Special Note—The allowable uses for the respective concessions above stated are permissible by the Board of Transportation. In addition to any permit issued by the Board of Transportation it will be necessary for the successful bidder or permittee in some cases to have permits from other City departments or governmental agencies in order that the uses permitted by the Board of Transportation may be enjoyed. Therefore the Board of Transportation will not guarantee that all permits for such uses will be forthcoming from such other municipal or governmental agencies, but will, wherever the same is necessary to the issuance by any other municipal or governmental agency of a permit, grant consent therefor. Should the successful bidder or permittee, after reasonable diligence, be unable to procure permits from other governmental departments or agencies necessary for the use above permitted by the Board of Transportation, it will return any deposits made by the successful bidder or permittee and neither the Board of Transportation nor The City of New York shall be liable to such successful bidder or permittee for damage on account of inability of the successful bidder or permittee to enjoy a use above set forth.

No permit will be issued at a rental less than the minimum or upset monthly rental above set forth for the respective concessions.

Tenure shall be on a month to month basis beginning April 1, 1934, and shall continue subject to termination on 30 days' notice by either party to the other in writing.

Wherever the use permitted is for the parking and display of automobiles, the lot must be so graded by the successful bidder (hereinafter called the "permittee" or "applicant") at his own expense, that surface water will be drained toward the street and away from abutting property, and in no event may such surface water be drained into an opening leading into any subway structure. It shall be the duty of the permittee to erect suitable barriers or protections around any subway structures within the limits of his concession and to so fix the entrances and exits to the parking yard as to avoid passage of vehicles across gratings over any openings leading into a subway structure.

The permittee may not sublet or assign any interest in his concession without the express permission in writing of the Board of Transportation or its authorized representatives.

In the case of Concession N, the permittee may use and occupy any building or so much thereof as shall be found upon the premises, but the Board of Transportation does not guarantee that a useable building or stand will be on the concession at the beginning of occupancy of the concession. The

permittee shall so conduct his business on this concession as to avoid unfair competition with neighboring stores, either by abutting his wares to the public or, as it is called, "hally-hoing," or by purposely undercutting prices for the same goods or continued undercutting of prices after notice by the Board of Transportation. Compliance with the foregoing will be insisted upon and non-compliance will result in cancellation of the concession.

In the case of Concession L the permittee shall be required to close any opening along the westerly line of the concession between the buildings Nos. 59 Leonard st. and 101 Franklin st. or in the side walls of either of these buildings with brick or concrete wall securely anchored not less than 12 inches thick up to a level one foot above the surface of the ground as graded for the proposed use, and wherever such openings are closed the exterior surface shall be waterproofed. If it shall be necessary to remove the board fence at present about the premises, the materials of such fence shall be carefully taken apart and disposed of in accordance with the direction of a responsible officer in the office of the Borough President of Manhattan, which office caused this fence to be erected.

No rights that may be granted to the permittee in connection with any of the concessions above referred to shall be construed to prevent the advertisement and sale by the Board of Transportation of the property, and the Board of Transportation may cause a suitable sign to be prominently displayed on the concession advertising any sale of the premises or the leasing thereof.

No concession shall be permitted to devolve into a gasoline station or a service station, except that the permittee will be permitted to have gasoline in the tanks of the automobiles and to keep on hand an amount not in excess of ten gallons of gasoline to be used in case of an emergency. Incidental repairs of an emergency character to be made upon automobiles, but portions of automobiles and accessories shall not be sold as staples or displayed for sale on any concession, except with the separate express consent in writing of the Board of Transportation or its authorized representative.

The rental or charge for the parking of one automobile shall not exceed 35 cents for any twelve-hour period or fraction thereof.

Buildings or sheds of a presentable type may be erected on the concessions for the protection of employees and patrons and automobiles, but no such building shall be erected until the plan therefor shall have been approved by the Design Division of the Board of Transportation and by the Department of Buildings of the Borough of Manhattan, if that department shall deem approval necessary. At least five days before the beginning of construction of any such building or structure a plan sufficiently distinct and clear shall be submitted to the Design Division of the Board of Transportation giving a ground plan, front and side elevations, and indicating the materials to be used. If required to do so by such Design Division or by the Board of Transportation, reasonable changes shall be made. Approval by such Design Division or the Board of Transportation will not be unreasonably withheld.

Bidders will be required to deposit with each bid in the form of cash or a certified check drawn on the City of New York, or on a solvent account on a financial institution doing business within The City of New York a sum equivalent to one month's rental. Such sum shall be deposited in a sealed envelope or container, together with the bid. More than one bid shall not be permissible in a given container, but a bidder may separately bid for as many concessions as desired.

The successful bidder must, upon notice in writing that his bid has been accepted, call at the office of the Board of Transportation, Room 811, No. 250 Hudson st., Manhattan, New York City, within twenty-four hours after receipt of such notice mailed to the address given in the bid, prepared to execute in triplicate a form of application containing the terms hereinafter set forth generally and such other terms as Counsel to the Board of Transportation shall find necessary in the interests of The City of New York and that Board, and to deposit an additional one month's rent; that the total payment with the application shall amount to a sum equivalent to two months' rent, one month's rent to be applied for the month of April, 1934, and the other month's rent to be applied by the Board of Transportation for the final month of occupancy. If the successful bidder fails to comply with the provisions of this paragraph, the deposit, equivalent to one month's rent referred to in the last preceding paragraph may, if the Board of Transportation so determines, be forfeited to The City of New York, not as a penalty but as liquidated damages.

The Board of Transportation may reject any one, or more, or all bids, if in its judgment the interests of The City of New York so require. Dated March 13, 1934.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidders, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. The purchaser shall not lease, occupy, cause, or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto and will place proper and sufficient guards and fences and warning signals by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against, and from all damage and costs to which it, they or any of them be put by reason of injury, to the person or property of another resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractors.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the line of any proposed street or other public improvement, and if any such building, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and re-sale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
