No. 224

In Memoriam-Gustave Hartung

The Board of Aldermen has learned with profound sorrow of the death of Gustave Hartung, for seven years a member of this Board, representing the 47th Aldermanic District. No man in his political circle was more esteemed and respected. In the activities of his life he displayed sincerity and devotion to the needs of his district and its vast and varied population; the more he did the more he wanted to do. An admirable man, a staunch friend, his death leaves a gap it will take a long time to fill.

Resolved, That this Board of Aldermen spread upon its minutes its expression of sorrow at the death of Gustave Hartung and tender to his bereaved family its heartfelt sympathy in their hour of sorrow.

Resolved, That the chair and desk of the departed member be draped in mourning for a period of 30 days.

Resolved. That a copy of this tribute, suitably engrossed and duly authenticated he Mayor. President of the Board and City Clerk, be transmitted to the family e deceased.

Resolved, That as a further mark of respect the Board do now adjourn.

Adopted by the Board of Aldermen June 4, 1935. Approved by the Mayor June 10, 1935. MICHAEL J. CRUISE, City Clerk and Clerk of the Board of Aldermen.

This plan provides for the removal of the Colege Point ferry terminal of the Clason Point-College Point Municipal Ferry from its present location on the East River, at the foot of 14th ave-nue to 5th avenue and 122d street, Borough of Queens. The proposed location of the ferry terminal

would shorten the ferry line from 1.53 to 0.64 miles, more than one-half the distance. The shorter route would permit twice the present frequency of boat trips, thereby providing greater accommodations than at present and improving neans of communication between the Boroughs of The Bronx and Queens and other Long Island

The plan is open for the inspection of any citizen at the office of the Comptroller of The City of New York, Room 527, Municipal Building, Borough of Manhattan, at all times during busi-ness hours until the day of the hearing.

within thirty (30) days after the opening of bids, the deposit will be returned to him, This contract is to be financed wholly by a

Borough Presi

loan and grant by the Federal Emergency Adhe provisions of the National Industrial Recover-Act and to the rules and regulations prescriber by the President of the United States or the Administrator of Federal Emergency Administra ion of Public Works.

Before any money shall be due and payable to the contractor, he will be required to furnish a detailed estimate showing labor costs, material costs and other costs in detail, in form satisfactory to the State Engineer. Attention is particularly called to the fact that the estimate must be in suitable form to serve as a basis for the preparation of monthly estimates.

The contractor will be required to furnish the Resident Engineer-Inspector with sworn copies of all payrolls relating to work normally performed on the site of the project, and with delivery tickets, invoices and cancelled bills or vouchers for all materials, plant and equipment purchased for and delivered to the site of the project which are to be incorporated in the project or used in he construction. The payrolls must present evidence as to veteran employment by placing "y opposite their names.

"The President of the Borough of The Bronx reserves the right to waive minor informalities in any bid, subject to the approval of the State En-gineer, but conditional bids will not be accepted." Attention of bidders is particularly called to he requirement as to the minimum wage rates t e paid under this contract, as well as to other provisions set forth in "Instructions to Bidders." Bids must be submitted in sealed envelope. The bidder is warned that the preponderance o labor to be employed must be taken from the City of New York, and the remainder from the State of New York, provided that such labor is avail-able and qualified to perform the work to which the employment relates. He is further warned

that the bid of each subcontractor must be based on conforming with all of the provisions set forth in the contract to which it applies and which re-late thereto, that the subcontractor must comply with all of the requirements of the Federal Emergency Administration of Public Works, and that the subcontractor will be required to sign the certificate of compliance (PWA Form No. 61, revised March, 1934). The term "subcontractor is defined to mean any person, firm or corpora-tion other than the employees of the contractor. who contracts to furnish labor or labor and ma-

terials at the site of the project. Bidders are required to inform themselves fully of the conditions relating to construction and labor under which the work will be or is now being performed, and this contractor must employ, so far as possible, such methods and means in the carrying out of his work as will not cause any interruption or interference with any other contractors.

Time allowed, 25 consecutive working days. Security required, \$2,200. Note-The above Engineer's preliminary esti-

mates include all the necessary excavation and backfilling; together with all incidentals and ap-purtenances necessary for the proper execution

of the work described. The foregoing Engineer's preliminary estimates of the total cost of the completed work are to be taken as the 100 per cent, basis and test for bidding. Proposals shall each state a single percentage of such 100 per cent. (such as 95 per cent., 100 per cent. or 105 per cent.), for which all materials and work called for in the proposed contract and notices to bidders are to be fur-nished to the City. Such percentage as bid for each contract shall apply to all unit items speci-fied in the Engineer's preliminary estimate to an amount necessary to complete the work described in the contract. Each bid must be accompanied by a deposit in cash or certified check payable to the order of the Comptroller of the City in the sum of 5 per cent, of the security required for the contract.

On all proposed contracts having an item for granite or stone curb, or items for both, or for granite heading stones, cut and dressed within the City limits, the bidder must submit alternative bids, that is, two percentages of the total cost of the completed work. One percentage (A) shall be based on the Engineer's estimate set forth in the proposal for bids and the second percentage (B) on the said estimate except that there shall he no restrictions as to the point or place where curb or heading stones are to be cut and dressed. No bid will be considered unless it is accom-panied by a certificate, duly executed by the bid-der, stating that the bidder is complying with and will continue to comply with each approved code of fair competition or agreement to which he is subject.

purtenances necessary for the proper execution of the work described.

The foregoing Engineer's preliminary estimates of the total cost of the completed work are to be taken as the 100 per cent, basis and test for bidding. Proposals shall each state a single per-

centage of such 100 per cent. (such as 95 per cent., 100 per cent. or 105 per cent.), for which all materials and work called for in the proposed contract and notices to bidders are to be fur-nished to the City. Such percentage as bid for each contract shall apply to all unit items speci-fied in the Engineer's preliminary estimate to an amount necessary to complete the work described in the contract. Each bid must be accompanied by a deposit in cash or certified check, payable to the order of the Comptroller of the City in the sum of 5 per cent. of the security required

for the contract. No bid will be considered unless it is accompanied by a certificate, duly executed by the bidder, stating that the bidder is complying with and will continue to comply with each approved code of fair competition or agreement to which he is subject
