NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY-OWNED PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto shall be sold to the highest bidder, who must pay by cash or a certified check drawn to the order of the City Treasurer and must deposit with the Comptroller of The City of New York, cash or a certified check drawn to the order of the Comptroller of The City of New York, for not less than half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $100, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit, the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant for rent or otherwise, excepting the necessary watchman or the workmen engaged in the actual removal thereof, shall of itself be a breach of the above conditions of sale.

The sale shall be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be removed from the premises. None of the dirt, debris or waste resulting from the demolition or removal shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in street in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Bureau of Real Estate of the Board of Estimate with a certification from the Department of Water Supply, Gas and Electricity, that this has been performed.

The purchaser at the sale shall also remove all abandoned house sewer connections to the main sewer in the street, and the opening of the main sewer in the street shall be properly closed in compliance with the directions of the Bureau of Sewers in the office of the President of the Borough in which the buildings are situated, and furnish the Bureau of Real Estate of the Board of Estimate a certification from such Bureau of Sewers that the work has been properly performed.

The permit for all openings in the streets to be obtained by and at the expense of the purchaser of the building.

Failure to remove any buildings, appurtenances, or any part thereof, within 30 days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by the purchaser on account thereof at the time of the sale and the bidder's assent to the above conditions being understood to be implied by the act of bidding. The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within 30 days from the day of possession, and the successful bidder shall provide and furnish all materials, equipment and labor necessary therefor, and shall place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and shall indemnify and save harmless The City of New York, its officers, agents and servants and each of them against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from any cause whatsoever in the performance of the work, or in guarding the same or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractors.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvements, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Director of Real Estate of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, part of buildings and machinery included therein, or to reject any and all bids.
