FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT AT THE NEW BELLEVUE SECTION ON THE EAST RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE. The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from a line 118 feet north of and parallel with the northerly line of East Twenty-sixth street, northerly a distance of 312 feet to a line 25 feet south of and parallel with the southerly line of East Twenty-eighth street. The filling will extend westerly from the rear of the bulkhead wall or coping a distance of about from 37 to 145 feet to the face of the old granite bulkhead wall.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall and will extend inshore on a regular grade to the top of the ground at the adjacent or inshore bank.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to 17,700 cubic yards.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the area between about East Twenty-sixth and East Twenty-eighth streets, as above more fully described, and being the basin calling for the filling of a void space estimated at about 17,700 cubic yards.

The above estimated amount in cubic yards is arrived at without making any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required.

The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 40 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling may be started at the old bulkhead wall and carried outshore.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed.

The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 300 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above-described basin up to grade shall be completed within sixty days from the date of the receipt of said notification.

At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling the time for completing said filling shall be extended so much as may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of the said work, in accordance with the terms and conditions hereof.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures. Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
