconsistent or conflicting with the provisions of this ordinance are hereby repealed.

Sec. 12. This ordinance shall take effect August 1, 1902. Adopted by the Board of Aldermen July 22, 1902. Approved by the Mayor July 29, 1902.
