But the attention of candidates is called to the State Child Labor Law and the Mandatory Retirement Law which prevent the employment of persons under the age of 18 or over the age of 80. While the Commission will comply with the Wadsworth Act, therefore, and will examine applicants below and above these ages, such candidates cannot reasonably expect to be appointed.

Statements with respect to education and experience will be rated after an oral interview and after examination of the applicant's statements, upon the extent to which such education and experience has fitted the candidate to perform the duties of the position. The rating will be based upon oral answers to questions concerning education and experience; upon the written statement filed by the candidate, and upon such supple-

mentary information obtained by special inquiries as is deemed requisite. Candidates who pass the written test will submit such publications and other material including school records and reports as required. The oral test will include the following factors: Technical competence, judgment, clearness and quickness of comprehension, manner and speech.

Applications: Received 9 a. m., Wednesday, August 10, to 4 p. m., Wednesday, August 31, 1938, Room 1400, Municipal Building, Manhattan. Save time by using ordinary mail to request application and to return filled out application instead of coming to the Application Bureau. When writing for application blank send self-addressed, 9-inch envelope, stamped four cents from Manhattan and Bronx and six cents elsewhere for mailing you the application. However, applications mailed to the Commission from Manhattan and Bronx require two cents an ounce; from other places three cents an ounce.

An application mailed to the Commission will not be accepted unless it is postmarked upon the envelope at an hour not later than 4 p. m. on the last day of filing. Unless the envelope is so postmarked, the hour at which the application is deposited in the post office will not be considered.

Caution: Applications mailed to the Commission with insufficient postage will be accepted subject to the payment of a 25-cent additional fee to cover the cost of postage and additional clerical work entailed by such acceptance.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidders, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All of the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds except the exterior walls of the buildings and their foundations, and the sidewalks and curbs in front of said buildings extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers and Highways in the Borough in which the buildings are situated and furnish the Department of Finance with a certificate from the Bureau of Sewers and Highways that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the buildings.

Failure to remove said buildings, appurtenances, or any part thereof, within 30 days from the date of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all money paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within 30 days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signals by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury, to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any

improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and pointed and made watertight where they have been disturbed by the operation of the contractors.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the line of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Board of Estimate of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids. The said sale is held under the supervision of the Director of Real Estate of the Board of Estimate who is authorized to cause the sale to be advertised and to direct the sale thereof.
