This consent was upon condition that your petitioner within thirty days execute under its corporate seal an instrument in writing, to be first approved by the Corporation Counsel, and file the same in the office of the Comptroller within thirty days from passage of said resolution granting said consent, wherein said company should promise, covenant and agree that the consent of the Board of Estimate and Apportionment so given to the change of route should not in any wise change, alter or amend any of the terms, conditions and requirements in the ordinance of the Board of Aldermen aforesaid fixed and contained, and heretofore duly accepted by said company.

And that thereafter an instrument in writing, approved and executed as provided for in the

foregoing resolution, was duly filed by your petitioner in the office of the Comptroller within thirty days from the passage thereof.

That on the 17th day of June, 1908, this petitioner, by a vote of two-thirds of its directors at a meeting of the Board of Directors regularly held, pursuant to due notice, changed and altered the route of that part of its main line situate, lying and being between Berrian street and the Harlem River, and that portion of the branch line north of Leland avenue, and adopted an amended route of said part of its main line, and of said part of its branch line, and also adopted a map and profile of its entire route thus amended, and authorized its president to file said map and profile of said route, duly certified, in the office of the County Clerk of New York City, and thereafter, on the 17th day of June, 1908, the said map and profile of said route as amended and adopted by your petitioner was filed in the office of the County Clerk of the County of New York, and thereupon the route of your petitioner's road became and was lawfully amended in conformity with the said map and profile thus filed.

That said amended route became and now is the lawful route of this petitioner, located in all respects to conformity with law.

That the description of said route as thus amended, being the entire route of your petitioner in the County of New York, and of the streets of The City of New York, in the Borough of The Bronx, which would be crossed or intersected by said route, are as follows:

All of the above mentioned streets crossed by said branch line, except Wyatt avenue, Tremont avenue (East One Hundred and Seventy-seventh street), Westchester avenue, Clasons Point road, Ferris avenue, Morris lane, Old Ferry road and Fort Schuyler road, are proposed streets, as shown on the City layout of streets.

That the route of your petitioner between the Bronx and Harlem Rivers, as previously located, ran through a section of The Bronx largely devoted to apartment houses and dwellings, and to construct the road of your petitioner over such location would entail the destruction of numerous large buildings and the ruining of large amounts of real estate for other than railroad purposes. That in addition thereto the street system as now laid out in The Bronx would be seriously interfered with by the construction of your petitioner's road over the said route.

That by reason of the foregoing facts, the cost of constructing the road over the said route would be so great as practically to prohibit the Railway Company from building and operating the line and the delay in acquiring the real estate would necessarily postpone the period of completion for an indefinite time.

The route as amended is situated in a section of The Bronx where real estate has not been devoted to building purposes and where the right of way can be acquired at a more reasonable price and within a reasonable time, and under this route your petitioner can proceed with the construction of its road and complete the same at a cost and within a period of time which will render it practicable to build and operate its railroad. That the change in the route of the branch line is made necessary by the change in the main line of your petitioner, to which the consent of your Honorable Board is requested as herein set forth.

That a copy of the said map and profile filed in the County Clerk's office on the 17th day of June, 1908, as aforesaid, showing the amendment to said route, which copy is marked Exhibit A, June 17, 1908, is submitted herewith.

And your petitioner respectfully prays that the consent of the Board of Estimate and Apportionment to the said route as lawfully amended in conformity with the map and profile filed on the 17th day of June, 1908, may be given to this petitioner.

NEW YORK, WESTCHESTER AND BOSTON RAILWAY COMPANY.

Allen Wardwell, being duly sworn, deposes and says: That he is the President of the New York, Westchester and Boston Railway Company, and that he has read the foregoing petition and knows the contents thereof and that the same is true to his own knowledge, except as to the matters therein stated to be alleged on information and belief, and as to those matters he believes it to be true.

ALLEN WARDWELL, Sworn to before me this 18th day of June, 1908. WILLIAM A. COKELEY, Notary Public, New York County.

Whereas, The foregoing petition from New York, Westchester and Boston Railway Company, dated June 18, 1908, was presented to the Board of Estimate and Apportionment at a meeting held June 19, 1908; and

Whereas, A second petition of the same date has been received from the said company asking for certain modifications in the ordinance approved by the Mayor August 2, 1904, to wit:

- (a) By permitting the use of overhead trolley system;
(b) By providing the City with the right to string three cables, instead of furnishing two conduits.
(c) By permitting connections with two other railroads at a distance not exceeding 2,500 feet, instead of 1,500 feet.
(d) By permitting connections with the rapid transit railway at West Farms, and the proposed rapid transit railway at Westchester avenue.
(e) By extending the time until August 2, 1911, in which to complete the four-track railway from the City line to One Hundred and Seventy-fourth street; and until August 2, 1913, for the construction of the line from One Hundred and Seventy-fourth street to the Harlem River.

Resolved, That in pursuance of law this Board sets the 18th day of September, 1908, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

Dated New York, June 26, 1908. JOSEPH HAAG, Secretary.

PUBLIC NOTICE IS HEREBY GIVEN

that at a meeting of the Board of Estimate and Apportionment, held January 24, 1908, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of The City of New York: The petition of the East River Terminal Railroad respectfully shows to your Honorable Board:

I. That your petitioner is a corporation duly organized under and by virtue of the laws of this State as a railroad corporation for the transportation and carriage of freight exclusively, with an office and principal place of business located at No. 112 Wall street, in the Borough of Manhattan, City of New York, and that William Butler Duncan, Jr., of Port Washington, N. Y., is the President, and John McCafferty, of the Borough of Brooklyn, is the Secretary thereof.

II. That your petitioner is desirous of establishing and maintaining large freight terminals or stations in the Borough of Brooklyn, City of New York, where all classes of freight may be shipped and received by the public, and delivered to and received from the trunk lines traversing the United States and Canada, which said freight terminals or stations, when established, will connect with and be used in conjunction with the freight terminal stations, already established in

the same locality, of the New York Central and Hudson River Railroad, West Shore Railroad, Vermont Central Railroad, Lehigh Valley Railroad, Erie Lines, Central Railroad of New Jersey, Grand Trunk lines and other railroad and transportation lines.

III. Said terminals or freight stations are to be for the use of the public for the shipment, receipt and distribution of all classes of freight, and are designed to relieve conditions in the Eastern District, or Williamsburg section, of the Borough of Brooklyn, which has grown almost unprecedently in an industrial way in the last seven years, and has increased almost a quarter of a million in population in the same time, while the facilities for the handling of freight are practically as they were twenty-five years ago, and therefore totally inadequate to respond to present requirements. Numerous large industries have recently located their manufactories in this section, with the result that the present facilities are unequal to the large volume of freight being shipped, received and distributed there, and, in order to meet the imperative needs of the locality, your petitioner, in the event of the granting of a franchise by your Honorable Board, as herein prayed for, proposes to establish and maintain the aforesaid terminals, and, in order to render a plan of operation which will admit of the receipt and distribution of freight directly to and from the cars upon said premises affected, it will be necessary to haul the cars from the point of delivery from the floats upon which they are ferried to Brooklyn from the terminal of the various trunk lines, which point of delivery is on the East River water-front, between North Third and North Fourth streets, in said Borough.

IV. To the end that your petitioner may carry out its proposed plan, it hereby petitions your Honorable Board for a franchise to operate a railroad in the Borough of Brooklyn, City of New York, on and along North Fourth street, a public highway, and across Kent avenue and Wythe avenue, in said Borough, the road so to be operated along North Fourth street to be a single track road, entering upon said highway at a point midway between the East River water-front and Kent avenue, and running thence easterly along said North Fourth street about 300 feet to a point about midway between Kent avenue and Wythe avenue and across the sidewalk of said North Fourth street into terminal premises already the property of Havemeyers & Elder. The western terminus of said track being on the easterly side of the East River, at a point between North Third and North Fourth streets, and the eastern terminus to be at the heretofore mentioned point on North Fourth street, midway between Kent avenue and Wythe avenue. And, further, to operate a railroad for freight purposes exclusively across Kent avenue, a public highway, between North Third and North Fourth streets, in the Borough of Brooklyn, City of New York, from the westerly side or house line thereof to the easterly side or house line thereof, which shall consist of six tracks, and also a franchise for a railway on Wythe avenue, a public highway in the said Borough and City, between North Third and North Fourth streets, from the westerly side or house line thereof to the easterly side or house line thereof, which shall consist of three tracks, and, for the aforesaid purposes, to lay down and maintain a track of regulation or conventional width along North Fourth street, between the points heretofore indicated, and six tracks of regulation or conventional width across Kent avenue, between North Third and North Fourth streets, and three tracks of regulation or conventional width in Wythe avenue, between the points aforesaid, all of which are to connect freight stations or terminals proposed to be erected, and indicated on a plan attached hereto, entitled "Plan showing proposed tracks on North Fourth street, Kent avenue and Wythe avenue, Borough of Brooklyn, New York, to accompany application of East River Terminal Railroad, dated January 15, 1908, to the Board of Estimate and Apportionment," all of which tracks are to be installed without injury or interference with pipes, mains and conduits already in said streets and avenues, and are to be maintained in a depressed situation, so as to present no obstacle to vehicular traffic.

V. That the motor power to be employed shall be an electric engine or steam engine of the dummy type.

VI. That a previous application has heretofore been made to this Board for the franchise and privilege hereinafter prayed for by Messrs. Havemeyers & Elder, but such application was denied upon the advice of the Corporation Counsel, owing to the decision in the case of Hatfield against Straus, and the present application represents a renewal by your petitioner, a duly incorporated railroad corporation.

Dated New York, January 15, 1908. EAST RIVER TERMINAL RAILROAD.

By W. B. DUNCAN, Jr., President. City and State of New York, County of New York, Borough of Manhattan, ss.

William Butler Duncan, Jr., being duly sworn, deposes and says that he is the President of the East River Terminal Railroad, the petitioner herein; that he has read the petition herein and knows the contents thereof, and that the same is true to his own knowledge except as to the matters therein stated to be alleged on information and belief, and as to those matters he believes it to be true.
